**King Peggy** Peggielene Bartels 2013-02-12 The charming real-life fairy tale of an American secretary who discovers she has been chosen king of an impoverished fishing village on the west coast of Africa. King Peggy chronicles the astonishing journey of American secretary, Peggielene Bartels, who suddenly finds herself king to a town of 7,000 people on Ghana's central coast, half a world away. Upon arriving for her crowning ceremony in beautiful Otuam, she discovers the dire reality: there's no running water, no doctor, no high school, and many of the village elders are stealing the town's funds. To make matters worse, her uncle (the late king) sits in a morgue awaiting a proper funeral in the royal palace, which is in ruins. Peggy's first two years as king of Otuam unfold in a way that is stranger than fiction. In the end, a deeply traditional African town is uplifted by the ambitions of its decidedly modern female king, and Peggy is herself transformed, from an ordinary secretary to the heart and hope of her community.

**Special Operations Forces FM 3-18** United States United States Army Special Operations Command 2014-05-01 There has always been a romantic fascination with special operations forces (SOF). The idea of secret commandos or Rangers striking from the shadows surprising the enemy with overwhelming speed, violence of action, and cutting-edge technology appeals to America's image of highly trained, elite Soldiers. There is, however, another Soldier who fights from the shadows. This one is perhaps less known and far less understood. His real weapons are a deep understanding of terrain, the relationships built, and the influence developed to motivate and train others to take up the fight. These Soldiers are the U.S. Army SF, the "quiet professionals" whom history and popular culture often overlook. Designed to organize, train, and support indigenous personnel in behind-the-lines resistance activities, SF belongs to an organization unique in the Army's history. Founded at the Psychological Warfare Center at Fort Bragg in 1952 and based upon lessons learned and formation used in guerrilla warfare during World War II, its sole purpose was UW. The experience in Vietnam gave SF a second purpose: countering a subversive insurgency. This brief history identifies the precursors and major developments that created modern U.S. Army SF. FM 3-18 is the principal manual for Special Forces (SF) doctrine. It describes SF roles, missions, capabilities, organization, mission command, employment, and sustainment.

**Vulcan Test Pilot** Octopus Publishing Group

2009-12-08 In 2007 a restored Avro Vulcan Mark 2 - XH558 - took to the skies to help commemorate the 25th anniversary of the Falklands conflict. To coincide with this the memoirs of one of its test pilots, Tony Blackman, was published to great acclaim. Now the first book about test flying this monumental delta-wing aircraft which dominated the history of the late 20th century is available in paperback. Although Tony puts the developments, demonstrations, incidents and accidents in their political and historical context, his story is a highly personal one. He explains how this awesome aircraft became a national treasure and captured the imagination of the whole country. His words, descriptions and hitherto largely unpublished photographs will make people feel as he did the excitement of handling such an incredibly powerful monster always in the knowledge that he had to be in complete charge all the time as the monster could and did bite back.

**Development Through the Lifespan** Laura E. Berk 2013-08-05 Laura Berk's Development Through the Lifespan is relied upon in classrooms worldwide for its clear, engaging writing style, exceptional multicultural and cross-cultural focus, cutting-edge consideration of the interrelationships between heredity and environment, rich examples, and long-standing commitment to presenting the most up-to-date scholarship. This new edition continues to offer students research-based practical applications that they can relate to their personal and professional lives. Laura Berk, renowned professor and researcher, has revised the text with new pedagogy, a heightened emphasis on the interplay between heredity and environment, and an enhanced focus on many social policy issues, while emphasizing the lifespan perspective throughout. The latest theories and findings in the field are made accessible to students in a manageable and relevant way.
Berk's signature storytelling style invites students to actively learn beside the text's "characters." Students are provided with an especially clear and coherent understanding of the sequence and underlying processes of human development, emphasizing the interrelatedness of all domains—physical, cognitive, emotional, social—throughout the text narrative and in special features. Berk also helps students connect their learning to their personal and professional areas of interest. Her voice comes through when speaking directly about issues students will face in their future pursuits as parents, educators, health care providers, social workers, and researchers. As members of a global and diverse human community, students are called to intelligently approach the responsibility of understanding and responding to the needs and concerns of both young and old. While carefully considering the complexities of human development, Berk presents classic and emerging theories in an especially clear, engaging writing style, with a multitude of research-based, real-world, cross-cultural, and multicultural examples. Strengthening the connections among developmental domains and of theory and research with applications, this edition's extensive revision brings forth the most recent scholarship, representing the changing field of human development. My Turn on the Fire Lines Richard a. Meo 2014-12-01 This book describes the trials of probationary firefighter Richard A. Meo from his training at the New York City Fire Department Firefighting School at Randall's Island, through his assignments as a Firefighter, Lieutenant, and Captain. Over one hundred fires and emergencies are chronicled from 1980 to 2003. The major events include the 1981 West Side Pier Fire, the Grand Central Station Fire 1985, Gramercy Park Steam Explosion 1989, Bankers Trust Office Building Fire 1992, World Trade Center Bombing 1993, and September 11, 2001. ReThinking a Lot Eran Ben-Joseph 2015-01-30 There are an estimated 600,000,000 passenger cars in the world, and that number is increasing every day. So too is Earth's supply of parking spaces. In some cities, parking lots cover more than one-third of the metropolitan footprint. It's official: we have paved paradise and put up a parking lot. In ReThinking a Lot, Eran Ben-Joseph shares a different vision for parking's future. Parking lots, he writes, are ripe for transformation. After all, their design and function has not been rethought since the 1950s. With this book, Ben-Joseph pushes the parking lot into the twenty-first century. Ben-Joseph shows that parking lots can be aesthetically pleasing, environmentally and architecturally responsible, and used for something other than car storage. He introduces us to some of the many alternative and nonparking purposes that parking lots have served -- from RV campgrounds to stages for "Shakespeare in the Parking Lot." He shows us parking lots that are lushly planted with trees and flowers and beautifully integrated with the rest of the built environment. With purposeful design, Ben-Joseph argues, parking lots could be significant public places, contributing as much to their communities as great boulevards, parks, or plazas. For all the acreage they cover, parking lots have received scant attention. It's time to change that; it's time to rethink the lot.

