The Daily Show (The Book)

Chris Smith 2016-11-22 NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker

Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking

shows.

Awkward Ty Tashiro

2017-04-25 In the vein of *Quiet* and *The Geeks Shall Inherit the Earth* comes this illuminating look at what it means to be awkward—and how the same traits that make us socially anxious and cause embarrassing faux pas also provide the seeds for extraordinary success. As humans, we all need to belong. While modern social life can make even the best of us feel gawky, for roughly one in five of us, navigating its challenges is consistently overwhelming—an ongoing maze without an exit. Often unable to grasp social cues or master the skills and grace necessary for smooth interaction, we feel out of sync with those around us. Though individuals may recognize their awkward disposition, they rarely understand why they are like this—which makes it hard for them to know how to adjust their behavior. Psychologist and interpersonal relationship expert Ty Tashiro knows what it's like to be awkward. Growing

up, he could do math in his head and memorize the earned run averages of every National League starting pitcher. But he couldn't pour liquids without spilling and habitually forgot to bring his glove to Little League games. In *Awkward*, he unpacks decades of research into human intelligence, neuroscience, personality, and sociology to help us better understand this widely shared trait. He explores its nature vs. nurture origins, considers how the awkward view the world, and delivers a welcome counterintuitive message: the same characteristics that make people socially clumsy can be harnessed to produce remarkable achievements. Interweaving the latest research with personal tales and real world examples, *Awkward* offers reassurance and provides valuable insights into how we can embrace our personal quirks and unique talents to harness our awesome potential—and more comfortably navigate our complex world.

Growing God's Family Samuel

L. Perry 2017-06-13 Illustrates the hidden challenges embedded within the evangelical adoption movement. For over a decade, prominent leaders and organizations among American Evangelicals have spent a substantial amount of time and money in an effort to address what they believe to be the “Orphan Crisis” of the United States. Yet, despite an expansive commitment of resources, there is no reliable evidence that these efforts have been successful. Adoptions are declining across the board, and both foster parenting and foster-adoptions remain steady. Why have evangelical mobilization efforts been so ineffective? To answer this question, Samuel L. Perry draws on interviews with over 220 movement leaders and grassroots families, as well as national data on adoption and fostering, to show that the problem goes beyond orphan care. Perry argues that evangelical social engagement is fundamentally self-limiting and difficult to sustain because

their subcultural commitments lock them into an approach that does not work on a practical level. Growing God’s Family ultimately reveals this peculiar irony within American evangelicalism by exposing how certain aspects of the evangelical subculture may stimulate activism to address social problems, even while these same subcultural characteristics undermine their own strategic effectiveness. It provides the most recent analysis of dominant elements within the evangelical subculture and how that subculture shapes the engagement strategies of evangelicals as a group.

I Am Nujood, Age 10 and Divorced Nujood Ali 2010-03-02 “I’m a simple village girl who has always obeyed the orders of my father and brothers. Since forever, I have learned to say yes to everything. Today I have decided to say no.” Nujood Ali's childhood came to an abrupt end in 2008 when her father arranged for her to be married to a man three times her age.

With harrowing directness, Nujood tells of abuse at her husband's hands and of her daring escape. With the help of local advocates and the press, Nujood obtained her freedom—an extraordinary achievement in Yemen, where almost half of all girls are married under the legal age. Nujood's courageous defiance of both Yemeni customs and her own family has inspired other young girls in the Middle East to challenge their marriages. Hers is an unforgettable story of tragedy, triumph, and courage.

American Baby Gabrielle Glaser
2022-01-25 A New York Times
Notable Book The shocking truth about postwar adoption in America, told through the bittersweet story of one teenager, the son she was forced to relinquish, and their search to find each other. “[T]his book about the past might foreshadow a coming shift in the future... ‘I don’t think any legislators in those states who are anti-abortion are actually thinking, “Oh, great, these single women are gonna

