Innovative Assessment in Higher Education

Cordelia Bryan 2019-04-03 Contextualising how assessment is still the single most important factor affecting student learning in higher education, this second edition of Innovative Assessment in Higher Education: A Handbook for Academic Practitioners provides cutting edge, well-considered, practical and accessible guidance on how to enhance the student experience of assessment and feedback. With 17 new chapters this edition: contextualises assessment within the current higher education landscape; explores how student, parent and government expectations impact on assessment design; presents case studies of assessment and feedback by both students and staff and provides a solid framework for innovative assessment and feedback; provides examples and critical review of the use and development of feedback practices and how to assess professional, creative and performance-based subjects; offers guidance on how to develop assessment that is inclusive and enables all students to advance their learning and achievement;

A Handbook for Academic Practitioners is an essential resource for busy academics looking to make a tangible difference to their academic practice and their students’ learning. This practical and accessible guide will aid both new and more experienced practitioners learning to look more about how and why assessment in higher education can make such a difference to student learning.

From Labouring to Learning

Michael R.M. Ward 2016-04-29 Highly Commended in the Society of Educational Studies Book Prize This book explores how economic changes and the growing importance of educational qualifications in a shrinking labour market, particularly effects on marginalized young men. It follows a group of young working-class men in a de-industrial community and challenges commonly held beliefs about the relation of schooling to work.
