Guns 101 David Steier 2011-06-22 With a background in firearms instruction, sales, and organizations, Steier's knowledge has been cultivated through years of in-depth experience and per-sonal dedication. In Guns 101, Steier covers the basics (what guns are for and how they work), but also discusses many types of firearms, firearm accessories, and gun activities—enough to help any reader carry on an intelligent conversation. From shop etiquette to do-it-yourself repairs, Guns 101 answers all of your gun questions. Complete with diagrams and photographs that make all of the technical details clear, this book is essential reading for any newcomer to the world of guns. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home. **The Illustrated History of Firearms, 2nd Edition** Jim Supica 2020-05-26 Showcasing more than 1,700 firearms in full color! From the earliest hand cannons dating back to 1350, to the finest sporting rifles of the 21st Century, this 2nd edition of The Illustrated History of Firearms covers them all. Spectacular, full-color photos of more than 1,700 guns with detailed captions walk readers through the background and development of virtually every type of firearm ever created, and the people who influenced their use and designs. More than a reference book, The Illustrated History of Firearms brings context to the role firearms have played in shaping world events while also charting the development of today's guns for self-defense, competition, recreation and hunting. Painstakingly researched by expert curators at the NRA National Firearms Museum in Fairfax, Virginia, this 320-page, hardbound work of art is as educational as it is beautiful. Whether you're an avid gun collector or shooter, a history buff, or simply want to better understand the seemingly countless types of firearms in today's world, this book is a must-have.

NRA Firearms Fact Book 1994

Blue Book of Tactical Firearms Values Steven P. Fjestad 2016-04-01

California Gun Laws C. D. Michel 2019 Having firearms for self-defense, sport, and hunting is your individual constitutional right. But exercising that right carries extraordinary responsibilities. Along with your responsibility to know and follow safety procedures, you have an obligation to comply with all applicable state, federal, and local laws. [This book] explores and explains the California laws that affect firearm owners. There are over 800 California state statutes regulating the manufacture, distribution, sale, possession, and use of firearms. There are thousands of overlapping federal laws regulating firearms. And there are hundreds of administrative regulations, local ordinances, and California Department of Justice Bureau of Firearms' written and unwritten policies that also apply to California gun owners. With all the overlapping regulations, it's no wonder that confusion runs rampant among California gun owners, as well as among police, prosecutors, and judges.

Taking Your First Shot Lynne Finch 2013-06-13 Numbers don't lie; more and more women are purchasing guns and learning to shoot! While shooting used to be a male-dominated sport, women across the country have begun discovering that a trip to the range not only is relaxing, but also brings with it a sense of strength and empowerment. Taking Your First Shot is an introductory guide perfect for either those stepping out onto the range for the first time or those looking to brush up on their skills. Author Lynne Finch coaches women on the decision to learn to shoot, how to find formal training, selecting and purchasing a handgun, defensive versus practice ammunition, storing and caring for your gun, and concealed carry options. Along with learning the shooting basics, Finch also teaches readers the importance of situational awareness and the basics of self-defense. Sometimes a gun isn't always an answer, and it's important to have a proportional response to the situation. Finch begins with teaching readers how to become aware of their surroundings, what to watch for, and how to respond. From there, she goes on to define proportional response and why carrying pepper spray, a kubotan, or even a whistle can make all the difference. Learning to shoot is a personal decision, but with the proper training and practice, shooting can become both an enjoyable and liberating sport.

Practical Pistol Reloaded Ben Stoeger 2016-06-04 This book answers the "how to" questions about shooting technique. How do you hold the gun? How do you shoot fast? These questions and many more are answered inside. This material is geared for the USPSA, IPSC, or IDPA action shooting competitor. This is the revision to Ben Stoeger's book "Practical Pistol". This new edition is revised to reflect technique changes that have taken place over the last few years. The sport of Practical Shooting is changing quickly and becoming more competitive every day. This updated version of "Practical Pistol" is a must have for any serious USPSA or IDPA shooter.