raise more children.” No, their hope is that those children will be placed for adoption. But is that the reality? I doubt it.”[says Glaser]” -Mother Jones
During the Baby Boom in 1960s America, women were encouraged to stay home and raise large families, but sex and childbirth were taboo subjects. Premarital sex was common, but birth control was hard to get and abortion was illegal. In 1961, sixteen-year-old Margaret Erle fell in love and became pregnant. Her enraged family sent her to a maternity home, where social workers threatened her with jail until she signed away her parental rights. Her son vanished, his whereabouts and new identity known only to an adoption agency that would never share the slightest detail about his fate. The adoption business was founded on secrecy and lies. *American Baby* lays out how a lucrative and exploitative industry removed children from their birth mothers and placed them with hopeful families, fabricating stories about infants' origins and

destinations, then closing the door firmly between the parties forever. Adoption agencies and other organizations that purported to help pregnant women struck unethical deals with doctors and researchers for pseudoscientific "assessments," and shamed millions of women into surrendering their children. The identities of many who were adopted or who surrendered a child in the postwar decades are still locked in sealed files. Gabrielle Glaser dramatically illustrates in *Margaret and David's tale*--one they share with millions of Americans--a story of loss, love, and the search for identity.

Before I Was Yours Virginia Macgregor 2018-04-03 An emotional family drama that asks the question: how far would you go for a child who isn't yours? Praise for Virginia Macgregor 'A future classic' Clare Mackintosh, author of *I See You* 'Insightful and compelling' *Woman & Home* 'Deeply satisfying' Red 'A touching look at the meaning of motherhood' Good

Housekeeping Sam and Rosie Keep have always wanted children of their own but life hasn't worked out that way for them. The only option available to them now is adoption: they'll do anything to have a child to love. Seven-year-old Jonah is far away from home and his mama promised he'd be looked after in England. But the man who's meant to be taking care of him has disappeared and now Jonah's all alone. When Sam and Rosie meet Jonah, they're certain they've found their son, and open their home and their hearts to him. Finally, their family is complete. And then the unthinkable happens and life changes for all three members of the Keep family. Suddenly Sam and Rosie must answer an impossible question: how far are they willing to go for a child who isn't really theirs?

Reclaiming Adoption Dan Cruver 2011 If Christians learn to first think about their adoption by God, and only then about the adoption of children, they will enjoy deeper communion with the God who is

love, and experience greater missional engagement with the pain and suffering of this world.

Quiverfull Kathryn Joyce 2009-03-01 Kathryn Joyce's fascinating introduction to the world of the patriarchy movement and Quiverfull families examines the twenty-first-century women and men who proclaim self-sacrifice and submission as model virtues of womanhood—and as modes of warfare on behalf of Christ. Here, women live within stringently enforced doctrines of wifely submission and male headship, and live by the Quiverfull philosophy of letting God give them as many children as possible so as to win the religion and culture wars through demographic means. From the Trade Paperback edition.

The Girls Who Went Away Ann Fessler 2007-06-26 “A remarkably well-researched and accomplished book.” —The New York Times Book Review “A wrenching, riveting book.” —Chicago Tribune In this deeply moving and myth-shattering work, Ann Fessler

brings out into the open for the first time the astonishing untold history of the million and a half women who surrendered children for adoption due to enormous family and social pressure in the decades before Roe v. Wade. An adoptee who was herself surrendered during those years and recently made contact with her mother, Ann Fessler brilliantly brings to life the voices of more than a hundred women, as well as the spirit of those times, allowing the women to tell their stories in gripping and intimate detail. [The Primal Wound](#) Nancy Newton Verrier 2009-09 Originally published in 1993, this classic piece of literature on adoption has revolutionised the way people think about adopted children. Nancy Verrier examines the life-long consequences of the 'primal wound' - the wound that is caused when a child is separated from its mother - for adopted people. Her argument is supported by thorough research in pre- and perinatal psychology, attachment, bonding and the effects of loss.

Satan's Silence Debbie Nathan 2001 Communities throughout the United States were convulsed in the 1980s and early 1990s by accusations, often without a shred of serious evidence, that respectable men and women in their midst—many of them trusted preschool teachers—secretly gathered in far reaching conspiracies to rape and terrorize children. In this powerful book, Debbie Nathan and Mike Snedeker examine the forces fueling this blind panic.

