

The Portable Hannah Arendt

Thank you totally much for downloading **The Portable Hannah Arendt**. Most likely you have knowledge that, people have see numerous period for their favorite books behind this The Portable Hannah Arendt, but end going on in harmful downloads.

Rather than enjoying a fine book bearing in mind a mug of coffee in the afternoon, on the other hand they juggled bearing in mind some harmful virus inside their computer. **The Portable Hannah Arendt** is friendly in our digital library an online admission to it is set as public as a result you can download it instantly. Our digital library saves in combination countries, allowing you to acquire the most less latency epoch to download any of our books later this one. Merely said, the The Portable Hannah Arendt is universally compatible in the manner of any devices to read.

Hannah Arendt Margaret Canovan 1994-06-24 A reinterpretation of the political thought of Hannah Arendt, strengthening Arendt's claim to be regarded as one of the most significant political thinkers of the twentieth century.

The Jewish Writings Hannah Arendt 2009-03-12 Although Hannah Arendt is not primarily known as a Jewish thinker, she probably wrote more about Jewish issues than any other topic. When she was in her mid-twenties and still living in Germany, Arendt wrote about the history of German Jews as a people living in a land that was not their own. In 1933, at the age of twenty-six, she fled to France, where she helped to arrange for German and eastern European Jewish youth to quit Europe and become pioneers in Palestine. During her years in Paris, Arendt's principal concern was with the transformation of antisemitism from a social prejudice to a political policy, which would culminate in the Nazi "final solution" to the Jewish question—the physical destruction of European Jewry. After France fell at the beginning of World War II, Arendt escaped from an internment camp in Gurs and made her way to the United States. Almost immediately upon her arrival in New York she wrote one article after another calling for a Jewish army to fight the Nazis, and for a new approach to Jewish political thinking. After the war, her attention was focused on the creation of a Jewish homeland in a binational (Arab-Jewish) state of Israel. Although Arendt's thoughts eventually turned more to the meaning of human freedom and its inseparability from political life, her original conception of political freedom cannot be fully grasped apart from her experience as a Jew. In 1961 she attended Adolf Eichmann's trial in Jerusalem. Her report on that trial, *Eichmann in Jerusalem*, provoked an immense controversy, which culminated in her virtual excommunication from the worldwide Jewish community. Today that controversy is the subject of serious re-evaluation, especially among younger people in America, Europe, and Israel. The publication of *The Jewish Writings*—much of which has never appeared before—traces Arendt's life and thought as a Jew. It will put an end to any doubts about the centrality, from beginning to end, of Arendt's Jewish experience.

The Portable Machiavelli Niccolo Machiavelli 1979-01-25 In the four and a half centuries since Machiavelli's death, no single and unanimously accepted interpretation of his ideas has succeeded in imposing itself upon the lively debate over the meaning of his works. Yet there has never been any doubt about the fundamental importance of Machiavelli's contribution to Western political theory. *The Portable Machiavelli* brings together the complete texts of *The Prince*, *Belfagor*, and *Castruccio Castracani*, newly translated by Peter Bondanella and Mark Musa especially for this volume. In addition, the editors include an abridged

version of *The Discourses*; a play, *The Mandrake Root*, in its entirety; seven private letters; and selections from *The Art of War* and *The History of Florence*. *Responsibility and Judgment* Hannah Arendt 2009-04-02 Each of the books that Hannah Arendt published in her lifetime was unique, and to this day each continues to provoke fresh thought and interpretations. This was never more true than for *Eichmann in Jerusalem*, her account of the trial of Adolf Eichmann, where she first used the phrase "the banality of evil." Her consternation over how a man who was neither a monster nor a demon could nevertheless be an agent of the most extreme evil evoked derision, outrage, and misunderstanding. The firestorm of controversy prompted Arendt to readdress fundamental questions and concerns about the nature of evil and the making of moral choices. *Responsibility and Judgment* gathers together unpublished writings from the last decade of Arendt's life, as she struggled to explicate the meaning of *Eichmann in Jerusalem*. At the heart of this book is a profound ethical investigation, "Some Questions of Moral Philosophy"; in it Arendt confronts the inadequacy of traditional moral "truths" as standards to judge what we are capable of doing, and she examines anew our ability to distinguish good from evil and right from wrong. We see how Arendt comes to understand that alongside the radical evil she had addressed in earlier analyses of totalitarianism, there exists a more pernicious evil, independent of political ideology, whose execution is limitless when the perpetrator feels no remorse and can forget his acts as soon as they are committed. *Responsibility and Judgment* is an essential work for understanding Arendt's conception of morality; it is also an indispensable investigation into some of the most troubling and important issues of our time.

