Can't Help Myself Meredith Goldstein 2018-04-03 A disarmingly honest memoir about giving advice when you're not sure what you're doing yourself, by the woman behind The Boston Globe's Love Letters column. Every day, Boston Globe advice columnist Meredith Goldstein takes on the relationship problems of thousands of dedicated readers. They look to her for wisdom on all matters of the heart- how to cope with dating fatigue and infidelity, work romances, tired marriages, true love, and true loss. In her column, she has it all figured out, but in her real life she is a lot less certain. Whether it's her own reservations about the traditional path of marriage and family, her difficulty finding someone she truly connects with, or the evolution of her friendships as her friends start to have their own families, Meredith finds herself looking for insight, just like her readers. As she searches for responses to their concerns, she's surprised to discover answers to her own. But it's after her mother is diagnosed with cancer that she truly realizes how special her Love Letters community is, how this column has enriched her life as much, if not more than, it has for its readers. CAN'T HELP MYSELF is the extraordinary (and often hilarious) story of a single woman navigating her mercurial love life, and a moving and poignant portrait of an amazing community of big-hearted, love-seeking allies.

Nothing Extraordinary Amy Lynn Hess 2011-10-22 This short book is a collection of character studies set to the short story form. Hess explores the complexities of relationships between men and women, and the way men and women live with, and without, listening to one another. This collection includes "Nothing Extraordinary," the story of one Mr. Sissue, who just can't seem to get a handle on love or life. It also includes "The One Homeless Woman of Athens, Ohio," a story that explores a winning moment in the life of that one woman. The third story, "Mrs. Gumblebee," serves as a warning for all those who misplace their passion. The last story, but certainly not to be overlooked, is "Evelyn's New Car," a story that vicariously spits in the eye of all fast-talking salesmen who forget to listen to their customers.

Smile Sarah Ruhl 2022-01-20 'Her story is intimate and revealing about what it is to smile and what it means when you can't!' Cynthia Nixon The extraordinary story of one woman's ten-year odyssey that brought her physical, creative, emotional, and spiritual healing. With a play opening on Broadway, and every reason to smile, Sarah Ruhl has just survived a high-risk pregnancy when she discovers the left side of her face is completely paralyzed. She is assured that 90 percent of Bell's palsy patients experience a full recovery, like her own mother. But Sarah is in the unlucky ten percent. And for a woman, wife, mother, and artist working in theatre, the paralysis and the disconnect between the interior and exterior brings significant and specific challenges. So she begins an intense decade-long search for a cure while simultaneously grappling with the reality of her new face - one that, while recognisably her own, is incapable of accurately communicating feelings or intentions. Smile is Ruhl's piercing, witty, lucid chronicle of her journey. She explores the struggle of a body yearning to match its inner landscape, the pain of postpartum depression, the story of a marriage, being a playwright and working mother to three small children, and the desire for a resilient spiritual life in the face of illness. Brimming with insight, humility, warmth and humour, Smile is a triumph: an intimate examination of loss and reconciliation, and above all else, the importance of perseverance and hope in the face of adversity.

The Woman Who Could Not Forget: Iris Chang Before and Beyond The Rape of Nanking Ying-Ying Chang 2012-07-01 The poignant story of the life and death of world-famous author and historian Iris Chang, as told by her mother. Iris Chang's best-selling book The Rape of Nanking forever changed the way we view the Second World War in Asia. It all began with a photo of a river choked with the bodies of hundreds of Chinese civilians that shook Iris to her core. Who were these people? Why had this happened and how could their story have been lost to history? She could not shake that image from her head. She could not forget what she had seen. A few short years later, Chang revealed this "second Holocaust" to the world. The Japanese atrocities against the people of Nanking were so extreme that a Nazi party leader based in China actually petitioned Hitler to ask the Japanese government to stop the massacre. But who was this woman that single-handedly swept away years of silence, secrecy and shame? Her mother, Ying-Ying, provides an enlightened and nuanced look at her daughter, from Iris' home-made childhood newspaper, to her early years as a journalist and later, as a promising young historian, her struggles with her son's autism and her tragic suicide. The Woman Who Could Not Forget cements Iris' legacy as one of the most extraordinary minds of her generation and reveals the depth and beauty of the bond between a mother and daughter.