Citizen-protectors Jennifer Carlson 2015 "From gang- and drug-related shootings to mass shootings in schools, shopping centers, and movie theatres, reports of gun crimes fill the headlines of newspapers and nightly news programs. At the same time, a different kind of headline has captured public attention: a steady surge in pro-gun sentiment among Americans. A Gallup poll conducted just a month after the Newtown school shootings found that 74% of Americans oppose a ban on hand-guns, and at least 11 million people now have licenses to carry concealed weapons as part of their everyday lives. Why do so many Americans not only own guns but also carry them? In *Citizen-Protectors*, Jennifer Carlson offers a compelling portrait of gun carriers, shedding light on Americans' complex relationship with guns. Delving headlong into the world of gun carriers, Carlson spent time participating in firearms training classes, attending pro-gun events, and carrying a firearm herself. Through these experiences she explores the role guns play in the lives of Americans who carry them and shows how, against a backdrop of economic insecurity and social instability, gun carrying becomes a means of being a good citizen, an idea that not only pervades the NRA's public literature and statements, but its training courses as well. A much-needed counterpoint to the rhetorical battles over gun control, *Citizen-Protectors* is a captivating and revealing look at gun culture in America, and is a must-read for anyone with a stake in this heated debate"--

Firearm Fundamentals - TX Gary L. Behr 2013-06-23 FIREARM FUNDAMENTALS - How to be a Safe and Confident Shooter A MUST READ for Every New Shooter! — And a great read for ALL shooters! This well illustrated compendium introduces a new or non shooter to the diverse fields of firearms SIX NEW EDITIONS! — UPDATED with the latest information! Now separate editions with specific Concealed Carry Laws for select individual States! FLORIDA - TEXAS - UTAH - WASHINGTON State - WISCONSIN - U.S. (universal) Plus 20% more pages and expanded training exercises! INSTRUCTOR & DEALER rates at: www.FirearmFundamentals.net FIREARM FUNDAMENTALS is an easy-to-read guide, from the basics to advanced. Feel confident, comfortable taking the next step in protecting you & your family and enjoy sport shooting or hunting Whether your interests are in pistols, rifles, shotguns, scopes, sights, stopping power, cleaning and more, answering many of the questions of an emerging shooter Glossary Over 600 relevant terms and descriptions. 18 Appendices Nearly 200 web references, practice exercises and training targets. Practical Shooting, Beyond Fundamentals Brian Enos 2012-03-21 Brian Enos's Practical Shooting, Beyond Fundamentals - often considered the competitive shooters bible - includes in-depth coverage of the technical and mental aspects of training and competition, and will offer new insights as you continue to improve. "There is only one person in the world who I would allow to talk to my students, and that is Brian Enos." Rob Leatham, 15+ time National & World IPSC Champion. This isn't just another "how to fire a gun" book. This one talks about shooting.... The keys to consistent, high-speed shooting are within you right now. This book will show you ways to bring them out. Through Brian's advice, you'll learn how to recognize and break down the barriers that are limiting your performance—you may begin to look at shooting in an entirely different way. You'll learn to pressure-proof your match performance, how different types of shooting require different focal points, and you'll see how to develop an attitude that will let you reach beyond what you thought was your potential. You'll find a comprehensive set of exercises that will develop and sharpen your skills. You'll see how it's possible to drive the gun to wherever your eye can look. You'll discover that everything you need to know about your technique is told by the gun, if you know how to listen to it. And all the challenges and advanced techniques of practical shooting are covered too: prone, barricade, single-hand shooting, multiple targets, reloading, shooting on the move, and much more. You'll also get inside tips on IPSC strategies, steel shooting, shootoff tactics, Bianchi, and more. Chapters include: - Awareness & Focus - Tools of Shooting - Creative Shooting - Specific Challenges - Competition - Development - Shooting Tools - Revolver Shooting - Group Shooting

Shades of Silence Liz Lazarus 2021-04-27 Shades of Silence depicts the resilience of a woman faced with devastating loss, the unexpected friendship forged from tragedy and the recurring societal themes that confront every generation. The book tells the story of Julianna Sandoval who is living in limbo. Her husband's plane has vanished over the Atlantic Ocean and although the Coast Guard has suspended the search, she clings to hope that he'll still be found alive. Three months later, a young woman appears after hours at Julianna's Ormond Beach restaurant, declaring, "He's not who you think he is." Before the stranger can say anything else, a gunshot through the window kills her instantly. Seasoned detective Paul Grant is assigned to investigate the girl's murder. He senses that the shooting was not random but doesn't know the connection to his only witness. Was the girl referring to Julianna's presumed dead husband, her lazy stepson, her shady bar manager, or someone else? The investigation leaves Julianna wondering who she can trust and culminates with an eerie link to the past that no one sees coming.

The NRA Frank Smyth 2021-04-20 For the first time, the definitive account of America's most powerful, most secretive, and most controversial nonprofit, and how far it has strayed from its origins. The National Rifle Association is unique in American life. Few other civic organizations are as old or as large. None is as controversial. It is largely due to the NRA that the U.S. gun policy differs so extremely — some would say so tragically — from that of every other developed nation. But, as Frank Smyth shows, the NRA has evolved from an organization concerned above all with marksmanship — and which supported most government efforts around gun control for a hundred years — to one that resists all attempts to restrict guns in any way. At the same time, the organization has also buried its own remarkable history. Here is that story, from the NRA's surprising roots in post-Civil War New York City to the defining event that changed its culture forever — the so called "Cincinnati Revolt" of 1977 — to the present day, where President Donald Trump is the most ardent champion in the White House the NRA has ever had. For anyone who has looked at access to guns in our society and asked "Why?", this is an unmatched account of how we got here, and who got us here.