Globalization and Citizenship Hans Schattle 2012-02-16 This lively and invigorating book explores the complex relationship between globalization and citizenship. From Cairo to Beijing, campaigns for civil rights and democracy around the world are intensifying and speeding up in the digital media age, and public recognition of global interdependence continues to rise. At the same time, many national governments are tightening border controls and further limiting access to citizenship in a climate of high public anxiety and economic uncertainty. Although globalization continues to open up many new opportunities for citizens to enter the international arena and make their voices heard, as Schattle shows, the institution of national citizenship remains highly resilient. **They Would Never Hurt a Fly** Slavenka Drakulic 2005-07-26 "Who were they? Ordinary people like you or me—or monsters?" asks internationally acclaimed author Slavenka Drakulic as she sets out to understand the people behind the horrific crimes committed during the war that tore apart Yugoslavia in the 1990s. Drawing on

firsthand observations of the trials, as well as on other sources, Drakulic portrays some of the individuals accused of murder, rape, torture, ordering executions, and more during one of the most brutal conflicts in Europe in the twentieth century, including former Serbian president Slobodan Milošević; Radislav Krstic, the first to be sentenced for genocide; Biljana Plavšić, the only woman accused of war crimes; and Ratko Mladic, now in hiding. With clarity and emotion, Drakulic paints a wrenching portrait of a country needlessly torn apart.

Eichmann in Jerusalem Hannah Arendt 2006-09-22 The controversial journalistic analysis of the mentality that fostered the Holocaust, from the author of *The Origins of Totalitarianism* Sparking a flurry of heated debate, Hannah Arendt's authoritative and stunning report on the trial of German Nazi leader Adolf Eichmann first appeared as a series of articles in *The New Yorker* in 1963. This revised edition includes material that came to light after the trial, as well as Arendt's postscript directly addressing the controversy that arose over her account. A major journalistic triumph by an intellectual of singular influence, *Eichmann in Jerusalem* is as shocking as it is informative—an unflinching look at one of the most unsettling (and unsettled) issues of the twentieth century.

Caesar and the Fading of the Roman World Peter Baehr 2017-11-30 For many centuries, Julius Caesar was a name that evoked strong feelings among educated people. Some of these responses were complimentary, but others came from the point of view of "political republicanism"—which envisaged Caesar as a historical symbol for some of the most dangerous tendencies a polity could experience. Caesar represented everything that republicans detested—corruption, demagoguery, usurpation—and as such, provided an antimodel against which genuine political virtue could be measured. *Caesar and the Fading of the Roman World* examines the reception of Caesar in republican thought until the late eighteenth century and his transformation in the nineteenth, when he enjoyed a major rehabilitation in the literary culture and historiography of the day. Critical of hereditary monarchy and emphasizing the collective political obligations citizens owed to their city or commonwealth, republican thinkers sought to cultivate institutions and mores best adapted to self-governing liberty. The republican idiom became an integral element in the discourse of the American revolutionaries and constitution builders during the eighteenth century, and of their counterparts in France. In the nineteenth century, Caesar enjoyed a major rehabilitation; from being a pariah, he was elevated in the writings of people like Byron, De Quincey, Mommsen, Froude, and Nietzsche to the greatest statesman of his age. Simultaneously, Caesar's name continued to function as a term of polemic in the emergence of a new debate on what came to be called "Caesarism." While the metamorphosis of Caesar's reputation is studied here as a process in its own right, it is also meant to highlight the increasing enfeeblement of the republican tradition. The transformation of Caesar's image is a sure sign of changes within the wider present-day political culture and evidence of the emergence of new problems and challenges. Drawing on history, political theory, and sociology, *Caesar and the Fading of the Roman World* uses the image of Caesar as a way of interpreting broader political and cultural tendencies. Peter Baehr discusses the significance of living not in a postmodern society, but in a postclassical one in which ideas of political obligation have become increasingly emaciated and in which the theoretical resources for the care of our public world have become correspondingly scarce. This volume is an important study that will be of value to sociologists, political theorists, and historians.

