It is designed for undergraduate 2nd year financial accounting courses, 2nd/3rd year undergraduate business courses, and 1st year MBA/DMS courses.

Innovative Assessment in Higher Education  Cordelia Bryan 2006-09-27 Throughout higher education assessment is changing, driven by increased class size, changing curricula and the need to support students better. At the same time assessment regulations and external quality assurance demands are constraining assessment options, driven by worries about standards, reliability and plagiarism. Innovative Assessment in Higher Education explores the difficulty of changing assessment in sometimes unhelpful contexts. Topics discussed include: problems with traditional assessment methods rationales behind different kinds of innovation in assessment complex assessment contexts in which teachers attempt to innovate innovation in assessment within a range of academic settings theoretical and empirical support for innovations within higher education. More than a ‘how to do it’ manual, this book offers a unique mix of useful pragmatism and scholarship. A vital resource for higher education teachers and their educational advisors, it provides a fundamental analysis of the role and purpose of assessment and how change can be managed without compromising standards.

Market Leader 2011

From Labouring to Learning  Michael R.M. Ward 2016-04-29 Highly Commended in the Society of Educational Studies Book Prize This book explores how economic changes and the growing importance of educational qualifications in a shrinking labour market, particularly effects marginalized young men. It follows a group of young working-class men in a de-industrial community and challenges commonly held representations that often appear in the media and in policy discourses which portray them as feckless, out of control, educational failures and lacking aspiration. Ward argues that for a group of young men in a community of social and economic deprivation, expectations and transitions to adulthood are framed through the industrial legacy of geographically and historically shaped class and gender codes. These codes have an impact on what it means to be a man and what behaviour is deemed acceptable and what is not.

Human Resource Management for the Hospitality and Tourism Industries  Dennis Nickson 2007-02-19 Human Resource Management for the Hospitality and Tourism Industries takes an integrated look at HRM policies and practices in the tourism and hospitality industries. Utilising existing human resource management (HRM) theory and practice, it contextualises it to the tourism and hospitality industries by looking at the specific employment practices of these industries, such as how to manage tour reps or working in the airline industry. It initially sets the scene with a broad review of the evidence of HRM practice within the tourism and hospitality industries. Having identified the broader picture, the text then begin to focus much more explicitly on a variety of HR policies and practices such as: • recruitment and selection: the effects of ICT, skills required specific for the industry and the nature of advertising • legislation and equal opportunities: illegal discrimination and managing diversity • staff health and welfare: violence in the workplace, working time directives, smoking and alcohol and drug misuse • remuneration strategies in the industry: the "cafeteria
award’ approach, minimum wage and tipping Human Resource Management for the Hospitality and Tourism Industries is illustrated throughout with both examples of best practice for prescriptive teaching and discussion, and international case studies to exercise problem solving techniques and contextual learning. It incorporates a user friendly layout and includes pedagogic features such as: chapter outlines and objectives, HRM in practice – boxed examples, reflective review questions, web links’ discussion questions and further reading.

Accompanying the text are online supplementary lecturer materials including downloadable figures from the book, PowerPoint slides, further cases and extra exercises and points for discussion.

Children’s Care, Learning and Development NVO Marian Beaver 2009 The most up-to-date text available, this new edition covers the EYFS and is fully mapped to the current specs. Health & social care (adults) Yvonne Nolan 2008 This candidate handbook provides comprehensive coverage of everything candidates need for success in this new qualification.

The Fair God Lew Wallace 1898 Making Sense of Education David Carr 2005-07-08 Making Sense of Education provides a contemporary introduction to the key issues in educational philosophy and theory. Exploring major past and present conceptions of education, teaching and learning, this books offers a philosophical critique of the educational practice of teachers and student teachers, as well as interest to those studying education as an academic subject. The book is divided into three parts: education, teaching and the relationship of educational theory to practice and the wider moral dimensions of pedagogy, learning, knowledge and curriculum: issues concerning behaviourist and cognitive theories of learning, knowledge and meaning, curriculum aims and content and evaluation and assessment schooling, society and culture: issues of the wider social and political context of education concerning liberalism and communitarianism, justice and equality, differentiation, authority and discipline. This timely and up-to-date introduction assists all those studying, and/or working in education to appreciate the main philosophical sources of and influences on present day thinking about education, teaching and learning.

Resilient Health Care Professor Robert L Wears 2015-09-28 Properly performing health care systems require concepts and methods that match their complexity. Resilience engineering provides that capability. It focuses on a system’s overall ability to sustain required operations under both expected and unexpected conditions rather than on individual features or qualities. This book contains contributions from international experts in health care, organisational studies and patient safety, as well as resilience engineering. Whereas current safety approaches can by passively aim to reduce the number of things that go wrong, Resilient Health Care aims to increase the number of things that go right.

Machine Learning with R Brett Lantz 2013-10-25 Written as a tutorial to explore and understand the power of R for machine learning. This practical guide that covers all of the need to know topics in a very systematic way. For each machine learning approach, each step in the process is detailed, from preparing the data for analysis to evaluating the results. These steps will build the knowledge you need to apply them to your own data science tasks. Intended for those who want to learn how to use R’s machine learning capabilities and gain insight from your data. Perhaps you already know a bit about machine learning, but have never used R; or perhaps you know a little R but are new to machine learning. In either case, this book will get you up and running quickly. It would be helpful to have a bit of familiarity with basic programming concepts, but no prior experience is required.