Shoot Julie Golob 2012-02 A guide to shooting profiles techniques and competitive societies associated with different types of shooting sports, and also features information on women and guns, safety, and practicing.

FIREARM SAFETY CERTIFICATE - M California Department of Justice 2016-12-01 The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

Tenth Legion Tom Kelly 2005-01-15 Tenth Legion has long been considered the greatest--and most hilarious--book on turkey hunting. Many people who hunt turkeys do so with an attention to detail, a regard for strategy, tactics, and operations, and a disregard for personal comfort and convenience that ranks second only to war. As for all cultists, it never occurs to them that they may be anachronisms. Supremely unconscious of the rest of the world, blind and deaf to logic and reason, they walk along their different roads in step to the music of their different drums. Tenth Legion--Tom Kelly's first and most famous book--lets you hear, just one time and however faintly, what so many others have heard with clarity and purpose all their lives: the dim and distant music of that other drum.

NRA Guide Basics of Pistol Shooting 2014

Shoot to Win Chris Cheng 2018-05-01 A surprising journey from tech support to professional marksman in front of the cameras. Chris Cheng won the title of "Top Shot," a \$100,000 cash prize, and a professional marksman contract with the show sponsor, Bass Pro Shops. How did a tech support guy who didn't

shoot a lot of guns beat out seventeen other competitors—including seasoned military veterans, law enforcement officers, and pro marksmen—in History Channel's Top Shot season 4? An excellent guide for beginning shooters, Cheng focuses on the basics and ammunition of pistols, rifles, and shotguns, marksmanship fundamentals, and buying a firearm. Other chapters include: Dry Fire Practice Firearm Accessories Safely Storing Your Firearm Cleaning and Maintaining Your Guns And much more! Additionally, Cheng covers his approach to staying calm under pressure, teamwork, sportsmanship, and leadership. These traits contributed to his coming out on top and staying above the fray. With a foreword written by Top Shot season 3 champion Dustin Ellermann and an afterword written by the original Top Shot champion Iain Harrison, Shoot to Win is sure to please shooters of all stripes, but especially fans of History Channel's program Top Shot. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

Gunfight Ryan Busse 2021-10-19 A former firearms executive pulls back the curtain on America's multibillion-dollar gun industry, exposing how it fostered extremism and racism, radicalizing the nation and bringing cultural division to a boiling point. As an avid hunter, outdoorsman, and conservationist—all things that the firearms industry was built on—Ryan Busse chased a childhood dream and built a successful career selling millions of firearms for one of America's most popular gun companies. But blinded by the promise of massive profits, the gun industry abandoned its self-imposed decency in favor of headline conservatism and McCarthyesque internal policing, sowing irreparable division in our politics and society. That drove Busse to do something few other gun executives have done: he's ending his 30-year career in the industry to show us how and why we got here. Gunfight is an insider's call-out of a wild, secretive, and critically important industry. It shows us how America's gun industry shifted from prioritizing safety and ethics to one that is addicted to fear, conspiracy, intolerance, and secrecy. It recounts Busse's personal transformation and shows how authoritarianism spreads in the guise of freedom, how voicing one's conscience becomes an act of treason in a culture that demands sameness and loyalty. Gunfight offers a valuable perspective as the nation struggles to choose between armed violence or healing.

Gun Control in the Third Reich Stephen P. Halbrook 2013 Presents the history of how the Nazi regime used laws restricting firearms ownership to disarm and repress its enemies and consolidate power which rendered political opponents defenseless.

The Handgun Guide for Women Tara Dixon Engel 2015-10-23 This manual reflects an impassioned belief in the 2nd Amendment, and is a must have for any woman interested in buying, owning, and securely keeping a gun.

U.S. Rifle, Caliber .30, M1 United States. Department of the Army 1965

Pregnant Pause Han Nolan 2011 Married, pregnant, and living at a "fat camp" in Maine, sixteen-year-old Eleanor has many questions about her future, especially whether the marriage will last and if she should keep the baby.

Strategies and Standards for Defensive Handgun Training (large Format) John Daub 2020-05-07 What percentage of carry permit holders attend training beyond the state minimum? What are the barriers keeping people from attending firearms training that isn't mandatory? What are realistic standards for minimum defensive handgun competency? What are the best drills to practice? How can you compare the difficulty level of one drill to another? Written by two trainers with decades of experience, this book explores those questions and others related to defensive pistol training.

