The Grapes of Wrath

John Steinbeck 2001-04-26

Shocking and controversial when it was first published in 1939, Steinbeck’s Pulitzer Prize-winning epic remains his undisputed masterpiece. Set against the background of dust bowl Oklahoma and Californian migrant life, it tells of the Joad family, who, like thousands of others, are forced to travel West in search of the promised land. Their story is one of false hopes, thwarted desires and broken dreams, yet out of their suffering Steinbeck created a drama that is intensely human yet majestic in its scale and moral vision; an eloquent tribute to the endurance and dignity of the human spirit.

Faith and Reason

Richard Swinburne 2005-09-29

Richard Swinburne presents a new edition of the final volume of his acclaimed trilogy on philosophical theology. Faith and Reason is a self-standing examination of the implications for religious faith of Swinburne’s famous arguments about the coherence of theism and the existence of God. By practising a particular religion, a person seeks to achieve some or all of three goals - that he worships and obeys God, gains salvation for himself, and helps others to attain their salvation. But not all religions command worship, and different religions have different conceptions of salvation. Faced with these differences, Richard Swinburne argues that we should practice that religion which has the best goals and is more probably true than the creeds of other religions. He proposes criteria by which to determine the probabilities of different religious creeds, and he argues that, while requiring total commitment, faith does not demand fully convinced belief. While maintaining the same structure and conclusions as the original classic, this second edition has been substantially rewritten, both in order to relate its ideas more closely to those of classical theologians and philosophers and to respond to more recent views. In particular he discusses, and ultimately rejects, the view of Alvin Plantinga that the ‘warrant’ of a belief depends on the process which produced it, and John Hick’s contention that all religions offer valid paths to salvation.

Medical Ventilator System Basics: a Clinical Guide

Yuan Lei 2017-05-25

Medical Ventilator System Basics: a clinical guide is a user-friendly guide to the basic principles and the technical aspects of mechanical ventilation and modern complex ventilator systems. Designed to be used at the bed side by busy clinicians, this book demystifies the internal workings of ventilators so they can be used with confidence for day-to-day needs, for advanced ventilation, as well as for patients who are difficult to wean off the ventilator. Using clear language, the author guides the reader from pneumatic principles to the anatomy and physiology of respiration. Split into 16 easy to read chapters, this guide discusses the system components such as the ventilator, breathing circuit, and humidifier, and considers the major ventilator functions, including the control parameters and alarms. Including over 200 full-colour illustrations and practical troubleshooting information you can rely on, regardless of ventilator models or brands, this guide is an invaluable quick-reference resource for both experienced and inexperienced users.

Issues in Applied, Analytical, and Imaging Sciences Research: 2011 Edition is a ScholarlyEditions® eBook that delivers timely, authoritative, and comprehensive information about Applied, Analytical, and Imaging Sciences Research. The editors have built Issues in Applied, Analytical, and Imaging Sciences Research: 2011 Edition on the vast information databases of ScholarlyNews®. You can expect the information about Applied, Analytical, and Imaging Sciences Research in this eBook to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Issues in Applied, Analytical, and Imaging Sciences Research: 2011 Edition has been produced by the world’s leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions® and available exclusively from us. You now have a source you can cite with
and true tips, tricks, and strategies to help you identify a problem, acquire pertinent information, and use that information to address the problem. Employing a host of examples and humor, Research Strategies: Finding Your Way through the Information Fog shows how research can be exciting and fun.

The Research Writer, Spiral bound Version

John Van Rys 2011-01-01

The RESEARCH WRITER helps students transition from writing the research paper to doing research writing, from reporting information to working with ideas. The subtitle—Curiosity, Discovery, Dialogue—signals this shift: this handbook promotes research as a curiosity-driven activity that leads to discoveries that are then shared through various types of dialogue. With this practical and reader-friendly handbook, students will learn the research and writing skills needed for any research project and will be able to apply and transfer these skills to their own disciplines. Students can use THE RESEARCH WRITER to become more intelligent, ethically aware researchers, able not just to avoid plagiarism but to write with credibility while navigating the twenty-first century digital landscape. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Princeton Guide to Historical Research

Zachary Schrag 2021-04-27

The essential handbook for doing historical research in the twenty-first century,

The Princeton Guide to Historical Research provides students, scholars, and professionals with the skills they need to practice the historian’s craft in the digital age, while never losing sight of the fundamental values and techniques that have defined historical scholarship for centuries. Zachary Schrag begins by explaining how to ask good questions and then guides readers step-by-step through all phases of historical research, from narrowing a topic and locating sources to taking notes, crafting a narrative, and connecting one’s work to existing scholarship. He shows how researchers extract knowledge from the widest range of sources, such as government documents, newspapers, unpublished manuscripts, images, interviews, and datasets. He demonstrates how to use archives and libraries, read sources critically, present claims supported by evidence, tell compelling stories, and much more. Featuring a wealth of examples that illustrate the methods used by seasoned experts, The Princeton Guide to Historical Research reveals that, however varied the subject matter and sources, historians share basic tools in the quest to understand people and the choices they made. Offers practical step-by-step guidance on how to do historical research, taking readers from initial questions to final publication.

