The Second World War Antony Beevor 2012-06-05 A masterful and comprehensive chronicle of World War II, by internationally bestselling historian Antony Beevor. Over the past two decades, Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award winning books have included *Stalingrad* and *The Fall of Berlin 1945*. Now, in his newest and most ambitious book, he turns his focus to one of the bloodiest and most tragic events of the twentieth century, the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st, 1939 to V-J day on August 14, 1945 and the war's aftermath, Beevor describes the conflict and its global reach -- one that included every major power. The result is a dramatic and breathtaking single-volume history that provides a remarkably intimate account of the war that, more than any other, still commands attention and an audience. Thrillingly written and brilliantly researched, Beevor's grand and provocative account is destined to become the definitive work on this complex, tragic, and endlessly fascinating period in world history, and confirms once more that he is a military historian of the first rank.

Redes sin causa Lovink, Geert 2016-12-20 Con la gran mayoría de los usuarios de Facebook atrapados en un frenesí de friending, liking y commenting, ¿en qué momento podemos desconectar para comprender las consecuencias de nuestras infosaturadas vidas? ¿Qué nos obliga a participar tan diligentemente con los sistemas de redes sociales? *Redes sin causa* examina nuestra obsesión colectiva con la identidad y la autogestión, junto con la fragmentación y la información de sobrecarga endémica de la cultura contemporánea en línea. Con escasez de teoría sobre las consecuencias sociales y culturales de los servicios en línea más populares, Lovink ofrece un análisis crítico pionero de nuestro sobrevalorado mundo en red a partir de estudios de casos en los motores de búsqueda, video online, blogging, radio digital, activismo en los media y la saga de Wikileaks. Este libro ofrece un poderoso mensaje a profesionales de los medios y a los teóricos: colectivamente vamos a dar rienda suelta a nuestra capacidad crítica para influir en el diseño de la tecnología y en los espacios de trabajo, si no queremos desaparecer en la nube. Incisivo pero nunca pesimista, Lovink, partiendo de su larga experiencia en la investigación de medios de comunicación, nos ofrece una crítica de las estructuras políticas y poderes conceptuales incluidos

en las tecnologías que dan forma a nuestra vida cotidiana.

Mystery of Banking, The Memories, Dreams, Reflections

C. G. Jung 2011-01-26 An eye-opening biography of one of the most influential psychiatrists of the modern age, drawing from his lectures, conversations, and own writings. In the spring of 1957, when he was eighty-one years old, Carl Gustav Jung undertook the telling of his life story. *Memories, Dreams, Reflections* is that book, composed of conversations with his colleague and friend Aniela Jaffé, as well as chapters written in his own hand, and other materials. Jung continued to work on the final stages of the manuscript until shortly before his death on June 6, 1961, making this a uniquely comprehensive reflection on a remarkable life. Fully corrected, this edition also includes Jung's VII Sermones ad Mortuos. [Know Your Walther Pp and Ppk Pistols](#) E. J. Hoffschmidt 1994-08-01

Fatwa Jacky Trevane 2013-09-12 Jacky was twenty-three when she arrived in Egypt for a holiday with her boyfriend, Dave. Little did she know that an innocent holiday would result in a horror beyond her imagination. Separated from Dave in a bustling street, Jacky fell and twisted her ankle, only to be swept up by a handsome, chivalrous Egyptian called Omar. It was love at first sight. Jacky spent those ten days living with the family - sharing a bed with Omar's sister - irresistibly attracted to Omar. Swept away by her infatuation she married him and converted to Islam before returning to England to her parents. Returning to Cairo against her parents' advice but full of hopes and plans, Jacky's dream turned into a nightmare. As a blue-eyed blonde she was never going to fit in with life in a poor suburb where the women walked at all times with their heads bowed. During the next eight years she suffered non-stop physical and emotional abuse. She had to escape with her two little girls but how? This tense story never quite ends. Even now, Jacky is living in the shadow of a death threat. A fatwa is issued legitimately under Islamic law to a Muslim woman who leaves

her husband. Jacky to protect herself and her daughters minute by minute, day by day, never quite sure what may be around the corner...

Undermining Global Security Amnesty International 2004 Contains disturbing examples of exports from existing or new EU Member States of military, security and police (MSP) equipment, technology and expertise used for grave human rights violations or breaches of international humanitarian law. Reveals the arms production and exporting activities of the ten new countries joining the EU on 1st May 2004. Explores how the enlarged EU will have over 400 companies in 23 countries producing small arms and light weapons. Demonstrates how this dramatic enlargement of the EU presents both potential opportunities and dangers for European arms control. Analyses the current policies and practices of 15 EU Member States and the 10 new Member States with regard to their control of the transfer of military, security and police (MSP) technology, weaponry, personnel and training. It demonstrates why Amnesty is convinced that more effective EU mechanisms to control MSP exports are urgently required to help protect human rights and ensure respect for international humanitarian law.

To Kill a Mockingbird Harper Lee 2014-07-08 Voted America's Best-Loved Novel in PBS's The Great American Read Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, *To Kill a Mockingbird* has been translated into more than forty

languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

Less Than Nothing Slavoj Žižek 2012-05-22 A thousand-page resurrection of Hegel, from the bestselling philosopher and critic who has been hailed as “one of the world’s best-known public intellectuals” (New York Review of Books) For the last two centuries, Western philosophy has developed in the shadow of Hegel, an influence each new thinker struggles to escape. As a consequence, Hegel’s absolute idealism has become the bogeyman of philosophy, obscuring the fact that he is the defining philosopher of the historical transition to modernity, a period with which our own times share startling similarities. Today, as global capitalism comes apart at the seams, we are entering a new period of transition. In *Less Than Nothing*—the product of a career-long focus on the part of its author—Slavoj Žižek argues it is imperative we not simply return to Hegel but that we repeat and exceed his triumphs, overcoming his limitations by being even more Hegelian than the master himself. Such an approach not only enables Žižek to diagnose our present condition, but also to engage in a critical dialogue with key strands of contemporary thought—Heidegger, Badiou, speculative realism, quantum physics, and cognitive sciences. Modernity will begin and end with Hegel.