The Final Case David Guterson 2022-01-11 From the award-winning, best-selling author of *Snow Falling on Cedars*—a moving father-son story that is also a taut courtroom drama and a bold examination of privilege, power, and how to live a meaningful life. A girl dies one late, rainy night a few feet from the back door of her home. The girl, Abeba, was born in Ethiopia. Her adoptive parents, Delvin and Betsy Harvey—conservative, white fundamentalist Christians—are charged with her murder.

Royal, a Seattle criminal attorney in the last days of his long career, takes Betsy Harvey's case. An octogenarian without a driver's license, he leans on his son—the novel's narrator—as he prepares for trial. So begins *The Final Case*, a bracing, astute, and deeply affecting examination of justice and injustice—and familial love. David Guterson's first courtroom drama since *Snow Falling on Cedars*, it is his most compelling and heartfelt novel to date.

Finding Fernanda Erin Siegal 2012-05-15 A compelling, dramatic narrative of how an American housewife discovered that the Guatemalan child she was about to adopt had been stolen from her birth mother, shedding light on the alarming and growing problem of international adoption fraud. Over the past five years, over 100,000 children were adopted into the United States, 20,000 of whom came from Guatemala. *Finding Fernanda*, a dramatic true story paired with investigative reporting, tells the side-by-side tales of an

American housewife who adopts a two-year-old girl from Guatemala and the birth mother whose two children were stolen from her. Each woman gradually comes to realize her role in what was one of Guatemala's most profitable black-market industries: the buying and selling of children for international adoption. Finding Fernanda is an overdue, unprecedented look at adoption corruption--and a poignant, riveting human story about the power of hope, faith, and determination. From the Hardcover edition.

The First 1,000 Days Roger Thurow 2016-05-03 "Your child can achieve great things." A few years ago, pregnant women in four corners of the world heard those words and hoped they could be true. Among them were Esther Okwir in rural Uganda, where the infant mortality rate is among the highest in the world; Jessica Saldana, a high school student in a violence-scarred Chicago neighborhood; Shyamkali, the mother of four girls in a low-caste village in India; and Maria

Estella, in Guatemala's western highlands, where most people are riddled with parasites and moms can rarely afford the fresh vegetables they farm. Greatness? It was an audacious thought, given their circumstances. But they had new cause to be hopeful: they were participating in an unprecedented international initiative designed to transform their lives, the lives of their children, and ultimately the world. The 1,000 Days movement, a response to recent, devastating food crises and new research on the economic and social costs of childhood hunger and stunting, is focused on providing proper nutrition during the first 1,000 days of children's lives, beginning with their mother's pregnancy. Proper nutrition during these days can profoundly influence an individual's ability to grow, learn, and work--and determine a society's long-term health and prosperity. In this inspiring, sometimes heartbreaking book, Roger Thurow takes us into the lives of families on the forefront

of the movement to illuminate the science, economics, and politics of malnutrition, charting the exciting progress of this global effort and the formidable challenges it still faces: economic injustice, disease, lack of education and sanitation, misogyny, and corruption.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In

Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time. **Son With Two Moms** Anthony Hynes 2015-12-14 I was taken

in at the age of three by Mary Hynes and Janet Simons, after being separated from my mother, who suffered from schizophrenia. After that time, I was shuffled in and out of my grandmothers home before being placed in an orphanage, where I remained for one year. After a tumultuous court battle, I went home with the only two women brave enough to raise me. However, neither I nor my guardians could have imagined the trials awaiting our family after the proceedings ended. This story is about a young boy adopted by two lesbians of a different race than mine. However, it is much more than that. The harrowing custody battle that shaped an otherwise beautiful childhood, and my mother's battle with cancer, forced me to look at the world in shades of grey at a far younger age than I would have liked. Those experiences, many of them dealing with issues of race and sexuality, helped me stand out when I wanted to fit in. I yearned to be an average child, but people kept asking me about the two women who

came to pick me up from school everyday. "e;Why are they white? And do they sleep in the same bed?"e; Children kept asking, waiting for an answer. My responses to their queries began to dovetail into deeper stories, explaining not only my life, but my viewpoints as well. One day a college professor discovered one of these viewpoints in one of my papers and suggested I keep writing. Although sharing my story with my closest friends was hard, the prospect of opening up my life to multitudes of people I didn't know was harder. However, in spite of myself, I began to write. From my mother's last hospital stay to my grandmother's questioning of my sexuality, to the first time I was ever told my moms were going to hell: every moment was important, and every event became a chance to become a better person by standing up for what I believed in, my family.

