Canadiana 1991-04 Communities in Action National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Managerial Accounting Karen Wilkon Braun 2010 The Bamber System of instruction replicates the classroom experience by providing more "I get it" moments outside of class. For Introductory, Undergraduate Managerial accounting course We’ve talked to tons of Managerial Accounting instructors and our editors have even taken the Managerial accounting course (numerous times!) to figure out the following goal in this course that is consistent: Students understand (or "Get It") right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. On top of this, you can end up getting behind in the course, as well, in order to keep everyone on track. The Bamber system helps to recreate the "I Get It"
moments outside of class keeping you and the students on track.

Fundamental Managerial Accounting Concepts Thomas P. Edmonds 2003 "Fundamental Managerial Accounting Concepts" 4e by Edmonds/Edmonds/Tsay/Olds focuses on concepts that are isolated and introduced in a logical sequence. The authors intentionally limit the scope of the material to help students build a solid foundation of the most important concepts in managerial accounting. "Fundamental Managerial Accounting Concepts" 4e is organized in a distinctive way, particularly in the first six chapters. The objective is to establish a coherent, integrative framework that enables students to build knowledge in stepwise fashion. The authors' goal is for students to understand the underlying principles of accounting, not just memorize content.