The Makarov Pistol Henry C Brown 2016-09-23 The Makarov Pistol entered service as the primary service pistol in the armed forces and security services of the Soviet Union in 1951. It continues to serve

in the forces of the Russian Federation, and the former Soviet Union, and of nations around the world. It has been estimated that some 5 million Makarov pistols had been produced in the Soviet Union and Russian Federation alone up 2002, and production continues for military, police and civil markets in Russia to this day. Additionally, the Makarov Pistol was also produced under license in East Germany, Bulgaria and China. The Makarov Pistol has served around the world in conflicts and security duties in all climates and terrains, and can claim the distinction of being the first firearm to be carried into space. Despite the large numbers and the widespread use of the Makarov Pistol, it remained a rare and little known firearm among western collectors until the end of the Cold War. In the 1990s however, large numbers of Makarov Pistols, accessories and its previously unobtainable 9x18mm cartridge were exported to the west with the end of the Cold War and the collapse of the Eastern Bloc, opening up a new field of firearms collecting. While collectors have been documenting and recording the many aspects of the Makarov Pistol over the last 25 years, this information has never been systematically consolidated into a handy reference book - until now. This book documents the Makarov Pistols produced by the Soviet Union and Russian Federation, and the Pistole M, the version produced in East Germany. This is the first volume of a two volume series documenting the history, features, manufacturing variations and markings of the Makarov Pistol, its accessories, documentation and other collectibles available to the collector. This is a book by collectors, for collectors, and it is the first comprehensive collector's review of the Makarov Pistol.

Christ and the Bible, Third Edition John Wenham 2009-08-01 Defense of the Bible begins with rational proofs for the historicity and accuracy of its documents. Christ and the Bible places the argument for the authority of scripture squarely on Jesus. With uncluttered logic and straightforward prose Wenham marshals Gospel evidence to show Jesus' own view of Scripture—that it is (1) historically accurate, (2) authoritative, (3) the standard for ethics, and (4) the

verbally inspired revelation of God. He then considers why we should listen to Jesus when he makes such claims and why "Christ's view should be the Christian view." The study substantiates Jesus' reliability influence on all New Testament writers. Finally, Wenham considers two related problems: first, which writings really belong in the Bible; second, the reliability of the text as now available. The presentation is easy to read and understand. This third edition updates and dialogs with recent developments.

All About Dogs Patti Chiappa 2017-07-31

We love our pets. Dogs have always been man's best friend. Our loyal companions, our protectors. They have served us in our homes, in wartime, and the blind. They love us unconditionally. They would lay down their life for us. The domestic dog is a member of the genus Canis (canines) that forms part of the wolf-like canids. New research seems to show that the dog's high sociability may be affected by the same genes as in humans. Dogs perform many

roles for people, such as hunting, herding, pulling loads, protection, assisting police and military, companionship and, more recently, aiding handicapped individuals. This influence on human society has given them the sobriquet "man's best friend." In this book, you will read about famous dogs, different type of dog breeds, what to fed your dog, how to train your new puppy, dog names, best animal hospitals in the U.S.A., what not to fed your dog, where to get a service dog, signs that your dog may be sick and much more. If you love dogs, this book was written for you!

Walther Pistols John Walter 2022-04-28

While the PP and PPK were intended for police work, the Walther P 38 was produced for the Germany military; all three pistols have garnered a formidable international reputation since the 1930s. The innovative Walther PP (Polizeipistole), a double-action semi-automatic pistol intended for the law-enforcement market, became available in 1929 and went on to arm the police of several European countries in the 1930s. Its smaller cousin the PPK, more readily concealed for undercover work but with reduced magazine capacity, was produced from 1931. Intended to replace the P 08 Luger, the Walther P 38 was issued from 1940 and equipped the armed forces of Germany and other countries during and after World War II, but never entirely replaced the Luger in German service. All three pistols went on to have lengthy and varied service across the world after 1945. Both the PP and the PPK remain in production today, while the P 38 re-emerged as the P1 and equipped West German forces from 1963 until 2004, when it was replaced

by the P8. In this study, noted authority John Walter assesses the origins, development, use and legacy of these three high-profile semi-automatic pistols, alongside other Walther variants, such as the tiny .25 ACP Modell 9.

Diplomacy Henry Kissinger 2012-10-01

'Kissinger's absorbing book tackles head-on some of the toughest questions of our time .

. . Its pages sparkle with insight' Simon Schama in the NEW YORKER

Spanning more than three centuries, from Cardinal Richelieu to the fragility of the 'New World Order', DIPLOMACY is the now-classic history

of international relations by the former Secretary of State and winner of the Nobel Peace Prize. Kissinger's intimate portraits of

world leaders, many from personal experience, provide the reader with a

unique insight into what really goes on -- and why -- behind the closed doors of the

corridors of power. 'Budding diplomats and politicians should read it as avidly as their

predecessors read Machiavelli' Douglas Hurd in the DAILY TELEGRAPH

'If you want to pay someone a compliment, give them Henry Kissinger's DIPLOMACY ... It is

certainly one of the best, and most enjoyable [books] on international relations

past and present ... DIPLOMACY should be read for the sheer historical sweep, the

characterisations, the story-telling, the ability to look at large parts of the world as

a whole' Malcolm Rutherford in the FINANCIAL TIMES