The Cambridge Companion to Hannah Arendt Dana Villa 2000-11-30 A distinguished

team of contributors examines the primary themes of Arendt's multi-faceted thought.

The Public Realm and the Public Self Shiraz Dossa 2006-01-01 From the time she set the intellectual world on fire with her reflections on Eichmann (1963), Hannah Arendt has been seen, essentially, as a literary commentator who had interesting things to say about political and cultural matters. In this critical study, Shiraz Dossa argues that Arendt is a political theorist in the sense in which Aristotle is a theorist, and that the key to her political theory lies in the twin notions of the "public realm" and the "public self". In this work, the author explains how Arendt's unconventional and controversial views make sense on the terrain of her political theory. He shows that her judgement on thinkers, actors, and events as diverse as Plato, Marx, Machiavelli, Freud, Conrad, Hobbes, Hitler, the Holocaust, the French Revolution, and European colonialism flow directly from her political theory. Tracing the origins of this theory to Homer and Periclean Athens, Dossa underlines Arendt's unique contribution to reinventing the idea and the ideal of citizenship, reminding us that the public realm is the locus of friendship, community, identity, and in a certain sense, humanity. Arendt believes that no one who prefers his or her private interest to public affairs in the old sense can claim to be fully human or truly excellent.

Thinking in Dark Times Roger Berkowitz 2010 Hannah Arendt is one of the most important political theorists of the twentieth century. In her works, she grappled with the dark events of that century, probing the nature of power, authority, and evil, and seeking to confront totalitarian horrors on their own terms. This book focuses on how, against the professionalized discourses of theory, Arendt insists on the greater political importance of the ordinary activity of thinking. Indeed, she argues that the activity of thinking is the only reliable protection against the horrors that buffeted the last century. Its essays explore and enact that activity, which Arendt calls the habit of erecting obstacles to oversimplifications, compromises, and conventions. Most of the essays were written for a conference at Bard College celebrating the 100th anniversary of Arendt's birth. Arendt left her personal library and literary effects to Bard, and she is buried in the Bard College cemetery. Material from the Bard archive—such as a postcard to Arendt from Walter Benjamin or her annotation in her copy of Machiavelli's *The Prince*—and images from her life are interspersed with the essays in this volume. The volume will offer provocations and insights to Arendt scholars, students discovering Arendt's work, and general readers attracted to Arendt's vision of the importance of thinking in our own dark times.

Hannah Arendt Amy Allen 2008 Hannah Arendt was one of the most original and influential social and political theorists of the 20th century. This volume brings together important English-language essays on Arendt's contributions to social and political philosophy.

Hannah Arendt Elisabeth Young-Bruehl 2004-01-01 This highly acclaimed, prize-winning biography of one of the foremost political philosophers of the twentieth century is here reissued in a trade paperback edition for a new generation of readers. In a new preface the author offers an account of writings by and about Arendt that have appeared since the book's 1982 publication, providing a reassessment of her subject's life and achievement. Praise for the earlier edition: "Both a personal and an intellectual biography . . . It represents biography at its best."—Peter Berger, front page, *The New York Times Book Review* "A story of surprising drama At last, we can see Arendt whole."—Jim Miller, *Newsweek* "Indispensable to anyone interested in the life, the thought, or

. . . the example of Hannah Arendt.”—Mark Feeney, Boston Globe “An adventure story that moves from pre-Nazi Germany to fame in the United States, and . . . a study of the influences that shaped a sharp political awareness.”—Richmond (Va.) Times-Dispatch Cover drawing by David Schorr

Love and Saint Augustine Hannah Arendt 2014-12-10 The brilliant thinker who taught us about the banality of evil explores another brilliant thinker and his concept of love. Hannah Arendt, the author of *The Origins of Totalitarianism* and *The Human Condition*, began her scholarly career with an exploration of Saint Augustine’s concept of *caritas*, or neighborly love, written under the direction of Karl Jaspers and the influence of Martin Heidegger. After her German academic life came to a halt in 1933, Arendt carried her dissertation into exile in France, and years later took the same battered and stained copy to New York. During the late 1950s and early 1960s, as she was completing or reworking her most influential studies of political life, Arendt was simultaneously annotating and revising her dissertation on Augustine, amplifying its argument with terms and concepts she was using in her political works of the same period. The dissertation became a bridge over which Arendt traveled back and forth between 1929 Heidelberg and 1960s New York, carrying with her Augustine’s question about the possibility of social life in an age of rapid political and moral change. In *Love and Saint Augustine*, political science professor Joanna Vecchiarelli Scott and philosophy professor Judith Chelius Stark make this important early work accessible for the first time. Here is a completely corrected and revised English translation that incorporates Arendt’s own substantial revisions and provides additional notes based on letters, contracts, and other documents as well as the recollections of Arendt’s friends and colleagues during her later years. “Both the dissertation and the accompanying essay are accessible to informed lay readers. Scott and Stark’s conclusions about the cohesive evolution of Arendt’s thought are compelling but leave room for continuing discussion.”—Library Journal “A revelation.”—Kirkus Reviews