Extraordinary Circumstances Scott Berne 2008-02 At the age of nine, Scott Berne's childhood teetered on the edge of a precipice. His parents' nasty divorce and the painful custody battle that followed created an upheaval unlike anything he'd ever known. But when his mother's precarious mental health led the judge to give sole custody of Scott and his younger brother to his father, the unthinkable happened- Harriet Berne kidnapped her two boys. Extraordinary Circumstances shares the tumultuous true story of what became one of the first test cases of parental abduction in the United States under the Parental Kidnapping Prevention Act. With remarkable candor and insight, Scott recalls the terror, fear, and despair he experienced as his mother moved him and his brother through five countries and thirteen residences in an attempt to stay one step ahead of the authorities. The case attracted national and international media attention, culminating in Harriet's capture in 1981. For years to come, the ordeal continued for Scott as he dealt with emotional wounds far worse than any physical pain. Yet he refused to succumb to pity, and he became determined to share his story with those suffering a similar fate. With a unique mixture of childhood innocence and adult sensibility, Extraordinary Circumstances explores Scott's dramatic journey from victim to victor.

What I Remember Millicent Garrett Fawcett 2021-08-05 “However benevolent men may be in their intentions, they cannot know what women want and what suits the necessities of women’s lives as well as women know these things themselves.” Fawcett was only 19 years old when she launched a petition for women’s suffrage and 22 when she began her political career. An English politician, writer and feminist, Fawcett fought tirelessly to give women a right to vote and the chance to gain higher education. Although Fawcett made outstanding contributions to women’s suffrage and was one founder of Newnham’s College, Cambridge, one of the first English Universities for women, she is not as famous as one would expect. “What I Remember,” corrects this. It is the story of an extraordinary feminist trailblazer whose history almost forgot, but whose impact is still felt today. Stories of extraordinary women are often ignored, but Fawcett’s is one that can’t be. Hers is a story of strength, resilience and the fervent pursuit of all that benefits women. And, there is no better time than now to read the amazing story of the woman who won citizenship for women.

The Price and Privilege of Being a Woman Winnie Vaughan Williams 2006 Endorsements "Through gripping stories Winnie Williams provides an insightful commentary on the plight of women in diverse settings struggling to achieve their rights in the midst of oppressive cultures. With compassion and honesty, the tales are told of women fighting for their dignity while living at the margins of life. While issues of justice and equality for women have taken a back seat in times of economic and political upheaval, Winnie Williams makes a compelling case that the time has come for persons of Christian commitment to dedicate themselves to the destruction of controlling and dominating traditions that have for too long demeaned women throughout the world." Dr. Tom Graves, President, Baptist Theological Seminary at Richmond (Virginia) "Williams' second book sheds a new light on the plight of women in developing countries. While her findings confirm our darkest fears about the state of women in the world, her clarity of vision and compassion inspire us, because she goes beyond the sad statistics and external, physical conditions of these women's lives: she captures their hearts and spirits. These courageous, enterprising women who battle despair,