Connects new digital technologies to the traditional skills of the historian. Draws on hundreds of examples from a broad range of historical topics and

authority, confidence, and credibility. More information is available at

Speak Laurie Halse Anderson 2011-05-10

The extraordinary, groundbreaking novel from Laurie Halse Anderson, with more than 2.5 million copies sold! The first ten lies they tell you in high school. “Speak up for yourself—we want to know what you have to say.” From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson’s powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. Speak was a 1999 National Book Award Finalist for Young People’s Literature.

Research Strategies: Finding Your Way through the Information Fog

William Badke 2021-03-02

Everyone does research. Some just do it better than others. In this chaotic world of information and misinformation, referred to as “information fog,” university students, in particular, need to learn how to conduct research effectively. Good research is about a quest to discover more, about a burning desire to solve society’s problems and make a better world. Ultimately, research is a way forward to a resolution of life’s greatest difficulties. In this seventh edition of Research Strategies: Finding Your Way through the Information Fog, author William Badke walks you step by step through the entire research process—from choosing a topic, to writing the final project, and everything in between. A seasoned researcher and educator, Badke offers tried-and-true tips, tricks, and strategies to help you
approaches Shares tips for researchers at every skill level.

**MLA Style Manual and Guide to Scholarly Publishing**
Modern Language Association of America 2008
Provides information on stylistic aspects of research papers, theses, and dissertations, including sections on writing fundamentals, MLA documentation style, and copyright law.

**Writing Analytically**
David Rosenwasser
2018-01-01
WRITING ANALytICALLY treats writing as a tool of thought, offering prompts that lead students through the process of analysis and help them to generate original, well-developed ideas. The authors of this brief, popular text believe that learning to write well requires learning to use writing as a tool to think well. Rosenwasser and Stephen emphasize analysis as a mode of enriching understanding that precedes and in some cases supplants argument. Materials in the eighth edition are better integrated, more contextualized and--when possible--condensed. A new chapter, Thinking Like a Writer, contains a broad array of strategies for integrating opportunities for writing into a course. It makes explicit a subtext that pervades the book: that to think of yourself as a writer is to see more, to think differently and to engage the meaning of things more earnestly.

**Military Review 1946**
Frankenstein (Modern English Translation) Mary Shelley 2019-05 Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he’s determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won’t be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley’s Frankenstein, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

**The Writer’s Presence**
Donald McQuade 2009-01-10
The readings in The Writer’s Presence are selected exclusively for the quality of the writing. Editors Donald McQuade of the University of California, Berkeley, and Robert Atwan, Series Editor of The Best American Essays scoured hundreds of essays in search of teachable readings with strong voices and clear points of view. The result is a blend of classic pieces by favorites like James Baldwin, Annie Dillard, and Amy Tan; and fresh pieces by rising stars like Michael Pollan, Geeta Kothari, James McBride, and Daniel Harris. The voices in The Writer’s Presence represent different communities, time periods, levels of difficulty, and fields of study, and the topics intersect in intriguing and nuanced ways, giving students the opportunity to think critically and develop their own voices. Organized by type of writing and with minimal apparatus, The Writer’s Presence gives instructors unsurpassed teaching flexibility. With so many exceptional readings and so many ways to teach them, the possibilities are endless.

