from the sky and went to investigate. As they touched the rock, a strange power entered their bodies. Suddenly, they’re not helpless anymore. They can get revenge for all the suffering and pain they had to endure. How will they use these powers? MORIUM discusses the moral dilemma of doing what’s right against getting revenge. When your dignity has been shattered and your life has been a living hell... what is RIGHT?

Teaching Primary Science Constructively Keith Skamp 2017-09-05 Teaching Primary Science Constructively helps readers to create effective science learning experiences for primary students by using a constructivist approach to learning. This best-selling text explains the principles of constructivism and their implications for learning and teaching, and discusses core strategies for developing science understanding and science inquiry processes and skills. Chapters also provide research-based ideas for implementing a constructivist approach within a number of content strands. Throughout there are strong links to the key ideas, themes and terminology of the revised Australian Curriculum: Science. This sixth edition includes a new introductory chapter addressing readers’ preconceptions and concerns about teaching primary science.
