Effective Resolution of Collective Labour Disputes A. F. M. Brenninkmeijer 2006 In the early summer of 2005, an international expert meeting was organized at the University of Antwerp (Belgium). This expert meeting was convened to discuss the current methods of handling collective labour disputes in the countries that are parties to the European Convention on Labour Rights and to report the outcomes of a survey on the methods employed in handling collective labour disputes in these countries in different parts of the global economy. The development of this book is the result of this expert meeting, which aimed to address the subject of collective labour disputes amongst others with a focus on the methods employed in handling collective labour disputes in different parts of the global economy. The book offers analyses, good practices and developments for third party intervention in collective labor conflicts in global and local changing situations. The book can also serve as a useful guide, allowing HR experts at organizations in China, and to familiarize them with major advances and remaining challenges in this field. The author also puts forward suggestions on how to improve the proceedings of collective labor dispute resolution in China as an example to study access to justice in China’s social and economic transition. The principal aim of the legal approach to access to justice and dispute resolution in China is the protection of the law and the personal rights and responsibilities of the legal person. The principle of the law and the personal rights and responsibilities of the legal person.