The Anthem Companion to Hannah Arendt Peter Baehr 2017-01-02 *The Anthem Companion to Hannah Arendt* offers a unique collection of essays on one of the twentieth century’s greatest thinkers. The companion encompasses Arendt’s most salient arguments and major works – *The Origins of Totalitarianism*, *The Human Condition*, *Eichmann in Jerusalem*, *On Revolution* and *The Life of the Mind*. The volume also examines Arendt’s intellectual relationships with Max Weber, Karl Mannheim and other key social scientists. Although written principally for students new to Arendt’s work, *The Anthem Companion to Hannah Arendt* also engages the most avid Arendt scholar.

Hannah Arendt and the Negro Question Kathryn T. Gines 2014-03-28 A systemic analysis of anti-Black racism in the work of political philosopher Hannah Arendt. While acknowledging Hannah Arendt’s keen philosophical and political insights, Kathryn T. Gines claims that there are some problematic assertions and oversights regarding Arendt’s treatment of the “Negro question.” Gines focuses on Arendt’s reaction to the desegregation of Little Rock schools, to laws making mixed marriages illegal, and to the growing civil rights movement in the south. Reading them alongside Arendt’s writings on revolution, the human condition, violence, and responses to the Eichmann war crimes trial, Gines provides a systematic analysis of anti-black racism in Arendt’s work. “Hannah Arendt: political progressive and committed anti-racist theorist? Think again. As Kathryn Gines makes inescapably clear, for Arendt the “Negro” was the problem, whether in the form of savage “primitives” inseparable from Heart-of-Darkness Africa, social climbers trying to get their kids into white schools, or unqualified black university students

dragging down academic standards. [Gines’s] boldly revisionist text reassesses the German thinker’s categories and frameworks.” —Charles W. Mills, Northwestern University “Takes on a major thinker, Hannah Arendt, on an important issue—race and racism—and challenges her on specific points while raising philosophical and methodological shortcomings.” —Richard King, Nottingham University “Gines carefully moves through Arendt scholarship and Arendt’s texts to argue persuasively that explicit discussions of the “Negro question” point up the limitations of her thinking.” —Kelly Oliver, Vanderbilt University “Gines has delivered an intellectually challenging book, that presents one of the most important figures in Western philosophy of the 2nd half of the 20th century in a different and, perhaps, somewhat less favorable perspective.” —Philosophia “Offers a wealth of research that will be valuable to scholars and graduate students interested in how racial bias operates in Arendt’s major works. Gines’s writing style is lucid and to the point, and her engagement with secondary sources is comprehensive.” —Hypatia

Hannah Arendt and the Limits of Total Domination Michal Aharony 2015-03-05 Responding to the increasingly influential role of Hannah Arendt’s political philosophy in recent years, *Hannah Arendt and the Limits of Total Domination: The Holocaust, Plurality, and Resistance*, critically engages with Arendt’s understanding of totalitarianism. According to Arendt, the main goal of totalitarianism was total domination; namely, the virtual eradication of human legality, morality, individuality, and plurality. This attempt, in her view, was most fully realized in the concentration camps, which served as the major “laboratories” for the regime. While Arendt focused on the perpetrators’ logic and drive, Michal Aharony examines the perspectives and experiences of the victims and their ability to resist such an experiment. The first book-length study to juxtapose Arendt’s concept of total domination with actual testimonies of Holocaust survivors, this book calls for methodological pluralism and the integration of the voices and narratives of the actors in the construction of political concepts and theoretical systems. To achieve this, Aharony engages with both well-known and non-canonical intellectuals and writers who survived Auschwitz and Buchenwald concentration camps. Additionally, she analyzes the oral testimonies of survivors who are largely unknown, drawing from interviews conducted in Israel and in the U.S., as well as from videotaped interviews from archives around the world. Revealing various manifestations of unarmed resistance in the camps, this study demonstrates the persistence of morality and free agency even under the most extreme and de-humanizing conditions, while cautiously suggesting that absolute domination is never as absolute as it claims or wishes to be. Scholars of political philosophy, political science, history, and Holocaust studies will find this an original and compelling book.