F*cking History The Captain 2020-08-11 History that doesn't suck: Smart, crude, and hilariously relevant to modern life. Those who don't know history are doomed to repeat it. Too bad it's usually boring as sh*t. Enter The Captain, the ultimate storyteller who brings history to life (and to your life) in this hilarious, intelligent, brutally honest, and crude compendium to events that happened before any of us were born. The entries in this compulsively readable book bridge past and present with topics like getting ghosted, handling haters, and why dog owners rule (sorry, cat people). Along the way you'll get a glimpse of Edith Wharton's sex life, dating rituals in Ancient Greece, catfishing in 500 BC, medieval flirting techniques, and squad goals from Catherine the Great. You'll learn why losing yourself in a relationship will make you crazy—like Joanna of
Castile, who went from accomplished badass to Joanna the Mad after obsessing over a guy known as Philip the Handsome. You’ll discover how Resting Bitch Face has been embraced throughout history (so wear it proudly). And you’ll see why it’s never a good idea to f*ck with powerful women—from pirate queens to diehard suffragettes to Cleo-f*cking-patra. People in the past were just like us—so learn from life’s losers and emulate the badasses. The Captain shows you how.

**Parentology** Dalton Conley 2014-03-18
An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

**Icons and Idiots** Bob Lutz 2014-09-30
When Bob Lutz retired from General Motors in 2010, after an unparalleled forty-seven-year career in the auto industry, he was one of the most respected leaders in American business. He had survived all kinds of managers over those decades: tough and timid, analytical and irrational, charismatic and antisocial, and some who seemed to shift frequently among all those traits. His experiences made him an expert on leadership, every bit as much as he was an expert on cars and trucks. Now Lutz is revealing the leaders—good, bad, and ugly—who made the strongest impression on him throughout his career. Icons and Idiots is a collection of shocking and often hilarious true stories and the lessons Lutz drew from them. From enduring the sadism of a Marine Corps drill instructor, to working with a washed-up alcoholic, to taking over the reins from a convicted felon, he reflects on the complexities of all-too-human leaders. No textbook or business school course can fully capture their idiosyncrasies, foibles and weaknesses – which can make or break companies in the real world. Lutz shows that we can learn just as much from the most stubborn, stupid, and corrupt leaders as we can from the inspiring geniuses. He offers fascinating profiles of icons and idiots such as... Eberhard von Kuenheim. The famed CEO of BMW was an aristocrat-cum-street fighter who ruled with secrecy, fear, and deft maneuvering. Harold A. “Red” Poling: A Ford CEO and the ultimate bean counter. If it couldn’t be quantified, he didn’t want to know about it. Lee iacocca: The legendary Chrysler CEO appeared to be brilliant and bold, but was often vulnerable and insecure behind the scenes. G. Richard “Rick” Wagoner: The perfect peacetime CEO whose superior intelligence couldn’t save GM from steep decline and a government bailout. As Lutz writes: We’ll
examine bosses who were profane, insensitive, totally politically incorrect, and who “appropriated” insignificant items from hotels or the company. We’ll visit the mind of a leader who did little but sit in his office. We’ll look at another boss who could analyze a highly complex profit-and-loss statement or a balance sheet at a glance, yet who, at times, failed to grasp the simplest financial mechanisms—how things actually worked in practice to create the numbers in the real world. The result is a powerful and entertaining guide for any aspiring leader.

