of the current chapter, but (3.18) refers to Equation 18 of Chapter 3. A caret (^) over a vector denotes a unit vector. Few of the problems are exactly easy: Most were devised to carry forward the subject of the chapter. With few exceptions, the problems are those of the original sixth and seventh editions. - Electromagnetics
- CFD
- Explicit Different analysis types define acceptable or favorable element shapes differently. For this course we limit
