**Roomies** Sara Zarr 2013-12-24 The countdown to college has begun. When Elizabeth receives her freshman-year roommate assignment at the beginning of summer, she shoots off an email to coordinate the basics: TV, microwave, mini-fridge. She can't wait to escape her New Jersey beach town, and her mom, and start life over in California. That first message comes as a surprise to Lauren in San Francisco; she had requested a single. But if Lauren's learned anything from being the oldest of six, it's that you can't always get what you want, especially when what you want is privacy. Soon the girls are e-mailing back and forth, sharing secrets even though they've never met. With childhood friendships and family relationships strained by change, it suddenly seems that the only people Elizabeth and Lauren can rely on are the complicated new boys in their lives...and each other. With humor and heart, Sara Zarr, National Book Award finalist for Story of a Girl, and Tara Altebrando, acclaimed author of *The Pursuit of Happiness*, join forces for a novel about that time after high school when everything feels like it's ending just as it's beginning.

**Peter and the Starcatchers** Ridley Pearson 2010-11-23 A fast-paced, impossible-to-put-down adventure awaits as the young orphan Peter and his mates are dispatched to an island ruled by the evil King Zarboff. They set sail aboard the Never Land, a ship carrying precious and mysterious trunk in its cargo hold, and the journey quickly becomes fraught with excitement and danger. *Engineering* Unesco 2010 This report reviews engineering's importance to human, economic, social and cultural development and in addressing the UN Millennium Development Goals. Engineering tends to be viewed as a national issue, but engineering knowledge, companies, conferences and journals, all demonstrate that it is as international as science. The report reviews the role of engineering in development, and covers issues including property rights, sustainable development, climate change mitigation and adaptation. It presents the various fields of engineering around the world and is intended to identify issues and challenges facing engineering, promote better understanding of engineering and its role, and highlight ways of making engineering more attractive to young people, especially women.—Publisher's description.

**Choke Point** Ridley Pearson 2013-06-04 The new Risk Agent novel from the #1 New York Times bestselling author Private security firm Rutherford Risk’s new client is a philanthropist with a headline-making cause: to locate and shut down an Amsterdam-based sweatshop that uses enslaved girls as forced labor. Enter import/export entrepreneur John Knox, with his former combat experience—and forensic accountant Grace Chu, who can trap and trace even the most sensitive financial information. Working through the picturesque streets and canals of Amsterdam, Knox and Grace face Middle Eastern mobsters, the owner of a local brothel and police officers they don’t trust. Pursuing one young girl who holds the key to their investigation, but is either too afraid or in too deep to help them, they encounter the dark side of a secret world where would-be allies are enemies, and the victims themselves don’t want to be saved.

**Kingdom Keepers II (Volume 2)** Ridley Pearson 2020-04-14 It’s supposed to be a happy day at the Magic Kingdom—the return of the teenaged holographic hosts. But things go very wrong when a sudden lightning storm disrupts the celebration, and Amanda’s mysterious sister, Jez, disappears. The only clue is the sighting of a wild monkey in the Magic Kingdom during the storm. The mystery deepens as Finn is contacted by Wayne, an old man he hasn’t heard from in months. Wayne tells Finn that there’s trouble at the Animal Kingdom: the evil Overtakers have gained control of one of the computer servers that will be used to operate Daylight Holographic Imaging there. That means that if any of the holographic hosts fall asleep, they will go into comas—permanently. Filled with action and brimming with the same meticulous detail as The Kingdom Keepers: Disney After Dark, this second book in the series—The Rise of Chernabog—is the result of hands-on research behind the scenes at Disney’s Animal Kingdom Park. Young and older readers alike will get a glimpse into a second Disney kingdom. The wild rides have only just begun; and the clock is ticking. How long can the teens keep themselves awake in their quest to find their friend—and what happens if they fail?

The Rational Optimist Matt Ridley 2010-06-15 “A delightful and fascinating book filled with insight and wit, which will make you think twice and cheer up.” – Steven Pinker In a bold and provocative interpretation of economic history, Matt Ridley, the New York Times-bestselling author of Genome and The Red Queen, makes the case for an economics of hope, arguing that the benefits of commerce, technology, innovation, and change—what Ridley calls cultural evolution—will inevitably increase human prosperity. Fans of the works of Jared Diamond (Guns, Germs, and Steel), Niall Ferguson (The Ascent of Money), and Thomas Friedman (The World Is Flat) will find much to ponder and enjoy in The Rational Optimist. For two hundred years the pessimists have dominated public discourse, insisting that things will soon be getting much worse. But in fact, life is getting better—and at an accelerating rate. Food availability, income, and life span are up; disease, child mortality, and violence are down all across the globe. Africa is following Asia out of poverty; the Industrial Revolution remains a shrinking memory for enriching people's lives as never before. An astute, refreshing, and revelatory work that covers the entire sweep of human history—from the Stone Age to the Internet—The Rational Optimist will change your way of thinking about the world for the better.