**The WEIRDest People in the World**
Joseph Henrich 2020-09-08
A New York Times Notable Book of 2020
A Bloomberg Best Non-Fiction Book of 2020
A Behavioral Scientist Notable Book of 2020
A Human Behavior & Evolution Society Must-Read Popular Evolution Book of 2020
A bold, epic account of how the co-evolution of psychology and culture created the peculiar Western mind that has profoundly shaped the modern world. Perhaps you are WEIRD: raised in a society that is Western, Educated, Industrialized, Rich, and Democratic. If so, you’re rather psychologically peculiar. Unlike much of the world today, and most people who have ever lived, WEIRD people are highly individualistic, self-obsessed, control-oriented, nonconformist, and analytical. They focus on themselves—their attributes, accomplishments, and aspirations—over their relationships and social roles. How did WEIRD populations become so psychologically distinct? What role did these psychological differences play in the industrial revolution and the global expansion of Europe during the last few centuries? In The WEIRDest People in the World, Joseph Henrich draws on cutting-edge research in anthropology, psychology, economics, and evolutionary biology to explore these questions and more. He illuminates the origins and evolution of family structures, marriage, and religion, and the profound impact these cultural transformations had on human psychology. Mapping these shifts through ancient history and late antiquity, Henrich reveals that the most fundamental institutions of kinship and marriage changed dramatically under pressure from the Roman Catholic Church. It was these changes that gave rise to the WEIRD psychology that would coevolve with impersonal markets, occupational specialization, and free competition—laying the foundation for the modern world. Provocative and engaging in both its broad scope and its surprising details, The WEIRDest People in the World explores how culture, institutions, and psychology shape one another, and explains what this means for both our most personal sense of who we are as individuals and also the large-scale social, political, and economic forces that drive human history. Includes black-and-white illustrations.
Before the Law / Vor dem Gesetz Franz Kafka 2015-01-26 This edition contains the English translation and the original text in German. “Before the Law” (German: “Vor dem Gesetz”) is a parable contained in the novel “The Trial” (German: “Der Prozess”), by Franz Kafka. “Before the Law” was published in Kafka’s lifetime, first in the New Year’s edition 1915 of the independent Jewish weekly “Selbstzwehr”, then in 1919 as part of the collection “Ein Landarzt” (“A Country Doctor”). “The Trial”, however, was not published until 1925, after Kafka’s death. “Vor dem Gesetz” ist ein 1915 veröfentlicherer Prosaertext Franz Kafkas, der auch als Töchterlegende oder Töchterparabel bekannt ist.

Die Handlung besteht darin, dass ein “Mann vom Land” vergeblich versucht, den Eintritt in das Gesetz zu erlangen, das von einem Töchterter bewacht wird.

Truth Decay Kavanagh 2018-01-16 Political and civil discourse in the United States is characterized by “Truth Decay,” defined as increasing disagreement about facts, a blurring of the line between opinion and fact, an increase in the relative volume of opinion compared with fact, and lowered trust in formerly respected sources of factual information. This report explores the causes and wide-ranging consequences of Truth Decay and proposes strategies for further action.

Data Feminism Catherine D'Ignazio 2020-03-31 A new way of thinking about data science and data ethics that is informed by the ideas of intersectional feminism. Today, data science is a form of power. It has been used to expose injustice, improve health outcomes, and topple governments. But it has also been used to discriminate, police, and surveil. This potential for good, on the one hand, and harm, on the other, makes it essential to ask: Data science by whom? Data science for whom? Data science with whose interests in mind? The narratives around big data and data science are overwhelmingly white, male, and techno-heroic. In Data Feminism, Catherine D'Ignazio and Lauren Klein present a new way of thinking about data science and data ethics—one that is informed by intersectional feminist thought. Illustrating data feminism in action, D'Ignazio and Klein show how challenges to the male/female binary can help challenge other hierarchical (and empirically wrong) classification systems. They explain how, for example, an understanding of emotion can expand our ideas about effective data visualization, and how the concept of invisible labor can expose the significant human efforts required by our automated systems. And they show why the data never, ever “speak for themselves.” Data Feminism offers strategies for data scientists seeking to learn how feminism can help them work toward justice, and for feminists who want to focus their efforts on the growing field of data science. But Data Feminism is about much more than gender. It is about power, about who has it and who doesn’t, and about how those differentials of power can be challenged and changed.

Lamb to the Slaughter (A Roald Dahl Short Story) Roald Dahl 2012-09-13 Lamb to the Slaughter is a short, sharp, chilling story from Roald Dahl, the master of the shocking tale. In Lamb to the Slaughter, Roald Dahl, one of the world’s favourite authors, tells a twisted story about the darker side of human nature. Here, a wife serves up a dish that utterly baffles the police . . . Lamb to the Slaughter is taken from the short story collection Someone Like You, which includes seventeen other devious and shocking stories, featuring the two men who make an unusual and chilling wager over the provenance of a bottle of wine; a curious machine that reveals the horrifying truth about plants; the man waiting to be bitten by the venomous snake asleep on his stomach; and others. ‘The absolute master of the twist in the tale.’ (Observer) This story is also available as a Penguin digital audio download read by Juliet Stevenson. Roald Dahl, the brilliant and worldwide acclaimed author of Charlie and the Chocolate Factory, James and the Giant Peach, Matilda, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, Roald Dahl’s Twisted Tales by Jeremy Dyson. Roald Dahl’s stories continue to make readers shiver today.

The Lottery Shirley Jackson 2008 A seemingly ordinary village participates in a yearly lottery to determine a sacrificial victim.

How to Write a Good Scientific Paper MACK 2018 Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.