Hannah Arendt in Jerusalem Steven E. Aschheim 2001-08 “It is impressive to see an edited collection in which such a high intellectual standard is maintained throughout... I learned things from almost every one of these chapters.”—Craig Calhoun, author of *Critical Social Theory*

The Promise of Politics Hannah Arendt 2009-01-16 After the publication of *The Origins of Totalitarianism* in 1951, Hannah Arendt undertook an investigation of Marxism, a subject that she had deliberately left out of her earlier work. Her inquiry into Marx’s philosophy led her to a critical examination of the entire tradition of Western political thought, from its origins in Plato and Aristotle to its culmination and conclusion in Marx. *The Promise of Politics* tells how Arendt came to understand the failure of that tradition to account for human action. From

the time that Socrates was condemned to death by his fellow citizens, Arendt finds that philosophers have followed Plato in constructing political theories at the expense of political experiences, including the pre-philosophic Greek experience of beginning, the Roman experience of founding, and the Christian experience of forgiving. It is a fascinating, subtle, and original story, which bridges Arendt's work from *The Origins of Totalitarianism* to *The Human Condition*, published in 1958. These writings, which deal with the conflict between philosophy and politics, have never before been gathered and published. The final and longer section of *The Promise of Politics*, titled "Introduction into Politics," was written in German and is published here for the first time in English. This remarkable meditation on the modern prejudice against politics asks whether politics has any meaning at all anymore. Although written in the latter half of the 1950s, what Arendt says about the relation of politics to human freedom could hardly have greater relevance for our own time. When politics is considered as a means to an end that lies outside of itself, when force is used to "create" freedom, political principles vanish from the face of the earth. For Arendt, politics has no "end"; instead, it has at times been—and perhaps can be again—the never-ending endeavor of the great plurality of human beings to live together and share the earth in mutually guaranteed freedom. That is the promise of politics.

Between Friends Hannah Arendt 1996 Selections from the correspondence between Hannah Arendt and Mary McCarthy trace the evolution of a unique friendship

Heidegger's Confrontation with Modernity Michael E. Zimmerman 1990-05-22 "Writing in a lively and refreshingly clear American English, Zimmerman provides an uncompromisingly honest and judicious account... of Heidegger's views on technology and his involvement with National Socialism.... One of the most important books on Heidegger in recent years." -- John D. Caputo "... superb..." -- Thomas Sheehan, *The New York Review of Books* "... thorough and complex..." -- Choice "... excellent guide to Heidegger as eco-philosopher." -- *Radical Philosophy* "... engrossing, rich in substance... makes clear Heidegger's importance for the issue of technology, ethics, and politics." -- *Religious Studies Review* The relation between Martin Heidegger's understanding of technology and his affiliation with and conception of National Socialism is the leading idea of this fascinating and revealing book. Zimmerman shows that the key to the relation between Heidegger's philosophy and his politics was his concern with the nature of working and production.

[A Human Condition](#) 2017

The Phenomenology of Man and of the Human Condition Anna-Teresa Tymieniecka 2012-12-06

Hannah Arendt: The Last Interview Hannah Arendt 2013-12-03 Arendt was one of the most important thinkers of her time, famous for her idea of "the banality of evil" which continues to provoke debate. This collection provides new and startling insight into Arendt's thoughts about Watergate and the nature of American politics, about totalitarianism and history, and her own experiences as an émigré. *Hannah Arendt: The Last Interview and Other Conversations* is an extraordinary portrait of one of the twentieth century's boldest and most original thinkers. As well as Arendt's last interview with French journalist Roger Errera, the volume features an important interview from the early 60s with German journalist Gunter Gaus, in which the two discuss Arendt's childhood and her escape from Europe, and a conversation with acclaimed historian of the Nazi period, Joachim Fest, as well as other exchanges. These interviews show Arendt in vigorous intellectual form, taking up the issues of her day with energy and wit. She offers comments on the

nature of American politics, on Watergate and the Pentagon Papers, on Israel; remembers her youth and her early experience of anti-Semitism, and then the swift rise of the Hitler; debates questions of state power and discusses her own processes of thinking and writing. Hers is an intelligence that never rests, that demands always of her interlocutors, and her readers, that they think critically. As she puts it in her last interview, just six months before her death at the age of 69, "there are no dangerous thoughts, for the simple reason that thinking itself is such a dangerous enterprise."

