friends and colleagues, this poignant biography reveals new insights into the man behind Crazy John's, the wife and four children he left behind and his David and Goliath battle with Telstra. Ilhan's inspirational journey shows how self-belief, passion and a never-say-die attitude can see you achieve your dreams. "When you share your life with a true achiever it's hard to fully comprehend the impact they can have on the broader community.

Unfortunately for my family, I learned about that impact the day John passed away."

—Patricia Ilhan, co-founder, Ilhan Food Allergy Foundation  
"When John passed away we

lost a truly wonderful person who was a giant at everything he did and a truly free spirit. The amazing thing was he'd only just started to make his mark on the wider community."

—Brendan Fleiter, Chief Executive Officer, Crazy John's

"...he was a migrant from Turkey who grew up in Broadmeadows and rose to a very senior position in our community. To my mind John lived until he was 100; he just did it in forty-two years." —Eddie

*Stand and Deliver* Steve Lewis  
2014-11-10 If Australian politics and public policy is a war of ideas, the National Press Club is the battleground. For the past half-century, the NPC has been the epicentre of political and social debate in Australia.

Leaders and opinion-makers have used its stage to launch

leadership bids, rattle the cage of public opinion with courageous and sometimes outrageous ideas, and make a stand. *Stand & Deliver* brings to life the NPC's rich and colourful history by presenting the best speeches of the past fifty years.

It also lifts the lid on the protests and controversies experienced by this national institution. Featuring many of the giants of recent Australian and international history – including Bill Gates, the Dalai Lama, John Howard, Paul Keating, Julia Gillard, Barry Humphries, Germaine Greer and Bob Hawke – *Stand & Deliver* is an illuminating and

entertaining journey through the

Scale-up Manual, The: Handbook For Innovators, Entrepreneurs, Teams And Firms Phadke Uday 2018-09-19

It is widely accepted that innovation holds the key to sustainable commercial growth globally, but in practice there is limited understanding of how to successfully exploit its full commercial and social value.

The Scale-up Manual provides a unified approach to manage

the creation and commercialisation of innovative products and services, enabled by four data-driven building blocks: the Triple Chasm Model, modified commercialisation readiness levels, meso-economic vectors and the commercialisation canvas. The approach supports different strategies for resource allocation, ranging from 'lean' techniques to sustainability initiatives based on the circular economy. The Manual includes many case studies and insights, which different 'Actors' can use at different points along the commercialisation journey.

**Confronting the Internet's Dark Side** Raphael Cohen-Almagor 2015-06-30 Terrorism, cyberbullying, child pornography, hate speech, cybercrime: along with unprecedented advancements

in productivity and engagement, the Internet has ushered in a space for violent, hateful, and antisocial behavior. How do we, as individuals and as a society, protect against dangerous expressions online? *Confronting the Internet's Dark Side* is the first book on social responsibility on the Internet. It aims to strike a balance between the free speech principle and the responsibilities of the individual, corporation, state, and the international community. This book brings a global perspective to the analysis of some of the most troubling uses of the Internet. It urges net users, ISPs, and liberal democracies to weigh

freedom and security, finding the golden mean between unlimited license and moral responsibility. This judgment is necessary to uphold the very liberal democratic values that gave rise to the Internet and that are threatened by an unbridled use of technology.