We Are All Human Beings Paul Kimball 2020-12-19 Paul Kimball, a biracial adoptee,

explores his own abandonment issues as he searches, and eventually reunites with his birth parents. After a seemingly joyous reunion, his birth mother, a Caucasian professional cellist, rejects him. This causes him to seek out his Armenian birth father, who along with his extended family, accepts him as one of their own. Paul's birthparents met at the Hollywood Methodist Church in 1961. Vahe had immigrated from Iraq to California, while Wendy gave cello concerts throughout the United States. After Wendy became pregnant, they decided to have an abortion in Mexico, and upon arrival, changed their minds. As directed by her parents, Wendy had her baby in secret in Fort Bragg. Vahe was told that the baby had been aborted. After one week with Wendy, Paul was given up for adoption. He was placed in foster care through Children's Home Society for four and a half months. Being biracial, Paul was considered a "Hard to Place" baby. The Kimballs, a wonderfully liberal Berkeley

family, decided to adopt Paul. On Paul's first birthday, November 22nd, 1962, he was officially adopted three hours before the assassination of President Kennedy. Paul became a professional French Horn player, conductor and music teacher. He had always been deeply moved by the cello, especially the recordings of Jacqueline Du Pre. Music was his life, and cello his therapy. After marrying and becoming a father of two daughters, Paul searched for his birthmother. Upon learning that she was a cellist, he was even more determined to meet her. After several months and false leads, he found her name in the Musician's Union directory. This led to a three-hour phone call with birth mother, Wendy. Paul and Wendy met in L.A. and had a beautiful three-month reunion. That summer, she went to New York to play in an orchestra. While there, she made the decision to keep Paul a secret. She was afraid of being thought of as a "slut." She stopped all communication. When the horrors of 911

happened, Paul left one last message on her phone. This led Wendy to contact his mother in law, and let her know that Paul must never contact her again. In shock, Paul decided to search for his birth father. With some clues provided by Wendy, including his last name, Paul tracked down Vahe through his brother Vasken. On Christmas day, Vasken announced to his extended family that Vahe had an unknown son, much to their astonishment. That evening, Paul called Vasken who handed the phone to Vahe. The first words that Vahe said to him were "Son, I love you!" For twelve years, Vahe, Paul and the extended Armenian community got to know and love each other. Paul kept tabs on Wendy through her summer orchestra's website. One summer he noticed that she wasn't listed. He learned through a facebook message that Wendy had died a few years earlier. Paul found her gravesite, but no marker, just grass. He decided to design one for her. When the marker was completed, he visited it alone,

in tears, while listening to cello music. Paul's adopted parents, and Vahe passed away. His adopted father committed suicide three days after his mother passed while looking at her pictures. Now that his parents were gone, Paul continued to contemplate his abandonment issues. The realization that we are all human beings, adopted or not, and that we are all a part of nature, has brought much comfort and healing.

The Child Catchers Kathryn Joyce 2013-04-23 The award-winning journalist and author of *Quiverfull* reveals how adoption has become entangled in the conservative Christian agenda as a reflection of pro-life initiatives, explaining how child and family well-being has become a lesser priority in a market increasingly driven by profit and religious ideology.

The Lost Children of Wilder Nina Bernstein 2011-03-23 In 1973 Marcia Lowry, a young civil liberties attorney, filed a controversial class-action suit that would come to be known as *Wilder*, which challenged New York City's operation of its foster-care system. Lowry's contention was that the system failed the children it was meant to help because it placed them according to creed and convenience, not according to need. The plaintiff was thirteen-year-old Shirley Wilder, an abused runaway whose childhood had been shaped by

the system's inequities. Within a year Shirley would give birth to a son and relinquish him to the same failing system. Seventeen years later, with Wilder still controversial and still in court, Nina Bernstein tried to find out what had happened to Shirley and her baby. She was told by child-welfare officials that Shirley had disappeared and that her son was one of thousands of anonymous children whose circumstances are concealed by the veil of confidentiality that hides foster care from public scrutiny. But Bernstein persevered. *The Lost Children of Wilder* gives us, in galvanizing and compulsively readable detail, the full history of a case that reveals the racial, religious, and political fault lines in our child-welfare system, and lays bare the fundamental contradiction at the heart of our well-intended efforts to sever the destiny of needy children from the fate of their parents. Bernstein takes us behind the scenes of far-reaching legal and legislative battles, at the same time as

