Handbook of Early Literacy Research Susan B. Neuman 2011-03-09 Building crucial bridges between theory, research, and practice, this volume brings together leading scholars and practitioners to develop a handbook that examines the full range of factors that shape learning in and out of the classroom. The 36 chapters are based on the latest, most compelling research from diverse perspectives: cultural, social, political, economic, and psychological.

Integrated Principles of Zoology Donald T. Johnson 2012-05-12 "This book is an engaging narrative. Integrated Principles of Zoology is considered the standard by which other texts are measured. With its comprehensive coverage of biological and zoological principles, mechanisms of evolution, diversity, physiology, and ecology, the 14th edition is an excellent resource for every student. This text is suitable for one- or two-semester introductory courses.

Operations Management Nigel Slack 2016-05-12 Mastering Operational Risk Tony Blunden 2012-06-29 Operational risk is a constant concern for all businesses. It goes far beyond operations and process to encompass all aspects of your business. Within financial services, it became codified by the Basel Committee on Banking Supervision in the 1990s. It is something that needs to be taken seriously by all those involved in running and managing any business. This book looks at the following:

The Evolution of Economic Thought

Stanley Brue 2002-05-30 In this scholarly and timely presentation of the history of economic thought, you’ll see how new ideas, evidence, problems and values can be used to reconsider basic disputes and major contributions of the past. THE EVOLUTION OF ECONOMIC THOUGHT, Be covers the history of economics, from Sir William Hume to John Maynard Keynes, linking the science of what should be done with a prescriptive for how to actually do it. The fifth edition of Richard Brue’s book keeps pace with the dynamic changes in the field, both for those who study it and those who practice it. The information presented in these pages can be found nowhere else, and it information we cannot afford to ignore. -Donald C. Mann, president, American Society for Public Administration, and professor emeritus, public administration, Northern Illinois University THE RESPONSIBLE ADMINISTRATOR is at once the most sophisticated and the most practical book available on public sector ethics. It is conceptually clear and jargon-free, which is extraordinary among books on organizational ethics. George F. Johnson, Stowe Distinguished Professor of Public Administration, University of Kansas “Remarkably effective in linking the science of what should be done with a prescriptive for how to actually do it, the fifth edition of Cooper’s book keeps pace with the dynamic changes in the field, both for those who study it and those who practice it. The information presented in these pages can be found nowhere else, and it information we cannot afford to ignore” -Carole L. Jurkiewicz, John W. Dupuy Endowed Professor, and Woman’s Hospital Distinguished Professor of Healthcare Management, Louisiana State University, E. J. Ourso College of Business Administration, Public Administration Institute PERFORMANCE MANAGEMENT Rahman Aquilini 2012-02-27 This is the eBook of the printed book and may not include any media, website access codes, or other supplementary material. Managing Investment Portfolios

John L. Maginn 2018-03-18 “A rare blend of a well-organized, comprehensive guide to portfolio management and a deep, cutting-edge treatment of the key topics by distinguished authors who have all practiced what they preach. The subtitle, A Dynamic Process, points to the fresh, modern ideas that permeate throughout this new edition. Just reading Peter Bernstein’s thoughtful Foreword can move you forward in your thinking about this critical subject.” —Martin L. LeBailly, Morgan Stanley “Managing Investment Portfolios remains the definitive volume in explaining investment management as a process, providing organization and structure to a complex, multipart set of concepts and procedures. Anyone involved in the investment management industry should carefully read this new edition of the book.” —Charles P. Jones, CPA, Edwin Gill Professor of Finance, College of Management, North Carolina State University CONTEMPORARY ISSUES IN CRIMINOLOGY Lesley Naooks 1995 Policing, crime, poverty, prison management — these are just some of the key issues facing society today. This book addresses such issues, raising questions that should be of interest not only to academic criminologists but also to all those involved in the criminal justice system.

Parentology

Joel D. Wisner 2009 “If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books on the shelves in your local bookstore, or laugh and learn at the same time. Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bringing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence suggests kids with bizarre names learn not to react when their peers tease them) to getting a vasectomy (because few kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear their kids, and the outcomes when Conley and his kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting-with lessons that go down easy. You’ll be laughing and learning at the same time.” —Amy Chua, author of Battle Hymn of the Tiger Mother.