Human Growth and Development Jack Rudman 1997-02 The College Level Examination Program (CLEP) enables students to demonstrate college-level achievement and earn college credit in various subject areas based on knowledge acquired through self-study, high school and adult courses, or through professional means. The CLEP Human Growth and Development Passbook(R) prepares you by sharpening knowledge of the skills and concepts necessary to succeed on the upcoming exam and the college courses that follow. It provides a series of informational texts as well as hundreds of test questions in the areas that will likely be covered on your upcoming exam, including but not limited to: behavioral and cognitive development; biological development; family and society; personality and emotions; and more.

Amigos Del Otro Lado Gloria Anzaldúa 1993 Did you come from Mexico? An Mexican-American defends Joaquín, a booy frp, Mexico who came across the border. The Border Patrol is looking for him and his mother who are hiding. His newly found friend Prietita took him to the Herb Lady to help him with red welts.

BPP Learning Media specialises in the publishing of user-friendly books which are up-to-date and focused on relevant subject areas and offer you a wealth of expertise from our authors and tutors.

A Grammar of Mishnaic Hebrew M. H. Segal 2001-10-17 This volume has two objectives: Of first, to provide students of early Rabbinic literature with a fairly complete grammar of the dialect of that literature; and secondly, to demonstrate the organic connexion of this Mishnaic dialect with Biblical Hebrew, and its relative independence of contemporary Aramaic, at least in the field of grammar. A good deal of material belonging to comparative grammar has, therefore, been introduced, and constant reference is made to the standard authority in the English language on the grammar of Biblical Hebrew, viz. Dr. Cowley’s edition of Gesenius-Kautsch’s Hebrew Grammar.0--from the Preface Contents: Introduction Part I: Phonology and Orthography Part II: Morphology Part III: Syntax

Safety-I and Safety-II Professor Erik Hollnagel 2014-05-28 Safety has traditionally been defined as a condition where the number of adverse outcomes was as low as possible (Safety-I). From a Safety-I perspective, the purpose of safety management is to make sure that the number of accidents and incidents is kept as low as possible, or as low as is reasonably possible. The purpose of safety management must start from the manifestations of the absence of safety and that - paradoxically - safety is measured by counting the number of cases where it fails rather than by the number of cases where it succeeds. This unavoidably leads to a reactive approach based on responding to what goes wrong or what is identified as a risk - as something that could go wrong. Focusing on what goes right, rather than on what goes wrong, changes the definition of safety from ‘avoiding that something goes wrong’ to ‘ensuring that everything goes right’. More precisely,
Safety-II is the ability to succeed under varying conditions, so that the number of intended and acceptable outcomes is as high as possible. From a Safety-II perspective, the purpose of safety management is to ensure that as much as possible goes right, in the sense that everyday work achieves its objectives. This means that safety is managed by what it achieves (successes, things that go right), and that likewise it is measured by counting the number of cases where things go right. In order to do this, safety management cannot only be reactive, it must also be proactive. But it must be proactive with regard to how actions succeed, to everyday acceptable performance, rather than with regard to how they can fail, as traditional risk analysis does. This book analyses and explains the principles behind both approaches and uses this to consider the past and future of safety management practices. The analysis makes use of common examples and cases from domains such as aviation, nuclear power production, process management and healthcare. The book’s chapters explain the theoretical and practical consequences of the new perspective on the level of day-to-day operations as well as on the level of strategic management (safety culture). Safety-I and Safety-II is written for all professionals responsible for their organisation’s safety, from strategic planning on the executive level to day-to-day operations in the field. It presents the detailed and tested arguments for a transformation from protective to productive safety management.

Managing Health and Safety in Swimming Pools The Health and Safety Executive 2003-01 This booklet provides guidance for those who have any involvement with the operation and management of health and safety in swimming pools: primarily pool owners (including local authority clients), pool operators (including management contractors), architechnical engineers, designers, manufacturers and constructors. Aspects of this guidance will also apply to pool hirers. Its aim is to provide guidance on the risks associated with swimming pool operation and the precautions which may be taken to help achieve a safer environment for people who use swimming pools and employees who work at them. The revision brings the guidance up to date with changes in health and safety law and new developments in relation to equipment, facilities and supervision arrangements.

Interpersonal Verbs and Interpersonal Behavior Charles Egerton Osgood 1968 The report provides a summary of the research to date on the semantics of interpersonal verbs and the applications of the information obtained to cross-cultural studies of interpersonal norms and behaviors. A theory of interpersonal perception and behavior in relation to the meanings of interpersonal verbs in the language is presented. (Author).

The Success of Apprenticeships Jean-Luc Cerdin 2020-01-08 Apprenticeships can offer apprentices, their teacher-tutors and business apprenticeship supervisors experiences that are rich in knowledge. The Success of Apprenticeships presents the observations and opinions of 48 actors regarding apprenticeships. These testimonies recount how apprenticeships allowed them to improve their expertise, their professional practices and their organization skills. This book also examines how their interactions in the work/study process allowed them not only to develop the skills of apprentices, but also the skills of those who accompanied them – the teacher-tutors and the business apprenticeship supervisors. The creation of an authentic community of apprentices subscribes to the formation of an ecosystem of learning, in which each individual harvests fruits in terms of the development of their personal abilities.

What Works? Nutley, Sandra M. 2000-07-19 An exploration of how the knowledge gained from research is used to improve the effectiveness of public policy formation and public service delivery. It covers eight areas of public service - health, education, criminal justice, social policy, transport, urban policy, housing and social care.
occupancy costs, while maintaining appropriate and productive working environment standards. The third edition is fully updated and written in an approachable and concise format.