she traces, in heartbreaking counterpoint, the consequences as they are played out in the life of Shirley's son, Lamont. His terrifying journey through the system has produced a man with deep emotional wounds, a stifled yearning for family, and a son growing up in the system's shadow. In recounting the failure of the promise of benevolence, *The Lost Children of Wilder* makes clear how welfare reform can also damage its intended beneficiaries. A landmark achievement of investigative reporting and a tour de force of social observation, this book will haunt every reader who cares about the needs of children.

Earth Bound Christine Feehan 2015-07-07 #1 New York Times bestselling author Christine Feehan returns to the mysterious coastal town of Sea Haven where a woman is stalked by her inescapable past in the fourth novel in the *Sisters of the Heart* series. On the shores of Sea Haven, six women touched by great loss have come together in a

sisterhood strengthened by the elements—a bond each will need as new love and danger enter their lives... After escaping from a cult, Lexi found refuge with her sisters on the farm that more than sustained her body—it nurtured her soul as well. But she never forgot the terror she left behind or the always present fear that the cult would find her again, and claim her. Then her nightmare came true. Lexi was discovered and threatened—only to be suddenly saved by a stranger. He is Gavriil Prakenskii, and he's awestruck by the woman he's rescued. She is destined for him. He can feel it in his soul. But how can Lexi find happiness with a man steeped in secrets and shadows, one intimately acquainted with violence, and whose very love could be the death of them?

Shattered Bonds Dorothy Roberts 2002-12-25 *Shattered Bonds* is a stirring account of a worsening American social crisis--the disproportionate representation of black children in the U.S. foster care system and its effects on black

communities and the country as a whole. Tying the origins and impact of this disparity to racial injustice, Dorothy Roberts contends that child-welfare policy reflects a political choice to address startling rates of black child poverty by punishing parents instead of tackling poverty's societal roots. Using conversations with mothers battling the Chicago child-welfare system for custody of their children, along with national data, Roberts levels a powerful indictment of racial disparities in foster care and tells a moving story of the women and children who earn our respect in their fight to keep their families intact.

China's Hidden Children Kay Ann Johnson 2016-03-21 In the thirty-five years since China instituted its One-Child Policy, 120,000 children—mostly girls—have left China through international adoption, including 85,000 to the United States. It's generally assumed that this diaspora is the result of China's approach to population control, but there is also the underlying belief that

the majority of adoptees are daughters because the One-Child Policy often collides with the traditional preference for a son. While there is some truth to this, it does not tell the full story—a story with deep personal resonance to Kay Ann Johnson, a China scholar and mother to an adopted Chinese daughter. Johnson spent years talking with the Chinese parents driven to relinquish their daughters during the brutal birth-planning campaigns of the 1990s and early 2000s, and, with China's Hidden Children, she paints a startlingly different picture. The decision to give up a daughter, she shows, is not a facile one, but one almost always fraught with grief and dictated by fear. Were it not for the constant threat of punishment for breaching the country's stringent birth-planning policies, most Chinese parents would have raised their daughters despite the cultural preference for sons. With clear understanding and compassion for the families, Johnson describes their desperate

efforts to conceal the birth of second or third daughters from the authorities. As the Chinese government cracked down on those caught concealing an out-of-plan child, strategies for surrendering children changed—from arranging adoptions or sending them to live with rural family to secret placement at carefully chosen doorsteps and, finally, abandonment in public places. In the twenty-first century, China's so-called abandoned children have increasingly become "stolen" children, as declining fertility rates have left the dwindling number of children available for adoption more vulnerable to child trafficking. In addition, government seizures of locally—but illegally—adopted children and children hidden within their birth families mean that even legal adopters have unknowingly adopted children taken from parents and sent to orphanages. The image of the "unwanted daughter" remains commonplace in Western conceptions of China. With China's Hidden Children,

Johnson reveals the complex web of love, secrecy, and pain woven in the coerced decision to give one's child up for adoption and the profound negative impact China's birth-planning campaigns have on Chinese families.

