**The Neglected Majority** Dale Parnell 1985 Designed for high school and community college leaders, this book examines a number of issues related to student success, learning continuity, individual differences, and the lack of community college involvement in secondary education; and offers a proposal for increasing high school/community college program cooperation and coordination. After chapter I examines some dilemmas faced by educators in defining excellence, chapter II looks at the effects of technological, educational, and socio-economic tensions on educational excellence. Chapter III highlights such barriers to excellence as unfocused learning, loss of continuity in learning, failure to accommodate individual differences, and unfounded images about learning. Chapter IV offers a model of careers education as a learner-centered bridge between subject-matter disciplines and the competencies required by modern life. In chapter V, the "Opportunity with Excellence" philosophy is proposed as the basis for the community college mission, and a policy statement for the associate degree is presented as developed by the American Association of Community and Junior Colleges. After chapter VI underscores the importance of cooperation and coordination between the high school and the community college, offering examples of successful efforts around the nation, chapter VII delineates the assumptions and characteristics of a 2 + 2 Tech-Prep/Associate Degree Program, which blends the liberal and practical arts in a coordinated program that begins during the last 2 years of high school and culminates with an associate degree. Finally, suggestions for cultivating excellence are presented. (LAL)

Langer 2014-12-31 The social worker's guide to integrating theory and practice Applying Theory to Generalist Social Work Practice teaches aspiring social workers how to apply theory in real world practice. Fully aligned with the Council on Social Work Education's 2015 Educational Policy and Accreditation Standards, the book links theory to practice with clear, concise instruction including a discussion of evidence-based practice. Twelve commonly-used theories are thoroughly explained, with discussion of the strengths and limitations of each, and applied to real work with individuals, groups, families, communities, and organizations. The book includes case studies and first-person contributions from practicing social workers to illustrate the real-world scenarios in which different concepts apply. Critical thinking questions help students strengthen their understanding of the ideas presented. Tools including a test bank, PowerPoint slides, and an instructor's manual are available to facilitate classroom use, providing a single-volume guide to the entire helping process, from engagement to termination. **Disciple IV** Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.
