Turkish Kaleidoscope Jenny White 2021-05-04 A powerful graphic novel that traces Turkey's descent into political violence in the 1970s through the experiences of four students on opposing sides of the conflict Turkish Kaleidoscope tells the stories of four unforgettable protagonists as they navigate a society torn apart by violent political factions. It is 1975 and Turkey is on the verge of civil war. Faruk and Orhan are from conservative shopkeeping families in eastern Anatolia that share a sense of new possibilities. Nuray is the daughter of villagers who have migrated to the provincial city where Yunus, the son of an imprisoned teacher, was raised in genteel poverty. While attending medical school in Ankara, Faruk draws a reluctant Orhan into a right-wing nationalist group while Nuray and Yunus join the left. Against a backdrop of escalating violence, the four students fall in love, have their hearts broken, get married, raise families, and struggle to get on with their lives. But the consequences of their decisions will follow them throughout their lives as their children begin the story anew, skewed through the kaleidoscope of historical events. Inspired by Jenny White's own experiences as a student in Turkey during this tumultuous period as well as original oral histories of Turks who lived through it, Turkish Kaleidoscope reveals how violent factionalism has its own emotional and cultural logic that defies ideological explanations.

Cairn James Thomas Fletcher 2017-02-06 From the author of Poems from Terra, landmarks, monuments, and tombstones along the road of life. Meditations on nature, love, longing, war, and being. PRAISE FOR JAMES THOMAS FLETCHER: A penetrating and provocative smorgasbord. His poems sing and inform in thoughtful, non-conforming, wonderful ways. Life's harmonies coupled with a realistic sprinkling of irony and brilliant dissonance. An existential celebration of life. From intimacies of love to an exploration of the universe, by way of a walk on the noir side ... Fletcher spotlights the quirks of human longing and the enigmas of memory. I have always favored the slow sipping of a refreshing libation mixed with a perfect blend of romance and magic ... adorned with the lemon-lime twist of macabre fantasy. The breadth of topics is impressive. [Fletcher’s] depth of thought, humor, love for words, and poetic skill made the book a joy and a challenge to read. Humor, passion, reverence, irreverence; a connection to people, a reflection on life and self, an exploration of ideas. The tantalizing hints and allusions made me want to have the poet in the same room so that I could plumb his depths. Highly personal, experiential... from the flowing excellence of the visual. The intensity of feeling is superior... Their complexity is almost painful... I was moved, confused, astounded, curious, excited. A 'Fletcher' adds feathers to arrows to make them fly true, James Thomas Fletcher's poems ... fly straight to a reader's heart. Fun, intelligent, trenchant. BLUE LAKE thunderstorms rage outside the window and a young heron sits in the middle of my lake like a blue asparagus on the back of a sun drenched iguana OBSIDIAN Obsidian. The word lies immovable on the page. A boulder among pebbles of words. Poets unearth it as an ancient coin found beneath the sand or sprinkle it like a rare dark jewel. Its thud-heavy weight attracts the eye like light to a black hole. TUCKPOINTING When no one's looking the ivy vine slips its feet into the mortar between the line of scuffed bricks, tucks itself into the cracks and waits creviced for winter.

The act of making personal notes and capturing the current situation into meaningful drawings gave birth to "Kaleidoscope of Cheer and Hope". Mots de L'Histoire Jacques Ranciere 1994 History in our day is still a story, and yet one from which we expect to tell the truth - not just the facts, the names and events of the past, but the invisible order and forces behind them. How can the language of history balance these seemingly contrary tasks - the narrative, the scientific, and the political? This is the question Jacques Ranciere explores in "The names of history", a meditation on the poetics of historical knowledge. In the works of writers from Jules Michelet to Fernand Braudel, Ranciere traces an ongoing revolution in historical study, a movement that challenged, in the practice of language, the opposition of science and literature. By way of a commentary on Erich Auerbach, he shows how fictional narrative intertwines with historical narrative to produce a "truth" that retains mythical elements. The poetics of knowledge Ranciere develops here is an attempt to identify the literary procedures by which historical discourse escapes literature and gives itself the status of a science. His book is also an appreciation of Braudel, whose work in the Annales school greatly advanced this project. Ranciere follows and extends Braudel's discursive production of new agencies of history, which accounts for both the material conditions in which history takes place and the language in which it is written.

This Jade World

Ira Sukrungruang 2021-10 This Jade World centers on a Thai American who has grown through a series of life changes. Ira Sukrungruang married young to an older poet. On their twelfth anniversary, he received a letter asking for a divorce, sending him into a despairing spiral. How would he define himself when he was suddenly without the person who shaped and helped mold him into the person he is? After all these years, he asked himself what he wanted and found no answer. He did not even know what wanting meant. And so, in the year between his annual visits to Thailand to see his family, he gave in to urges, both physical and emotional; found comfort in the body, many bodies; fought off the impulse to disappear, to vanish; until he arrived at some new moment of understanding. During this time, he sought to obliterate the stereotype of the sexless Asian man and began to imagine a new life with new possibilities. Through ancient temples and the lush greenery of Thailand, to the confines of a stranger’s bed and a devouring couch, This Jade World chronicles a year of mishap, exploration and experimentation, self-discovery, and eventually, healing. It questions the very nature of love and heartbreak, uncovering the vulnerability of being human.

Helen M. Luke 1992 At an age when most people would be thinking about retirement, Helen M. Luke embarked on two new careers, helping found the Apple Farm Community, a retreat and study center near Three Rivers, Michigan, and simultaneously making her debut as a writer, drawing on a lifetime of spiritual and psychological counseling. These essays, published over the past three decades, show the breadth of Luke’s experiences as a Jungian psychologist, lecturer, and author. The collection is divided into three sections, indicative of three main streams in Luke’s own thinking; her distinctive viewpoint as a woman who has lived through and observed every decade of the present century; the importance of Anglo-Catholicism as a touchstone for responsibility and discrimination in her search; and her lifelong love of examining the world’s great literature as a route towards knowledge.
Luke's ideas are often iconoclastic to contemporary attitudes of sexual politics, religious dogma, and literary interpretation: her approach is individual and unique, rigorous and refreshing, as she combines these three paths—the way of woman, the way of discrimination, and the way of story—into a kaleidoscope of the inner journey so necessary to us all.