My Team Larry Dierker

2006-07-11 Mantle or Mays? A-Rod or Jeter? Biggio or Morgan? Clemens, Maddux, and Randy Johnson -- or Pedro, Palmer, and Carlton? These are questions baseball fans can spend endless hours debating. Former All-Star pitcher and National League Manager of the Year Larry Dierker has his own opinions, and he shares them in My Team, his fascinating discussion of the greatest players he has seen in his four decades in the major leagues. Dierker selects twenty-five players for My Team and another twenty-five for the opposition, the Underdogs, or "Dogs." There are two players at each position, five starting pitchers, and four relievers. (When your starters are the likes of Roger Clemens, Greg Maddux, Bob Gibson, Tom

Seaver, Nolan Ryan, and Juan Marichal, you don't worry about bullpen depth.) All are players that Dierker has played with or against or watched in his years as player, coach, manager, and commentator. Each athlete must have played at least ten years in the major leagues to qualify, and players are judged on their ten best seasons. Leadership skills and personality -- critical components of team chemistry -- are highly valued. So how is it possible to select two teams composed of outstanding ballplayers from the past forty years and not have room for Sandy Koufax, Reggie Jackson, Carl Yastrzemski, or Cal Ripken Jr.? Dierker explains his choices, analyzing each position carefully, always putting the team ahead of the individual player. He provides statistics to back up his selections, and often relates personal anecdotes about the players. (From his first All-Star Game in 1969, Dierker offers a wonderful anecdote about Hank Aaron, by then an All-Star veteran.) My Team may start

more debates than it settles, but Dierker's insights, and his passion for the game, will enlighten and fascinate true baseball fans.

Adoptionland Janine Myung Ja
2014-07-21 Ever wondered what it's like to be adopted? This anthology begins with personal accounts and then shifts to a bird's eye view on adoption from domestic, intercountry and transracial adoptees who are now adoptee rights activists. Along with adopted people, this collection also includes the voices of mothers and a father from the Baby Scoop Era, a modern-day mother who almost lost her child to adoption, and ends with the experience of an adoption investigator from Against Child Trafficking. These stories are usually abandoned by the very industry that professes to work for the "best interest of children," "child protection," and for families. However, according to adopted people who were scattered across nations as children, these represent typical human rights issues that have been ignored

for too long. For many years, adopted people have just dealt with such matters alone, not knowing that all of us—as a community—have a great deal in common.

perfect for readers of Angie Thomas and Tommy Orange. Eighteen-year-old Daunis Fontaine has never quite fit in, both in her hometown and on the nearby Ojibwe reservation. She dreams of a fresh start at college, but when family tragedy strikes, Daunis puts her future on hold to look after her fragile mother. The only bright spot is meeting Jamie, the charming new recruit on her brother Levi's hockey team. Yet even as Daunis falls for Jamie, she senses the dashing hockey star is hiding something. Everything comes to light when Daunis witnesses a shocking murder, thrusting her into an FBI investigation of a lethal new drug. Reluctantly, Daunis agrees to go undercover, drawing on her knowledge of chemistry and Ojibwe traditional medicine to track down the source. But the search for truth is more complicated than Daunis imagined, exposing secrets and old scars. At the same time, she grows concerned with an investigation that seems more focused on punishing the

offenders than protecting the victims. Now, as the deceptions—and deaths—keep growing, Daunis must learn what it means to be a strong Anishinaabe kwe (Ojibwe woman) and how far she'll go for her community, even if it tears apart the only world she's ever known.

Selling Transracial Adoption

Elizabeth Raleigh 2017-12-15

While focused on serving children and families, the adoption industry must also generate sufficient revenue to cover an agency's operating costs. With its fee-for-service model, Elizabeth Raleigh asks, How does private adoption operate as a marketplace? Her eye-opening book, *Selling Transracial Adoption*, provides a fine-grained analysis of the business decisions in the adoption industry and what it teaches us about notions of kinship and race. Adoption providers, Raleigh declares, are often tasked with pitching the idea of transracial adoption to their mostly white clientele. But not all children are equally "desirable," and transracial

adoption—a market calculation—is hardly colorblind. *Selling Transracial Adoption* explicitly focuses on adoption providers and employs candid interviews with adoption workers, social workers, attorneys, and counselors, as well as observations from adoption conferences and information sessions, to illustrate how agencies institute a racial hierarchy—especially when the supply of young and healthy infants is on the decline. Ultimately, Raleigh discovers that the racialized practices in private adoption serve as a powerful reflection of race in America.