Escape from the Carnivale Dave Barry 2007 Adventure-seeking Little Scallop sneaks off into forbidden waters in Neverland with her mermaid friends Aqua and Surf. What Technology Wants Kevin Kelly 2011-09-27 From the author of the New York Times bestseller The Inevitable—a sweeping vision of technology as a living force that can expand our individual potential In this provocative book, one of today's most respected thinkers turns the conversation about technology on its head by viewing technology as a natural system, an extension of biological evolution. By mapping the behavior of life, we paradoxically get a glimpse at where technology is headed—or "what it wants." Kevin Kelly offers a dozen true stories of technology that are shaping our time, and one undearthing micoscopic evidence, the other putting together a chilling psychological profile of a man willing to contaminate and kill if necessary. The entertainment industry has long been dominated by legendary screenwriter William Goldman’s “Nobody-Knows-Anything” mantra, which argues that success is the result of managerial intuition and instinct. This book builds the case that containing such intuition with data analytics and rigorous scholarly knowledge provides a source of sustainable competitive advantage—the same recipe for success that is behind the rise of firms such as Netflix and Spotify, but has also fueled Disney’s recent success. Unlocking a large repertoire of scientific studies by business scholars and entertainment economists, the authors identify essential factors, mechanisms, and methods that help a new entertainment product succeed. The book thus offers a timely alternative to “Nobody-Knows” decision-making in the digital era: while coupling a good idea with smart data analytics and entertainment theory cannot guarantee a hit, it systematically and substantially increases the probability of success in the entertainment industry. Entertainment Science is poised to inspire fresh new thinking among managers, students of entertainment, and scholars alike. Thorsten Hennig-Thurau and Mark B. Houston—two of our finest scholars in the area of entertainment marketing—have produced a definitive research-based compendium that cuts across various branches of the entertainment industry urgently needs. Michael Kümel, media entertainment economist and Honorary Professor of Media Economics at University of Leipzig Entertainment Science’s winning combination of creativity, theory, and data analytics offers managers in the creative industries and beyond a novel, compelling, and comprehensive approach to support their decision-making. This ground-breaking book marks the dawn of a new Golden Age of fruitful conversation between entertainment scholars, managers, and artists.

In this riveting thriller, a U.S. federal marshal against the mob’s most resourceful killer—in a race to save the woman he loves Six years ago, witness protection marshal Roland Larson did the unthinkable: He fell in love with Hope Stevens, whose testimony was to put away prominent members of the Romero crime family. When Hope’s plan to “cut and run” is interrupted by both the government and the mob, she disappears into a new identity, taking with her not only her testimony but also a secret she never shared with Larson. Larson, who has been looking for her ever since, is put back on her trail when the Romeros intercept the master WITSEC list from the Justice Department and Hope is believed to be among the first protected witnesses targeted for execution. In a series of terrifying encounters, Larson matches wits with a brutally ingenious killer whose sole target is Hope Stevens. For Larson, the stakes couldn’t be higher—he must find Hope in order to protect her and simultaneously prevent the mob from auctioning off the master witness protection list—an act that will put seven thousand innocent, and not-so-innocent, lives in jeopardy. Taut and edge-of-the-seat compelling, Cut and Run is a unique thriller that skillfully blends romance and suspense—Ridley Pearson at his heart-pounding best.

or frightening fact? "One of the better fictional detectives ever penned," Seattle's Lou Boldt, and forensic psychologist Dephne Matthews suspect illegal organ harvesting is behind recent assaults on teenage runaways. The trail leads them down dark streets and darker corners of the mind, as they find themselves pursuing a twisted surgeon with his own ideas of mortality and social justice. Packed with action, The Angel Maker takes the reader on a joy ride from Seattle's homeless to an abandoned homesteading cabin and kennel hidden away in the forests of the Northwest. Dephne Matthews, intent on rescuing a teenage runaway from the madman's scalpel, puts her own life on the line, finding herself face to face with the Angel Maker. "Award-winning author Ridley Pearson carves out and serves up a thriller that will make you look twice at your local veterinarian." -- Book Magazine

The Art of Deception Ridley Pearson 2003-08-01 Seattle police psychologist Daphne Mathews has her hands full with a pregnant, addicted, runaway teenager, a murder victim's brother whose strange behavior unnerves her, and a deputy sheriff she once treated who's now stalking her. She's frightened enough to move in with Detective John LaMoia, a development that doesn't exactly thrill Lou Boldt, their boss and Dephne's ex-lover. But Lou's too busy with his own cases to brood over John and Dephne: the recent disappearances of two local women, and the death of Billy Chen, the nephew of Mama Lu, an old friend and a powerful figure in Seattle's Chinese community, which appeared to be an accident but turns out to have been murder. The only thing the disappearances and murder have in common is location; all three victims were last seen in a part of downtown built over the Underground, a dark and dangerous warren of buildings abandoned after the fire that leveled Seattle more than a hundred years ago. While Seattle's Underground has been the setting for several mysteries by other authors (Earl Emerson, J.A. Jance), Pearson makes the most of its creepy-crawly atmosphere in a gripping thriller whose solid plotting pulls all of Daphne's, LaMoia's, and Boldt's cases together. It also wisely reconfigures the personal relationships among the three central characters, which bodes well for their future adventures in this long-running series (Middle of Nowhere, The Pied Piper). --Jane Adams
