Discipline and Punish Michel Foucault 2012-04-18 In this brilliant work, the most influential philosopher since Sartre suggests that such vaunted reforms as the abolition of torture and the emergence of the modern penitentiary have merely shifted the focus of punishment from the prisoner's body to his soul.

The Social Construction of Reality Peter L. Berger 2011-04-26 The classic

work that redefined the sociology of knowledge and has inspired a generation of philosophers and thinkers In this seminal book, Peter L. Berger and Thomas Luckmann examine how knowledge forms and how it is preserved and altered within a society. Unlike earlier theorists and philosophers, Berger and Luckmann go beyond intellectual history and focus on commonsense, everyday knowledge—the proverbs, morals, values, and beliefs shared among ordinary people. When first published in 1966, this systematic, theoretical treatise introduced the term social construction, effectively creating a new thought and transforming Western philosophy.

The Cailiffs of Baghdad, Georgia: A Novel Mary Helen Stefaniak 2011-09-19 A hidden history of the South emerges when a worldly teacher leads Threestep, GA, to reinvent itself, setting in motion events that lead to triumph and tragedy for the black teenager who happens to be the smartest person in Piedmont County, Georgia, in 1938–39. As an epigraph from *The Souls of Black Folk* by W. E. B. Du Bois reminds us at the start of this novel, "Throughout history, the powers of single black men flash here and there like falling stars, and die sometimes before the world has rightly gauged their brightness." Protagonist Theo Boykin is a genius, an artist, an inventor, a Leonardo DaVinci–type, whose talents are sought after by local blacks and whites alike, but even this is not enough to save him. He falls victim to "the tragedy of ignorance and the damage caused by fear," in the words of poet Rita Dove—the first African American to serve as U.S. Poet Laureate and a member of the jury that conferred on *The Cailiffs of Baghdad, Georgia* the 2011 Anisfield-Wolf Award for books that "make a significant contribution to our understanding of racism and our appreciation for the diversity of human cultures." You won't forget Theo Boykin, nor will you forget his friends the Cailiffs, especially Gladys, who tells this story with love and bewilderment,

and the teacher, Miss Spivey, who changes all their lives.

Anthropology Carol R. Ember 2006-04 [In this book, the authors] are interested not only in what humans are and were like; [but they are] also interested in why they got to be that way, in all their variety. When there are alternative explanations, [the authors] try to communicate the necessity to evaluate them logically as well as on the basis of the available evidence. Throughout the book, [they] try to communicate that no idea, including ideas put forward in textbooks, should be accepted even tentatively without supporting tests that could have gone the other way. -Pref.

Guiding Young Children Patricia F. Hearron 2005 The seventh edition of this popular book supports the authors' belief that guidance is more than getting children to do what you want them to do now; it is helping them to become everything they can become for all of their tomorrows. The book provides an overview, followed by discussion of core concepts, strategies for applying those concepts, and, finally, the broader perspective of professionalism and human resource development. Its approach focuses on the need to consider a child's developmental level as well as family and cultural context when planning environments and activities for young children. Unlike others in the field, it offers concrete suggestions on how to guide children while they are involved in specific activities such as playing, eating, napping, etc. For teachers and parents of young children.