Family Matters E. Wayne Carp 1998 *Family Matters* cuts through the sealed records, changing policies, and conflicting agendas that have obscured the history of adoption in America and reveals how the practice and attitudes about it have evolved from colonial days to the present.

Mamalita Jessica O'Dwyer 2010-10-19 This gripping

memoir details an ordinary American woman's quest to adopt a baby girl from Guatemala in the face of overwhelming adversity. At only 32 years old, Jessica O'Dwyer experiences early menopause, seemingly ending her chances of becoming a mother. Years later, married but childless, she comes across a photo of a two-month-old girl on a Guatemalan adoption website — and feels an instant connection. From the get-go, Jessica and her husband face numerous and maddening obstacles. After a year of tireless efforts, Jessica finds herself abandoned by her adoption agency; undaunted, she quits her job and moves to Antigua so she can bring her little girl to live with her and wrap up the adoption, no matter what the cost. Eventually, after months of disappointments, she finesses her way through the thorny adoption process and is finally able to bring her new daughter home. Mamalita is as much a story about the bond between a mother and child as it is about

the lengths adoptive parents go to in their quest to bring their children home. At turns harrowing, heartbreaking, and inspiring, this is a classic story of the triumph of a mother's love over almost insurmountable odds.

"Well-written and accessible . . . showcases the wide-ranging scholarship underway on the history of adoption." ---Adoptive Families

"[T]his volume is a significant contribution to the literature and can serve as a catalyst for further research." --

-Social Service Review Adoption affects an estimated 60 percent of Americans, but despite its pervasiveness, this social institution has been little examined and poorly understood. Adoption in

America gathers essays on the history of adoptions and orphanages in the United States. Offering provocative interpretations of a variety of issues, including antebellum adoption and orphanages; changing conceptions of adoption in late-nineteenth-century novels; Progressive Era reform and adoptive mothers; the politics of "matching" adoptive parents with children; the radical effect of World War II on adoption practices; religion and the reform of adoption; and the construction of birth mother and adoptee identities, the essays in *Adoption in America* will be debated for many years to come.

Through Adopted Eyes Elena S Hall 2018-10-26 *Through Adopted Eyes* explores the world of adoption from the viewpoint of adoptees. Russian adoptee Elena S. Hall shares her own story and thoughts on the subject of adoption in addition to interviews from other adoptees of different ages, heritages, and perspectives. Whether you are an adoptive parent, curious

about adoption, or an adoptee yourself, this unique collection of memoirs provides real insight into lives directly impacted by adoption.

Trashlands Alison Stine 2021-10-26 "This thought-provoking apocalypse noir fires on all cylinders." –Publishers Weekly starred review From the author of *Road Out of Winter*, winner of the 2021 Philip K. Dick Award, comes a resonant, visionary novel about the power of art and the sacrifices we are willing to make for the ones we love A few generations from now, the coastlines of the continent have been redrawn by floods and tides. Global powers have agreed to not produce any new plastics, and what is left has become valuable: garbage is currency. In the region-wide junkyard that Appalachia has become, Coral is a "plucker," pulling plastic from the rivers and woods. She's stuck in *Trashlands*, a dump named for the strip club at its edge, where the local women dance for an endless loop of strangers and the club's violent owner rules as unofficial

mayor. Amid the polluted landscape, Coral works desperately to save up enough to rescue her child from the recycling factories, where he is forced to work. In her stolen free hours, she does something that seems impossible in this place: Coral makes art. When a reporter from a struggling city on the coast arrives in Trashlands, Coral is presented with an opportunity to change her life. But is it possible to choose a future for herself? Told in shifting perspectives, Trashlands is a beautifully drawn and wildly imaginative tale of a parent's journey, a story of community and humanity in a changed world. "A harrowing tale that is a natural extension of our current climate crisis.... Highly recommended." -Booklist, starred review