Gun Violence and Mental Illness Liza H. Gold, M.D. 2015-11-17 Perhaps never before has an objective, evidence-based review of the intersection between gun violence and mental illness been more sorely needed or more timely. Gun Violence and Mental Illness, written by a multidisciplinary roster of authors who are leaders in the fields of mental health, public health, and public policy, is a practical guide to the issues surrounding the relation between firearms deaths and mental illness. Tragic mass shootings that capture headlines reinforce the mistaken beliefs that people with mental illness are violent and responsible for much of the gun violence in the United States. This misconception stigmatizes individuals with mental illness and distracts us from the awareness that approximately 65% of all firearm deaths each year are suicides. This book is an apolitical exploration of the misperceptions and realities that attend gun violence and mental illness. The authors frame both pressing social issues as public health problems subject to a variety of interventions on individual and collective levels, including utilization of a novel perspective: evidence-based interventions focusing on assessments and indicators of dangerousness, with or without indications of mental illness. Reader-friendly, well-structured, and accessible to professional and lay audiences, the book: * Reviews the epidemiology of gun violence and its relationship to mental illness, exploring what we know about those who perpetrate mass shootings and school shootings. * Examines the current legal provisions for prohibiting access to firearms for those with mental illness and whether these provisions are new mandated reporting interventions are effective or whether they reinforce negative stereotypes associated with mental illness. * Discusses the issues raised in accessing mental health treatment in regard to diminished treatment resources, barriers to access, and involuntary commitment. * Explores novel interventions for addressing these issues from a multilevel and multidisciplinary public health perspective that does not stigmatize people with mental illness. This includes reviews of suicide risk assessment; increasing treatment engagement; legal, social, and psychiatric means of restricting access to firearms when people are in crisis; and, when appropriate, restoration of firearm rights. Mental health clinicians and trainees will especially appreciate the risk assessment strategies presented here, and mental health, public health, and public policy researchers will find Gun Violence and Mental Illness a thoughtful and thought-provoking volume that eschews sensationalism and embraces serious scholarship.

Gun Digest Shooter's Guide to Handguns Grant Cunningham 2012-12-27 Need answers now? Gun Digest's Shooter's Guide to Handguns will quickly give you the facts you need to help you choose your handgun, select ammunition, shoot it effectively, and take care of your investment—all in an easy-to-read, well-illustrated format. Up-to-date ballistics data. The latest handguns, loads and optics. Whether you're interested in self defense, hunting, plinking, or competition, this is the one book that should be on your shelf!

The Official NRA Guide to Firearms Assembly Joseph Boxley Roberts 2007 The Official NRA Guide to Firearms Assembly: Pistols and Revolvers is a newly revised edition of the National Rifle Associations classic volume on pistol and revolver disassembly. With information drawn from the files of the American Rifleman magazine, re-designed and updated with dozens of new firearms, this volume contains the detailed instructions and accurate exploded-view diagrams that provide the information any collector, hunter, or shooting enthusiast needs to be able to take firearms apart.

Rifle Shooting Boy Scouts of America 1989-02 Outlines the requirements for the merit badge in rifle shooting and describes the techniques needed to fulfill them.

Safe N Secure Defensive Pistol Training Manual Bernard M. Martingne 2013-04 In a growing world of firearm enthusiasts and shooting opportunities ranging from plinking to practical shooting competitions, the Continental Army US thought it was necessary to develop a program to answer the demand for basic Practical Defensive Shooting. We must differentiate action shooting activities such as the respectable IDPA (International Defense Pistol Association), IPSC (Institute for the Protection of the Citizen) and NRA Action Pistol from actual combat techniques designed to help you have the upper hand in a situation where you need to use a gun for the purpose of self-defense.. Competition is fun, and so is winning; however, the skills required engaging an opponent who is shooting back are quite different. The best analogy we can make is to compare this with race-car drivers. A NASCAR driver has skills that a defensive driver doesn't have. Therefore, if you will encounter a situation where the need arises for you to protect yourself or your family using deadly force, it will likley be on the street or your home and not in a shooting range. This program is designed to assist you in building the skills, strength and mental preparedness to effectively fight when it matters most. You will not and cannot win a shooting competition using the skills presented in this manual, because what is required to win a competition is tactically opposite of what you will learn here. In the real world there is . . . No clock to beat, - No room for shortcuts, - No time for previewing the fight, - No chance to know where and when the threat will come from, - No certainty about when it will start or stop, - No "re-shoot" opportunity, - Definite terrible consequences for mistakes.