**Heidegger and Modernity** Luc Ferry 1990

"Heidegger and Modernity is an intervention in the Heidegger debate in France which many may see as decisive. Its central claim is that the responses of left Heideggerians to continuing disclosures regarding Heidegger’s Nazi affiliations fail to come to terms with central ambiguities in his philosophical responses, both early and late, to modernity and technology. . . . Incisive and hard hitting, Luc Ferry and Alain Renault have condensed in a short and tightly organized book both a judicious and well-informed account of the Heidegger question and an implicit defence of humanism which has a strong political resonance."

**Twelve Years a Slave** Solomon Northup 2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

**Stutz Auto Interchange Manual** 1927-1935 Jo Pocorobba 2016-07-15

This 1927-1935 parts interchange manual is 131 pages and a must if you are working on your major U.S. car or restoring it. This is a true interchange manual unlike others that only list places to buy parts and do not identify the interchangeability of parts. A must for every restoration and / or maintenance project saving money and research time! This manual has been designed to help you in the purchase and identification of original equipment parts. It should save you many hours of time locating the parts you need. With this manual you will know exactly what parts from which vehicles are identical. There may be no need to pay a high price for a supposedly rare part when it may be identical to many other parts. This manual covers all major makes of cars for the years of 1927 thru 1935 including:

- Auburn, Austin, Blackhawk, Buick, Cadillac, Chandler, Chevrolet, Chrysler, Continental, Cord, Desoto, Devaux, Dodge, Durant, Erskine, Essex, Ford, Franklin, Graham-Paige, Graham, Hudson, Hupobile, Jordan, Lafayette, La Salle, Lincoln, Marmon, Marquette, Nash, Oakland, Oldsmobile, Packard, Paige, Peerless, Pierce Arrow, Plymouth, Pontiac, REO, Rockne, Star, Studebaker, Stutz, Terraplane, Velie, Viking, Whippet, Willys, and Willys-Knight. **Iacocca** Lee Iacocca 1986-06-01

"Vintage Iacocca . . . He is fast-talking, blunt, boastful, and unabashedly patriotic. Lee Iacocca is also a genuine folk hero. . . . His career is breathtaking.”—Business Week He’s an American legend, a straight-shooting businessman who brought Chrysler back from the brink and in the process became a media celebrity, newsmaker, and a man many had urged to run for president. The son of Italian immigrants, Lee Iacocca rose spectacularly through the ranks of Ford Motor Company to become its president, only to be toppled eight years later in a power play that should have shattered him. But Lee Iacocca didn’t get mad, he got even. He led a battle for Chrysler’s survival that made his name a symbol of integrity, know-how, and guts for millions of Americans. In his classic hard-hitting style, he tells us how he changed the automobile industry in the 1960s by creating the phenomenal Mustang. He goes behind the scenes for a look at Henry Ford’s reign of intimidation and manipulation. He recounts the miraculous rebirth of Chrysler from near bankruptcy to repayment of its $1.2 billion government loan so early that Washington didn’t know how to cash the check.

**Life Is Seven Seconds Long** J. Peter Meo 2009-12 This book is about the love of family and the truly remarkable adventures that goes along with life. About the sacrifices a young man made to give beauty back to the world. "Life is ten seconds long and you will be lucky to live seven" resonates throughout the tragedy and triumphs of an Italian immigrant family. Unlike the stories of millions of people in the early 20th Century, this young man was never bitter about how tough his life was and the burdens he carried. He inspired his brother who inspired the world with works of art that continue to have an impact. The readers will discover how precious every second is. It will make you laugh and cry. The story is unforgettable. The book you are about to read will inspire you and your family with stories you can relate to while measuring every second that goes by.

**Drawn in Colour** Vivien Hamilton 2017-10-03
The Burrell Collection in Glasgow houses more than twenty paintings, pastels, and drawings by Edgar Degas (1834-1917) that include his most recognisable motifs: ballet dancers, bathers, jockeys, and women at work. Together with a selection of the National Gallery’s oils and pastels, they represent every stage of Degas's career. The authors show how the immediacy of these works is enhanced by the artist's energetic technique. These are not so much spontaneous sketches as daring experiments in form and color. Essays explore Degas's innovative use of pastels; his career and the ongoing critical assessment of his art; and the life and milieu of his contemporary Sir William Burrell, the wealthy Scottish shipping magnate and philanthropist, for whom forming this impressive collection of Degas's works was an unusual foray into contemporary art.
