Law enforcement

This book is a comprehensive resource for study of virtually all areas common to the day-to-day functions of peace officers. The material in these three volumes is designed and intended to complement performance objectives for the basic peace officer course of study and is organized to follow specific functional areas of minimum peace officer competencies. The format makes them valuable as reference resources for thoughtful review of the major concerns in law enforcement. They may be used in police officer training academies and for self-education by officers. Written in nontechnical language, they address the peace officer as a responsible, thinking, influential individual who exercises important discretion in carrying out daily responsibilities. Study aids include a glossary of relevant terms and concepts, a comprehensive index, and extensive review questions.

Applicant to Police Cadet

6 years, that's the time it took me from my first Police application to my first Hiring letter. It's a little-known fact for many starting out, and a very real reality for most that are in the process; that most Applicants don't make it through the hiring process on their first time out. I've probably made all of the mistakes there are to make, from not being prepared for Oral Boards and turning in inaccurate applications. This book doesn't just teach you how to be a standout applicant; it show's how to pick agencies, what Departments look for, and how to plan out your selections so that it benefits not only you but your family as well. In the end, I hope you avoid the hiring process pitfalls that plague so many and learn how to skyrocket the top of any hiring list, in a shorter time than it took me.
