Fatty Legs Christy Jordan-Fenton 2010-09-01 Eight-year-old Margaret Pokiak has set her sights on learning to read, even though it means leaving her village in the high Arctic. Faced with unceasing pressure, her father finally agrees to let her make the five-day journey to attend school, but he warns Margaret of the terrors of residential schools. At school Margaret soon encounters the Raven, a black-cloaked nun with a hooked nose and bony fingers that resemble claws. She immediately dislikes the strong-willed young Margaret. Intending to humiliate her, the heartless Raven gives gray stockings to all the girls — all except Margaret, who gets red ones. In an instant Margaret is the laughingstock of the entire school. In the face of such cruelty, Margaret refuses to be intimidated and bravely gets rid of the stockings. Although a sympathetic nun stands up for Margaret, in the end it is this brave young girl who gives the Raven a lesson in the power of human dignity. Complemented by archival photos from Margaret Pokiak-Fenton’s collection and striking artworks from Liz Amini-Holmes, this inspiring first-person account of a plucky girl’s determination to confront her tormentor will linger with young readers.

In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten “relocation centers,” hundreds or thousands of miles from home, where they would be held for years under armed guard. THEY CALLED US ENEMY is Takei’s firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother’s hard choices, his father’s tested faith in democracy, and the way those experiences planted the seeds for his astonishing future. Taming the Star Runner S.E. Hinton 2014-01-15 The classic YA story of a boy, a horse, and pursuit of a dream. TAMING THE STAR RUNNER written by celebrated novelist S.E. Hinton, now available as an eBook for the first time. With an absent mother and a domineering step-father, Travis uses his tough-guy exterior to hide his true passion: writing. After a violent confrontation with his step-father, Travis is sent to live on his uncle’s horse ranch - exile to a born-and-bred city kid. Angry and yearning for a connection, Travis befriends Casey, the horse-riding
instructor at the ranch, and the un-tamable horse in her stable: the Star Runner. When a friend from the city visits with stories of other kids from the neighborhood facing jail time, Travis is more determined than ever that he needs to escape the life of juvenile delinquency he seems destined for. When the offer of a book deal comes through, Travis is hopeful that this is his chance to escape, if only his step-father will stop standing in the way of his dreams. From the author of THE OUTSIDERS, S.E. Hinton once again writes about what it feels like to be unaccepted, and the power in being true to yourself. “Hinton continues to grow more reflective in her books, but her great understanding, not of what teenagers are but of what they can hope to be, is undiminished.”—Kirkus Reviews

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom bound to change your thinking about parenting and its conventions” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on time-worn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids is great for the brain. These experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

Inwardness Jonardon Ganeri 2021-08-10 Where do we look when we look inward? In what sort of space does our inner life take place? Augustine said that to turn inward is to find oneself in a library of memories, while the Indian Buddhist tradition holds that we are self-illuminating beings casting light onto a world of shadows. And a disquieting set of dissenters has claimed that inwardness is merely an illusion—or, worse, a deceit. Jonardon Ganeri explores philosophical reflections from many of the world’s intellectual cultures, ancient and modern, on how each of us inhabits an inner world. In brief and lively chapters, he ranges across an unexpected assortment of diverse thinkers: Buddhist, Hindu, Islamic, Chinese, and Western philosophy and literature from the Upanisads, Socrates, and Avicenna to Borges, Simone Weil, and RashĂłmon. Ganeri examines the various metaphors that have been employed to explain interiority—shadows and mirrors, masks and disguises, rooms and enclosed spaces—as well as the interfaces and boundaries between inner and outer worlds. Written in a cosmopolitan spirit, this
book is a thought-provoking consideration of the value—or peril—of turning one’s gaze inward for all readers who have sought to map the geography of the mind.

Where the Crawdads Sing (Movie Tie-In) Delia Owens 2022-06-28 NOW A MAJOR MOTION PICTURE The #1 New York Times bestselling worldwide sensation with more than 12 million copies sold, “a painfully beautiful first novel that is at once a murder mystery, a coming-of-age narrative and a celebration of nature” (The New York Times Book Review). For years, rumors of the “Marsh Girl” have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life—until the unthinkable happens. Where the Crawdads Sing is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Delia Owens reminds us that we are forever shaped by the children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps.