Rahel Varnhagen Hannah Arendt 2022-02-22 A biography of a Jewish woman, a writer who hosted a literary and political salon in late eighteenth- and early nineteenth-century Germany, written by one of the twentieth century's most prominent intellectuals, Hannah Arendt. *Rahel Varnhagen: The Life of a Jewish Woman* was Hannah Arendt's first book, largely completed when she went into exile from Germany in 1933, though not published until the 1950s. It is the biography of a remarkable, complicated, passionate woman, and an important figure in German romanticism. Rahel Varnhagen also bore the burdens of being an unusual woman in a man's world and an assimilated Jew in Germany. She was, Arendt writes, "neither beautiful nor attractive . . . and possessed no talents with which to employ her extraordinary intelligence and passionate originality." Arendt sets out to tell the story of Rahel's life as Rahel might have told it and, in doing so, to reveal the way in which assimilation defined one person's destiny. On her deathbed Rahel is reported to have said, "The thing which all my life seemed to me the greatest shame, which was the misery and misfortune of my life—having been born a Jewess—this I should on no account now wish to have missed." Only because she had remained both a Jew and a pariah, Arendt observes, "did she find a place in the history of European humanity."

Men in Dark Times Hannah Arendt 1968 Collection of essays which present portraits of individuals ranging from Rosa Luxemburg to Pope John XXIII who the author believes have illuminated "dark times"

The Portable Hannah Arendt Hannah Arendt 2000 'Substantial' excerpts from three main works: *The origins of totalitarianism*, *The human condition*, and *Eichmann in Jerusalem* as well as essays and correspondence.

[The Portable Hannah Arendt](#) Hannah Arendt 2003-07-29 A collection of writings by a groundbreaking political thinker, including excerpts from *The Origins of Totalitarianism* and *Eichmann in Jerusalem* She was a Jew born in Germany in the early twentieth century, and she studied with the greatest German minds of her day—Martin Heidegger and Karl Jaspers among them. After the rise of the Nazis, she emigrated to America where she proceeded to write some of the most searching, hard-hitting reflections on the agonizing issues of the time: totalitarianism in both Nazi and Stalinist garb; Zionism and the legacy of the Holocaust; federally mandated school desegregation and civil rights in the United States; and the nature of evil. *The Portable Hannah Arendt* offers substantial excerpts from the three works that ensured her international and enduring stature: *The Origins of Totalitarianism*, *The Human Condition*, and *Eichmann in Jerusalem*. Additionally, this volume includes several other provocative essays, as well as her correspondence with other influential figures.

Arendt Dana Villa 2021-03-25 Hannah Arendt (1906–1975) was a philosopher and political theorist of astonishing range and originality and one of the leading thinkers of the twentieth century. A former student of Martin Heidegger and Karl Jaspers, she fled Nazi Germany to Paris in 1933, and subsequently escaped from Vichy France to New York in 1941. *The Origins of Totalitarianism* (1951) made her

famous. After visiting professorships at Princeton, Berkeley, and the University of Chicago, she took up a permanent position at the New School in 1967. Renowned for *The Human Condition*, *On Revolution*, and *The Life of the Mind*, she is also known for her brilliant but controversial reporting and analysis of Adolf Eichmann's 1961 trial in Jerusalem—an experience that led to her to coin the phrase "the banality of evil." In this outstanding introduction to Arendt's thought *Dana Villa* begins with a helpful overview of Arendt's life and intellectual development, before examining and assessing the following important topics: Arendt's analysis of the nature of political evil and the arguments of *The Origins of Totalitarianism* political freedom and political action and the arguments of *On the Human Condition*, especially Arendt's return to the ancient Greek polis and her critique of modernity modernity and revolution and Arendt's text *On Revolution* responsibility and judgment and her reporting of the Eichmann trial Arendt's view of contemplation and the fundamental faculties of mental life Arendt's rich legacy and influence, including her civic republican understanding of freedom and her influence on the Frankfurt School, communitarianism, and democratic theory. Including a chronology, chapter summaries, and suggestions for further reading, this indispensable guide to Arendt's philosophy will also be useful to those in related disciplines such as politics, sociology, history, and economics.

