Village Swaraj by M.K. Gandhi M. K. GANDHI 2021-01-01 According to Gandhiji, ideal society is a Stateless democracy, the state of enlightened anarchy where social life has become so perfect that it is self-regulated. "In the ideal state, there is no political power because there is no State." Gandhiji believed that perfect realization of an ideal is impossible. However "the ideal is like Euclid's line that is one without breadth but no one has so far been able to draw it and never will.Village Swaraj as conceived by Gandhiji is thus a genuine and virile democracy which offers a potent cure for many of the political ills that mark the present political systems. Such a pattern of decentralized genuine democracy will have a message for the whole of humanity.

Strategic management is an essential element that drives an organisation's success, yet many cultural organizations have yet to apply strategic thinking and entrepreneurial actions within the management function. Varbanova reviews the existing theories and models of strategic management and then relates these specifically to cultural organisations. Also included are sections on entrepreneurship and innovations in the arts, considering the concept of a 'learning organisation' – an organisation able to adapt its strategy within a constantly changing, complex environment. The book is structured to walk the reader through each element of the strategic plan systematically. With a fresh approach, key questions, examples, international cases to connect theory with practice and suggestions for further reading, this book is designed to accompany classes on strategic planning, cultural management or arts management.
