Memphis Noir Lauren P. Cantwell 2015-11-03 "A collection of stories celebrating the underbelly of the city, its ghosts, and the characters that give Memphis its rich patina of blues." —Memphis Flyer The Home of the Blues knows how darkness can permeate a person's soul—and what it can drive you to do. It's the soundtrack to a city that's made up of equal parts hope and despair, past and present, death and rebirth. On the streets of Memphis, noir hits the right note. Memphis Noir features stories by city standouts Richard J. Alley, David Wesley Williams, Dwight Fryer, Jamey Hatley, Adam Shaw, Penny Register-Shaw, Kaye George, Arthur Flowers, Suzanne Berube Rorhus, Ehi Ike, Lee Martin, Stephen Clements, Cary Holladay, John Bensko, Sheree Renée Thomas, and Troy L. Wiggins. "A remarkable picture of contemporary Memphis emerges in this Akashic noir volume . . . Something for everyone." —Publishers Weekly "Covers train cars and Beale Street, hoodoo and segregation, Nathan Bedford Forrest and, of course, Graceland, and even includes a graphic novella." —Memphis Flyer "Captures the subtlety of the Memphis ethos, where blacks and whites, rich and poor, are intimately entwined. The collection—fifteen stories by some of the city's finest writers—bleeds the blues and calls down the dark powers that permeate this capital of the Delta." —The Commercial Appeal (Memphis) "The new anthology Memphis Noir is replete with murders, ghosts, gangsters, a sharp-toothed baby, Boss Crump, and high water on the bluff." —Memphis Magazine

**The End of Chiraq** Javon Johnson 2018-05-15 *The End of Chiraq: A Literary Mixtape* is a collection of poems, rap lyrics, short stories,

essays, interviews, and artwork about Chicago, the city that came to be known as "Chiraq" ("Chicago" + "Iraq"), and the people who live in its vibrant and occasionally violent neighborhoods. Tuned to the work of Chicago's youth, especially the emerging artists and activists surrounding Young Chicago Authors, this literary mixtape unpacks the meanings of "Chiraq" as both a vexed term and a space of possibility. "Chiraq" has come to connote the violence—interpersonal and structural—that many Chicago youth regularly experience. But the contributors to *The End of Chiraq* show that Chicago is much more than Chiraq. Instead, they demonstrate how young people are thinking and mobilizing, engaged in a process of creating a new and safer world for themselves, their communities, and their city. In true mixtape fashion, the book is an exercise in "low end theory" that does not just include so-called underground and marginal voices, but foregrounds them. Edited by award-winning poets, writers, and teachers Javon Johnson and Kevin Coval, *The End of Chiraq* addresses head-on the troublesome relationship between Chicago and Chiraq and envisions a future in which both might be transformed.

Models Matter Christopher Niquet 2017 In 2008, Christopher Niquet, a well-known French stylist, spotted the 1960s supermodel Peggy Moffitt in a Beverly Hills restaurant. Never an autograph chaser, he nonetheless felt compelled to ask for hers. This candid moment ignited an obsessive, ongoing quest. Niquet began to reach out to the models he considered quintessential figures in his industry, for their epic beauty and remote auras. Deploying a sleuth's methods to locate these models around the globe, he collected 100 signatures, most of which are framed along with an iconic portrait. "My original purpose was to get beyond the abstract, incorporeal beauty of these icons, and bring back a sense of their physicality. For me, each signature restored a womanly reality to the imaginary being." This book highlights the unique personalities of celebrated or forgotten women from the late

1950s to the 1990s and what they all have in common: the power to awaken creativity in the people who see them. Through generations of cover stories, *Models That Matter* explores a multi-layered history of feminine beauty, from Jean Shrimpton to Jerry Hall, from Lauren Bacall to Linda Evangelista, from Anita Pallenberg to Naomi Campbell, muses for extraordinary fashion lensmen like Steven Meisel—who wrote the preface to Irving Penn or Richard Avedon.

Lock picking is a useful, engaging, and satisfying skill; with this book and a little determination, you'll be off to a great start.

**The Locke Reader** John W. Yolton 1977-03-01 John Yolton seeks to allow readers of Locke to have accessible in one volume sections from a wide range of Locke's books, structured so that some of the interconnections of his thought can be seen and traced. Although Locke did not write from a system of philosophy, he did have in mind an overall division of human knowledge. The readings begin with Locke's essay on Hermeneutics and the portions of his *Essay Concerning Human Understanding* on how to read a text. The rest of the selections are organized around Locke's division of human knowledge into natural science, ethics, and the theory of signs. Yolton's introduction and commentary explicate Locke's doctrines and provide the reader with the general background knowledge of other seventeenth-century writers and their works necessary to an understanding of Locke and his time.

**Teranesia** Greg Egan 1999-07-12 Welcome to Teranesia, the island of butterflies, where evolution has stopped making sense. Prabir Suresh lives in paradise, a nine-year-old boy with an island all his own: to name, to explore, and to populate with imaginary creatures stranger than any exotic tropical wildlife. Teranesia is his kingdom, shared only with his biologist parents and baby sister Madhuree. The evolutionary puzzle of the island's butterflies that brought his family to the remote South Moluccas barely touches Prabir; his own life revolves around the beaches, the jungle, and the schooling and friendships made possible by the net. When civil war breaks out across Indonesia, this paradise comes to a violent end. The mystery of the butterflies remains unsolved, but nearly twenty years later reports begin to appear of strange new species of plants and animals being found throughout the region — species separated from

their known cousins by recent, dramatic mutations that seem far too useful to have arisen by chance from pollution, disease, or any other random catastrophe. Madhusree is now a biology student, proud of her parents' unacknowledged work, and with no memories of the trauma of the war to discourage her, she decides to join a multinational expedition being mounted to investigate the new phenomenon. Unable to cast off his fears for her safety, Prabir reluctantly follows her. But travel between the scattered islands is difficult, and Madhusree has covered her tracks. In the hope of finding her, Prabir joins up with an independent scientist, Martha Grant, who has come to search for both clues to the mystery and whatever commercial benefits it might bring to her sponsor. As Prabir and Martha begin to untangle the secret of Teranesia, Prabir is forced to confront his past, and to face the painful realities that have shaped his life.

The Book of L G. Rozenberg 2012-12-06 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this

book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

**Kasher in the Rye** Moshe Kasher 2012-03-28  
Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

When Jacqueline Turner's fiancé gives her two days to move out of his apartment, she has no choice but to leave New York City and crash with her best friend in Washington, D.C. She needs an exciting new life--not to mention real employment. Where better to get a fresh start than the nation's capitol? From the married presidential appointee who gives her cash after each tryst to the lascivious Georgetown lawyer who parades her around like something out of *Pretty Woman*, Jackie's roster of paramours grows so complicated that her friends ask her to start a blog so they can keep up. *Wake Up, Woods* Michael A. Homoya 2019-10  
Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. *Wake Up, Woods* showcases the splendor of our warming forests and offers clues to nature's annual springtime

floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of *Wake Up, Woods* will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.
