The Book Proposal Book: A Guide for Scholarly Authors is not just a compendium of abstract advice; it's a practical, hands-on guide that takes readers through each step of researching and writing a proposal that will sell their book to an editor at a scholarly press. The handbook is premised on the fact that an effective proposal doesn't merely describe a book project—it makes an active case that the book project is worthy of publication. This edition of the Book Proposal Book is a significantly expanded version of the first edition, providing practical advice while fully embracing the new modes of research, writing, and source citation brought about by the age of the Internet. The appendix draws together everything writers need to know about formatting research papers, theses, and dissertations and preparing them for submission. This seventh edition of Turabian's Manual for Writers of Research Papers, Theses, and Dissertations is a classic reference revised for a new age. It is tailored to a new generation of writers using tools its original author could not have dreamed of while retaining the clarity and authority that generations of scholars have come to associate with the name Turabian.