Hannah Arendt Julia Kristeva 2001-01-01 Kristeva explores the philosophical aspects of Hannah Arendt's work: her understanding of such concepts as language, self, body, political space, and life.

Hannah Arendt, Totalitarianism, and the Social Sciences Peter Baehr 2010-03-11 This book examines the nature of totalitarianism as interpreted by some of the finest minds of the twentieth century. It focuses on Hannah Arendt's claim that totalitarianism was an entirely unprecedented regime and that the social sciences had integrally misconstrued it. A sociologist who is a critical admirer of Arendt, Baehr looks sympathetically at Arendt's objections to social science and shows that her complaints were in many respects justified. Avoiding broad disciplinary endorsements or dismissals, Baehr reconstructs the theoretical and political stakes of Arendt's encounters with prominent social scientists such as David Riesman, Raymond Aron, and Jules Monnerot. In presenting the first systematic appraisal of Arendt's critique of the social sciences, Baehr examines what it means to see an event as unprecedented. Furthermore, he adapts Arendt and Aron's philosophies to shed light on modern Islamist terrorism and to ask whether it should be categorized alongside Stalinism and National Socialism as totalitarian.

Why Arendt Matters Elisabeth Young-Bruehl 2008-10-01 Upon publication of her 'field manual,' *The Origins of Totalitarianism*, in 1951, Hannah Arendt immediately gained recognition as a major political analyst. Over the next twenty-five years, she wrote ten more books and developed a set of ideas that profoundly influenced the way America and Europe addressed the central questions and dilemmas of World War II. In this concise book, Elisabeth Young-Bruehl introduces her mentor's work to twenty-first-century readers. Arendt's ideas, as much today as in her own lifetime, illuminate those issues that perplex us, such as totalitarianism, terrorism, globalization, war, and 'radical evil.' Elisabeth Young-Bruehl, who was Arendt's doctoral student in the early 1970s and who wrote the definitive biography of her mentor in 1982, now revisits Arendt's major works and seminal ideas. Young-Bruehl considers what Arendt's analysis of the totalitarianism of Nazi Germany and the Stalinist Soviet Union can teach us about our own times, and how her revolutionary understanding of political action is connected to

forgiveness and making promises for the future. The author also discusses *The Life of the Mind*, Arendt's unfinished meditation on how to think about thinking. Placed in the context of today's political landscape, Arendt's ideas take on a new immediacy and importance. They require our attention, Young-Bruehl shows, and continue to bring fresh truths to light.

Hannah Arendt/Karl Jaspers Correspondence, 1926-1969 Hannah Arendt 1992 The correspondence between Jaspers and Arendt reveals their thoughts and their experiences of post-World War II events

Lectures on Kant's Political Philosophy Hannah Arendt 2014-12-10 Hannah Arendt's last philosophical work was an intended three-part project entitled *The Life of the Mind*. Unfortunately, Arendt lived to complete only the first two parts, *Thinking and Willing*. Of the third, *Judging*, only the title page, with epigraphs from Cato and Goethe, was found after her death. As the titles suggest, Arendt conceived of her work as roughly parallel to the three *Critiques of Immanuel Kant*. In fact, while she began work on *The Life of the Mind*, Arendt lectured on "Kant's Political Philosophy," using the *Critique of Judgment* as her main text. The present volume brings Arendt's notes for these lectures together with other of her texts on the topic of judging and provides important clues to the likely direction of Arendt's thinking in this area.

Between Past and Future Hannah Arendt 2006-09-26 From the author of *Eichmann in Jerusalem* and *The Origins of Totalitarianism*, "a book to think with through the political impasses and cultural confusions of our day" (*Harper's Magazine*) Hannah Arendt's insightful observations of the modern world, based on a profound knowledge of the past, constitute an impassioned contribution to political philosophy. In *Between Past and Future* Arendt describes the perplexing crises modern society faces as a result of the loss of meaning of the traditional key words of politics: justice, reason, responsibility, virtue, and glory. Through a series of eight exercises, she shows how we can redistill the vital essence of these concepts and use them to regain a frame of reference for the future. To participate in these exercises is to associate, in action, with one of the most original and fruitful minds of the twentieth century.

