Additionally, it offers practical advice on how to conduct research ethically and how to present research findings effectively.

How to Evaluate Published Research

The 9/11 Commission Report

The 9/11 Commission Report was a report released in 2004 by the 9/11 Commission, a bipartisan commission established by the United States Congress to investigate the attacks of September 11, 2001. The report includes evidence and analysis that suggests that the attacks were planned and executed by individuals with links to al-Qaeda. The report also makes recommendations for improving national security and intelligence systems.

Research Methods for Clinical Therapists

Glasgow Development and Globalisation United Nations Conference on Trade and Development 2006 The new phase of globalisation is characterised by exchange in a world of overlapping identities, networks and strategies. The opportunities and challenges for developing countries to participate in this new phase are the areas of finance, technology, investment and sustainable development.
