Project: Photoshop Nat Gertler 2001-11-12
Start using Adobe Photoshop today to generate original drawings,
touch up photographs, create web graphics, colorize
black-and-white art, design logos, produce animations,
and more! Project: Photoshop features 20 high-interest
projects based on Photoshop 6 to lead readers, step-by-
step, to a complete understanding of the whys and hows
of using one of today's most popular digital image
manipulation tools. Ideal for readers who want to learn
by doing, every project in this fast-paced and heavily
illustrated how-to book is broken down into a set of
useful and specific procedures. For additional
simplification, each procedure is further divided into a
series of small, straightforward steps that are
accompanied by extraordinarily clear, concise, and easy-
to-follow instructions. Tips appear at strategic points
to reinforce key concepts and help readers avoid
pitfalls when steps are neither obvious nor intuitive.
"Deeper Understanding" features are also built into the
book, allowing readers to explore in greater detail some
of the most frequently used and innovative functions of
Photoshop 6 and ImageReady, which is included with
Photoshop. All projects are presented in a logical
sequence that affords opportunities to expand upon
skills learned in previous projects. However, each and
every project produces its own tangible and rewarding
result to propel beginning through intermediate users to
new skills-making this book a "must" on every user's
desktop.
