Androgyny and organizations among Evangelicals have spent a substantial amount of time and money in an effort to address what they believe to be the "Orphan Crisis" of the United States. Yet, despite an extensive commitment of resources, there is no reliable evidence that these efforts have been successful. Adoptions are declining across the board, and both fostering parents and foster-adoption remain scarce. Why have evangelical mobilization efforts been so ineffective? To answer this question, Samuel W. Perry draws on interviews with over 100 movement leaders and grassroots families, as well as national data on adoption and fostering, to show that the problem goes beyond organ care. Perry argues that evangelical social engagement is fundamentally self-limiting and difficult to sustain because their social commitments lock them into an approach that does not work on a practical level. Growing God's family ultimately retreats from this peculiar reality within American evangelicalism by exposing just how many aspects of the evangelical subculture may stimulate action to address social problems, even while these same subcultural characteristics undermine their own strategic effectiveness. It provides the most recent analysis of salient elements within the evangelical subculture and how that subculture shapes the engagement strategies of evangelicals on a group.

The Fabric of Theology Richard Lints 1993 This is a print on demand book and is therefore not returnable. After showing that today's evangelicals have not fared well in the fast-changing world of American politics, Lints argues that in order to regain spiritual vitality, evangelicals must return to the basic decisions of faith and live theologically. This book highlights several cultural and theological impasse to doing theology from an evangelical perspective, interacts with postmodernism as a theological method, and provides a provocative new model for the construction of a truly "transformative" evangelical theology as the modern age.

Mamita Jessica Dwyer 2018-10-18 This gripping memoir details an ordinary American woman's quest to adopt a baby girl from Guatemala in the face of overwhelming adversity. At only 32 years old, Jessica Dwyer experiences early menopause, seemingly ending her chances of becoming a mother. Years later, married but childless, she comes across a photo of a two-month-old girl on a Guatemalan adoption website—and feels an instant connection. From the get-go, Jessica and her husband face numerous and daunting obstacles. After a year of fruitless efforts, Jessica runs herself abnormally away from her adoption agency, Redeemers, quits her job and moves to Antigua so she can bring her little girl to live with her and wrap up the adoption, no matter what the cost. Eventually, after months of disappointment, she finally wins her way through the tortuous adoption process and is finally able to bring her new daughter home. Mamita is as much a story about the bond between a mother and child as it is about the lengths adoptive parents go to in their quest to bring their children home. At turns humorous, heartbreaking, and inspiring, this is a classic story of the triumph of a mother's love over almost insurmountable odds.