Hannah Arendt and the Law Marco Goldoni 2012-04-20 This book fills a major gap in the ever-increasing secondary literature on Hannah Arendt's political thought by providing a dedicated and coherent treatment of the many, various and interesting things which Arendt had to say about law. Often obscured by more pressing or more controversial aspects of her work, Arendt nonetheless had interesting insights into Greek and Roman concepts of law, human rights, constitutional design, legislation, sovereignty, international tribunals, judicial review and much more. This book retrieves these aspects of her legal philosophy for the attention of both Arendt scholars and lawyers alike. The book brings together lawyers as well as Arendt scholars drawn from a range of disciplines (philosophy, political science, international relations), who have engaged in an internal debate the dynamism of which is captured in print. Following the editors' introduction, the book is split into four Parts: Part I explores the concept of law in Arendt's thought; Part II explores legal aspects of Arendt's constitutional thought: first locating Arendt in the wider tradition of republican constitutionalism, before turning attention to the role of courts and the role of parliament in her constitutional design. In Part III Arendt's thought on international law is explored from a variety of perspectives, covering international institutions and international criminal law, as well as the theoretical foundations of international law. Part IV debates the foundations, content and meaning of

Arendt's famous and influential claim that the 'right to have rights' is the one true human right.

Essays in Understanding, 1930-1954 Hannah Arendt 2011-04-13 Few thinkers have addressed the political horrors and ethical complexities of the twentieth century with the insight and passionate intellectual integrity of Hannah Arendt. She was irresistibly drawn to the activity of understanding, in an effort to endow historic, political, and cultural events with meaning. *Essays in Understanding* assembles many of Arendt's writings from the 1930s, 1940s, and into the 1950s. Included here are illuminating discussions of St. Augustine, existentialism, Kafka, and Kierkegaard: relatively early examinations of Nazism, responsibility and guilt, and the place of religion in the modern world: and her later investigations into the nature of totalitarianism that Arendt set down after *The Origins of Totalitarianism* was published in 1951. The body of work gathered in this volume gives us a remarkable portrait of Arendt's developments as a thinker—and confirms why her ideas and judgments remain as provocative and seminal today as they were when she first set them down.

Hannah Arendt Phillip Hansen 2013-04-30 The new study provides a fresh and timely reassessment of the political philosophy of Hannah Arendt. While analysing the central themes of Arendt's work, Phillip Hansen also shows that her work makes a significant contribution to contemporary debates. Specifically, Hansen argues that Arendt provides a powerful account of what it means to think and act politically. This account can establish the grounds for a contemporary citizen rationality in the face of threat to a genuine politics. Among other issues, Hansen discusses Arendt's conception of history and historical action; her account of politics and of the distinction between public and private; her analysis of totalitarianism as the most ominous form of 'false' politics; and her treatment of revolution. The

book is a balanced and opportune reappraisal of Arendt's contributions to social and political theory. It will be welcomed by students and scholars in politics, sociology and philosophy.

Hannah Arendt: A Critical Introduction Finn Bowring 2014-07-25 Hannah Arendt is one of the most famous political theorists of the twentieth century, yet in the social sciences her work has rarely been given the attention it deserves. This careful and comprehensive study introduces Arendt to a wider audience. Finn Bowring shows how Arendt's writings have engaged with and influenced prominent figures in the sociological canon, and how her ideas may shed light on some of the most pressing social and political problems of today. He explores her critique of Marx, her relationship to Weber, the influence of her work on Habermas and the parallels and discrepancies between her and Foucault. This is a clearly written and scholarly text which surveys the leading debates over Arendt's work, including discussions of totalitarianism, the public sphere and the nature of political responsibility. This book will bring new perspectives to students and lecturers in sociology and politics.

The Portable Kristeva Julia Kristeva 2002-05-29 As a linguist, Julia Kristeva has pioneered a revolutionary theory of the sign in its relation to social and political emancipation; as a practicing psychoanalyst, she has produced work on the nature of the human subject and sexuality, and on the "new maladies" of today's neurotic. *The Portable Kristeva* is the only fully comprehensive compilation of Kristeva's key writings. The second edition includes added material from Kristeva's most important works of the past five years, including *The Sense and Non-Sense of Revolt*, *Intimate Revolt*, and *Hannah Arendt*. Editor Kelly Oliver has also added new material to the introduction, summarizing Kristeva's latest intellectual endeavors and updating the bibliography.
