Wound Care Carrie Sussman 2007 Designed for health care professionals in multiple disciplines
and clinical settings, this comprehensive, evidence-based wound care text provides basic and advanced information on wound healing and therapies and emphasizes clinical decision-making. The text integrates the latest scientific findings with principles of good wound care and provides a complete set of current, evidence-based practices. This edition features a new chapter on wound pain management and a chapter showing how to use negative pressure therapy on many types of hard-to-heal wounds. Technological advances covered include ultrasound for wound debridement, laser treatments, and a single-patient-use disposable device for delivering pulsed radio frequency.

**Lippincott Video Series for Nursing Assistants** Pamela Carter 2015-04-30 With more than 8 hours of engaging footage, the updated "Lippincott Video Series for Nursing Assistants" shows complete step-by-step demonstrations of the core skills performed daily by nursing assistants. The Second Edition includes brand new footage to reflect best practices and equipment currently found in the health care setting. In addition to teaching technical skills, this dynamic video series promotes qualities such as compassion and empathy, and demonstrates non-technical skills such as respecting the individual, caring for people with dementia, death and dying, and entry into the workforce. Ideal as a stand-alone learning tool or as a companion to the Carter suite of textbooks, these videos parallel the skills in the textbooks and are organized into fifteen modules for easy reference. The new edition also provides the ability to view closed captioning in English or Spanish.

**Lippincott Acute Care Skills for Advanced Nursing Assistants** Pamela Carter 2019-02-11 This combined text and workbook builds on the basic concepts and skills that the nursing assistant has already mastered. The tasks nursing assistants in advanced settings are expected to perform vary greatly in health care
settings across the nation. Even if nursing assistants are not allowed to perform tasks independently, they are often expected to understand the care provided and assistant other members of the health care team. The spirit of “lifelong learning” is at the heart of this text, which has been written in a way to inspire nursing assistants to set goals for career advancement and reach them.
