Its just about what you dependence currently. This Platinum English Grade 5 Teachers Guide, as one of the most on the go sellers here will completely be among the best options to review.

Art and Creative Development for Young Children J. Englebright Fox 2014-01-01 Written for pre-service and in-service early childhood professionals in child care, preschool, or kindergarten through third grade settings, ART & CREATIVE DEVELOPMENT FOR YOUNG CHILDREN, 8th Edition, takes a child-centered approach to art education. Updated throughout, the book includes an in-depth discussion of technology to aid teachers in understanding the role that technology can play in children's visual art appreciation and production. Guidelines for establishing an inclusive art program in
classrooms for young children are included for early childhood professionals. Activities and recipes make the text a valuable resource for in-service teachers. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Seal of Biliteracy Amy J. Heineke 2020-02-01 This edited volume examines the Seal of Biliteracy (SoBL), a relatively new policy initiative that has received little attention in scholarly and practical literature. The contributions seek to expand the literature by presenting case studies of policy implementation in diverse contexts across the United States. This book is organized into four sections: (1) introduction to the SoBL, including history of the policy initiative and national trends in policy design and implementation, (2) case studies of macro-level policy implementation, including a diverse array of contexts across the country that have approached the SoBL in unique ways (e.g., legislation v. educational code, prioritizing world v. home languages), (3) case studies of micro-level implementation, including schools and districts that award the SoBL to diverse student populations through various language programs (e.g., English-dominant v. linguistically diverse; world language v. dual-
language programs), and (4) conclusions and future directions, including actionable next steps for policy makers, administrators, educators, and researchers. Members of various professional organizations will benefit from this text, including the National Association for Bilingual Education (NABE), Teachers of English to Speakers of Other Languages (TESOL), the American Council for Teaching of Foreign Languages (ACTFL), as well as participants in local affiliates for bilingual, English as a second language (ESL), and world language education.

The Last Human Lee Bacon 2019-10-08

Soon to be a major motion picture from the producers of Spider-Man: Into the Spider-Verse! In a future when humans are believed to be extinct, what will one curious robot do when it finds a girl who needs its help? Humans went extinct...
thirty years ago. Now the world is ruled by machines. And twelve-year-old robot XR_935 is just fine with that. Without humans around, there is no war, no pollution, no crime. Every member of society has a purpose. Everything runs smoothly and efficiently. Until the day XR discovers something impossible: a human girl named Emma. Now, Emma, XR, and two other robots must embark on a dangerous voyage in search of a mysterious point on a map. But how will they survive in a place where rules are never broken and humans aren’t even supposed to exist? And what will they find at the end of their journey? Narrated in the first person (first robot?) by XR, The Last Human blends humor and action with moments of poignancy to tell a story about friendship, technology, and challenging the status quo no matter the consequences. It’s not just about what it means to be a robot. It’s about what it means to be a human.
‘gap’ that this research book addresses. Most of the chapters in the book report empirical data, with the exception of two chapters that can be categorized as systematic reviews. WIL is addressed from various angles in the chapters. Chapter 6 focuses on research related to what makes Finnish teacher education so effective, and in Chapter 4 researchers of the University of Johannesburg disseminate their findings on establishing a teaching school (based on Finnish insights) in Johannesburg. Chapter 3 highlights the challenges faced in open-and distance learning teacher education contexts. Several of the chapters disseminate research findings on alternative interventions to classic WIL, namely, where “safe spaces" or laboratories are created for student teachers to learn and grow professionally. These could either be simulations, such as software programmes and avatars in the intervention described in Chapter 2; student excursions, as the findings in chapters 5, 7 and 10 portray; or alternative approaches to WIL (e.g. Chapters 11 and 12). The book is devoted to scholarship in the field of pre-service teacher education. The target audience is scholars working in the fields of pre-service teacher education, work-integrated learning, and self-directed learning. The book makes a unique contribution in terms of firstly its extensive use of Cultural-Historical Activity Theory as a research lens, and secondly in drawing on various theoretical frameworks. Both quantitative and qualitative research informed the findings of the book.