Identical Strangers Elyse Schein 2007-10-02 As seen in the hit documentary Three Identical Strangers • "[A] poignant memoir of twin sisters who were split up as infants, became part of a secret

scientific study, then found each other as adults."—Reader's Digest (Editors' Choice) WINNER OF A BOOKS FOR A BETTER LIFE AWARD Elyse Schein had always known she was adopted, but it wasn't until her mid-thirties while living in Paris that she searched for her biological mother. What she found instead was shocking: She had an identical twin sister. What's more, after being separated as infants, she and her sister had been, for a time, part of a secret study on separated twins. Paula Bernstein, a married writer and mother living in New York, also knew she was adopted, but had no inclination to find her birth mother. When she answered a call from her adoption agency one spring afternoon, Paula's life suddenly divided into two starkly different periods: the time before and the time after she learned the truth. As they reunite, taking their tentative first steps from strangers to sisters, Paula and Elyse are left with haunting questions surrounding their origins and

their separation. And when they investigate their birth mother's past, the sisters move closer toward solving the puzzle of their lives. Praise for *Identical Strangers* "Remarkable . . . powerful . . . [an] extraordinary experience . . . The reader is left to marvel at the reworking of individual identities required by one discovery and then another."—*Boston Sunday Globe* "Absorbing."—*Wired* "[A] fascinating memoir . . . Weaving studies about twin science into their personal reflections . . . Schein and Bernstein provide an intelligent exploration of how identity intersects with bloodlines. A must-read for anyone interested in what it means to be a family."—*Bust* "*Identical Strangers* has all the heart-stopping drama you'd expect. But it has so much more—the authors' emotional honesty and clear-eyed insights turn this unique story into a universal one. As you accompany the twins on their search for the truth of their birth, you witness another kind of birth—the germination and flowering of

sisterly love."—Deborah Tannen, #1 *New York Times* bestselling author of *You Just Don't Understand* "A transfixing memoir."—*Publishers Weekly*
The Children Money Can Buy
Anne Moody 2018-01-26 Foster care and adoption can be rewarding ways to become parents. But the system itself seems almost rigged for failure, confusion, fraud, and disappointment. This book takes readers on an insider's tour of the system, its successes and failures, and the joys adoption can bring through the real stories of those involved on all sides.
Kisses from Katie Katie Davis 2013-01-18 Katie was a normal American teenager when she decided to explore the possibility of voluntary work overseas. She temporarily 'quit life' to serve in Uganda for a year before going to college. However, returning to 'normal' became impossible and Katie 'quit life' - college, designer clothes, her little yellow convertible and her boyfriend - for good, remaining in Uganda. In the early days she felt as

though she were trying to empty the ocean with an eyedropper, but has learnt that she is not called to change the world in itself, but to change the world for one person at a time. By the age of 22 Katie had adopted 14 girls and founded Amizima Ministries which currently has sponsors for over 600 children and a feeding program for Uganda's poorest citizens - so it is no wonder she feels Jesus wrecked her life, shattered it to pieces, and put it back together making it more beautiful than it was before.

We Are Family Susan Golombok
2020-10-06 From one of the world's leading experts, this absorbing narrative history of the changing structure of modern families shows how children can flourish in any kind of loving home. The past few decades have seen extraordinary change in the idea of a family. The unit once understood to include two straight parents and their biological children has expanded vastly—same-sex marriage, adoption, IVF, sperm

donation, and other forces have enabled new forms to take shape. This has resulted in enormous upheaval and controversy, but as Susan Golombok shows in this compelling and important book, it has also meant the health and happiness of parents and children alike. Golombok's stories, drawn from decades of research, are compelling and dramatic: family secrets kept for years and then inadvertently revealed; children reunited with their biological parents or half siblings they never knew existed; and painful legal battles to determine who is worthy of parenting their own children. Golombok explores the novel moral questions that changing families create, and ultimately makes a powerful argument that the bond between family members, rather than any biological or cultural factor, is what ensures a safe and happy future. We Are Family is unique, authoritative, and deeply humane. It makes an important case for all families—old, new, and yet unimagined.