Annabel Lee Edgar Allan Poe 2020-06-09 In a kingdom by the sea, two young people fall in love. A cruel fate, however, was reserved for Annabel Lee. You will fall in love too with this beautiful work by Edgar Allan Poe, available in Portuguese and English editions. The Portuguese language version was even beautifully translated by Fernando Pessoa. POE Young Readers Team worked tirelessly on this edition, retelling Poe’s verses with beautiful watercolor-style illustrations.
The Things They Carried depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. The Things They Carried won France’s prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

**Paragraph Development**

Martin L. Arnaudet 1990-01-01 Paragraph Development helps students edit their own writing for clarity and accuracy and offers a three-phase strategy for building writing skills through planning, writing, and revising. The approach in each chapter is direct and functional: a model is provided and graphically explained, then students use the model to write their own paragraphs. -- Offers controlled information-transfer exercises, a choice of writing topics, and peer consultation and writing-evaluation methods. Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office 1976

The Birthday Party Harold Pinter 2013-07-18 Stanley Webber is visited in his boarding house by strangers, Goldberg and McCann. An innocent-seeming birthday party for Stanley turns into a nightmare. The Birthday Party was first performed in 1958 and is now a modern classic, produced and studied throughout the world.

The Things They Carried Tim O'Brien 2009-10-13 A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, The Things They Carried is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling.
and celebrating reading in all its forms. Look for more titles in the HarperPerennial Classics collection to build your digital library.

**Othello** William Shakespeare 2021-04-12 Enter RODERIGO and IAGORODERIGOTush! never tell me; I take it much unkindly That thou, Iago, who hast had my purse As if the strings were thine, shouldst know of this.IAGO'Sblood, but you will not hear me: If ever I did dream of such a matter, Abhor me.RODERIGOThou told'st me thou didst hold him in thy hate.IAGODEspise me, if I do not. Three great ones of the city, In personal suit to make me his lieutenant, Off-capp'd to him: and, by the faith of man, I know my price, I am worth no worse a place: But he, as loving his own pride and purposes, Evades them, with a bombast circumstance Horribly stuff'd with epithets of war; And, in conclusion, Nonsuits my mediators; for, 'Certes,' says he, 'I have already chose my officer.' And what was he? Forsooth, a great arithmetician, One Michael Cassio, a Florentine, A fellow almost dam'd in a fair wife; That never set a squadron in the field, Nor the division of a battle knows More than a spinner; unless the bookish theoretic, Wherein the toged consuls can propose As masterly as he: mere prattle, without practise, Is all his soldiership. But he, sir, had the election: And I, of whom his eyes had seen the proof At Rhodes, at Cyprus and on other grounds Christian and heathen, must be be-lee'd and calm'd By debitor and creditor: this counter-caster, He, in good time, must his lieutenant be, And I-God bless the mark!-his Moorship's ancient

**Research Strategies** William Badke 2011-04-18

Writing research papers does not have to be the painful experience many people make it out to be. It is possible to develop significant skills in order to make the writing process much easier than you think. In Research Strategies, author William Badke offers a clear, simple, and often humorous roadmap for conducting research and navigating the vast new world of information and technology. In this, the fourth edition, Badke details the entire research paper process from start to finish. Research Strategies provides a plethora of insightful and helpful information, including: Finding and narrowing a topic, Creating an outline, Searching databases, Understanding metadata, Using library catalogs and journal databases, Conducting Internet research, Organizing research notes, Writing the actual paper. Research Strategies explains the skills and strategies you need to efficiently and effectively complete a research project from topic to finished product. With the information provided here, research doesn’t have to be frustrating or boring. Badke’s strategies present a sure path through the amazing and complex new world of information.

**To Kill a Mockingbird** Harper Lee 2014-07-08 Voted America’s Best-Loved Novel in PBS’s The Great American Read Harper Lee’s Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred. One of the most cherished stories of all time, To Kill a Mockingbird has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

**Writing Anthropology** Carole McGranahan 2020-04-24 In Writing Anthropology, fifty-two anthropologists reflect on scholarly writing as both craft and commitment. These short essays cover a wide range of territory, from ethnography, genre, and the politics of writing to affect, storytelling, authorship, and scholarly responsibility. Anthropological writing is more than just communicating findings: anthropologists write to tell stories that matter, to be accountable to the communities in which they do their research, and to share new insights about the world in ways that might change it for the better. The contributors offer insights into the beauty and the function of language and the joys and pains of writing while giving encouragement to stay at it—to keep writing as the most important way to not only improve one’s writing but to also honor the stories and lessons learned through research. Throughout, they share new thoughts, prompts, and agitations for writing that will stimulate conversations that cut across the humanities. Contributors: Whitney Battle-Baptiste, Jane Eva Baxter, Ruth Behar, Adia Benton, Lauren Berlant, Robin M. Bernstein, Sarah Besky, Catherine Besteman, Yarimar Bonilla, Kevin Carrico, C.
