The Family And The Nation No Author 2013-12-01 As we aspire for rising economic prosperity and a strong and confident India, this book forcefully reminds us of the values that make for a truly sustainable society, at the heart of which is the family. For it is not economic growth or military strength alone that will make India strong. Sustainable success comes from values, and these can sustain a society and a nation even in times of hardship. The book expresses an ideal by which Indian society may prosper and speaks of how spirituality can help create a noble nation and a better world. It provides a valuable counterpoint to the modern-day emphasis on consumerism and the philosophy of more is better, highlighting the sanctity of the natural world and its great power to evoke human creativity and love. Writing on this crucial subject are two iconic Indians. Together, Acharya Mahapragya and A.P.J. Abdul Kalam-- one a Jain muni revered as a saint, the other a visionary, a distinguished scientist and a former President of India-- bring their vast experience to bear on this important subject. As the authors put it, it's only a united and happy family that will lead to a strong nation, one that can be a true fulfilment of 5,000 years of India's civilization. The book takes up the difficult and pressing task of setting a new agenda in a time of radical social change. It shows us the path we need to follow to take India to its rightful place as a great nation.

Village Swaraj by M.K. Gandhi M. K. GANDHI 2021-01-01 According to Gandhiji, ideal society is a Stateless democracy, the state of enlightened anarchy where social life has become so perfect that it is self-regulated. “In the ideal state, there is no political power because there is no State.” Gandhiji believed that perfect realization of an ideal is impossible. However “the ideal is like Euclid's line that is one without breadth but no one has so far been able to draw it and never will.Village Swaraj as conceived by Gandhiji is thus a genuine and virile democracy which offers a potent cure for many of the political ills that mark the present political systems. Such a pattern of decentralized genuine democracy will have a message for the whole of humanity.
