Handbook of Research on Field-Based Teacher Education: Issues, Ethics, and Challenges (Issues, Ethics, and Challenges in Teacher Education Series) (Volume 4)

Legislative initiatives behind the tradition of special education for people with disabilities. It investigates the roles of states and communities that have adopted standards-based reform and that seek policies and practices to make reform effective. It also explores the problem of overstatement, which results from teaching to the test. The book concludes with a reflection on the state of the field of educational policy and practice and an assessment of the risks and opportunities for change. It is an essential resource for policymakers, practitioners, and students of education policy and practice.

Determined by the National Science Foundation, this research was conducted to determine the effects of the American Republic Since 1877, Teaching Strategies for American History Classroom, Including Block Scheduling on middle and high school students. The study found that the block scheduling model is more effective in improving student achievement in American history. The results of this study are important for educators and policymakers who are considering implementing block scheduling in their schools.

American History: A Handbook for Teachers

World History: Connections to Today

Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about child development and who are able to help them develop important life skills. Teachers play a vital role in providing these relationships. By observing and interacting with children, teachers can identify children who are at risk for poor school performance and help them overcome these problems. Teachers can also work with parents to ensure that children have the support they need to succeed.

Prompts National Geographic maps add dimension to the narrative and give students an understanding of the interactions of places and events. The program's robust, state-of-the-art technology allows teachers to share the program with students in the classroom, at home, or on the road.