discrimination and abuse on every front have their best advocate in Williams, who calls for a global movement of love and liberation to help them. Her book is our wake-up call: it is time to come to the aid of our sisters in distress. Every woman counts - this is the message Williams' book drives home, and therefore each one of us can make a difference." Beatriz F. Fernandez, Book Reviewer, University Reference Librarian, Florida International University "Winnie Williams gives a well-researched and accurate snapshot of the history, landscape and culture of seven countries while skillfully weaving through her writing an expos of the sub-standard and, in many cases, sub-human treatment of women. The description of captivating scenery sharply contrasted by the underclass plight of women is startling. It highlights what Winnie Williams does so well - burn in the reader's mind the need for all people, especially Christians, to press for holistic care and concern for the oppression of women - physically, mentally, emotionally and spiritually. In The Price and Privilege of Being a Woman you can see deeply into the author's heart as she roots out the public and hidden disgraces of the treatment of women. When the time comes that women everywhere are treated with respect, Winnie Williams' passionate quest to tell the story of oppressed women will have played a part in helping lift them to a rightful place of equality." Beverly Greer, Missions Coordinator, South Carolina Cooperative Baptist Fellowship "It was my honor to accompany Winnie Williams on her trip to Russia and watch her become involved in the lives of women. In reading this book you will become involved in their lives as well, as you listen in a poignant new way to the voices of women who courageously live in the midst of traumatic social change." Dr. Sanford Becket, Associate Director of Northstar Church Network: An Association of Baptist Congregations, Virginia "The Price and Privilege of Being a Woman is well written. Tempered with Christian compassion, Mrs. Williams, through her words, reminds us that women, like men, are created by God and therefore are to be treated with equal dignity and respect. Let us pray that if but one woman among millions chooses to stand strong with determination, she will bring new hope to those who endure their injustices with quiet humility." Jo Ella White, author of three novels, West Union, South Carolina "The Price and Privilege of Being a Woman, Winnie V. Williams' recent release, is a penetrating, personal exploration into the challenges women face in many countries. The writing is vivid, easy to read, and takes the reader into the very soul of women around the world. As in her first book, Women I Can't Forget, we see the effects, both historical and current, of patriarchy - the near-universal rule of men and disrespect for women and girls. She has lived with these women in their cramped, miserably quarters, and shared some of their suffering. She shows what Christianity has and has not done to bring more justice to the women of primitive and industrial cultures. Her discussions are never superficial, but are rich with the history and culture of each of the countries. In this book we go behind the scenes into the lives of women in Russia, Macedonia, Kosovo, Guatemala, Ecuador, Alaska, and the aborigines of Australia. This would be an excellent selection for book clubs, as well as for individual reading. A must-read for those who wish to enlarge a global awareness of the consequences of patriarchy." Mimi Haddad, President, Christians for Biblical Equality, www.cbeinternational.org "The Price and Privilege of Being a Woman is a combination travelingogue, personal journal, and call to social justice for the women of the world. Across the continents and through the stories of women facing frightening challenges especially because of their gender, it will call you to action on behalf of the oppressed women of the world." Dr. Mari Gonlag, Bible Professor and Executive Director of the Center for Women in Ministry, Southern Wesleyan University, Central, South Carolina "Having traveled extensively in numerous countries of the world interviewing women of many cultures and customs, and being deeply interested in and concerned about women world-wide, Winnie Williams is an extraordinary woman who has a unique way of presenting the profiles of women in The Price and Privilege of Being a Woman. Without doubt, the eyes of the reader will be opened to a greater understanding of the international situation of women as they journey through the pages of this book. The reader, as I, will sense changes in perspective and attitude as together we are challenged by these women of courage, determination and dignity. As privileged, Christian women in the world today, Winnie urges us to recognize that 'Christianity will probably only come to these disenfranchised women when Christian women have the yearnings and longings to be God's messengers.'" Rev. Ida Mae Hays, retired IMB Missionary to Brazil; retired Pastor of Weldon Baptist Church, Weldon, North Carolina; staff of Baptist Theological Seminary at Richmond, Virginia

Not Fade Away Rebecca A. Alexander 2015-09-15 The inspiring and moving memoir of a young woman who is slowly losing her sight and hearing yet continues to live life to its fullest potential. Even a darkening world can be brilliantly lit from within. Born with a rare genetic mutation called Usher syndrome type III, Rebecca Alexander has been simultaneously losing both her sight and hearing since she was a child, and she was told that she would likely be completely blind and deaf by thirty. Then, at eighteen, a fall from a window left her athletic body completely shattered. None of us know what we would do in the face of such devastation. What Rebecca did was rise to every challenge she faced. She was losing her vision and hearing and her body was broken, but she refused to lose her drive, her zest for life, or—maybe most important—her sense of humor. Now, at thirty-five, with only a sliver of sight and significantly deteriorated hearing, she is a psychotherapist with two masters’ degrees from Columbia University and an athlete who teaches spin classes and regularly competes in extreme endurance races. She greets every day as if it were a gift, with boundless energy, innate curiosity, and a strength of spirit that have led her to places we can’t imagine. In *Not Fade Away*, Rebecca tells her extraordinary story, by turns harrowing, funny, and inspiring. She meditates on what she’s lost—from the sound of a whisper to seeing a sky full of stars, and what she’s found in return—an exquisite sense of intimacy with those she is closest to, a love of silence, a profound gratitude for everything she still has, and a joy in simple pleasures that most of us forget to notice. *Not Fade Away* is both a memoir of the senses and a unique look at the obstacles we all face—physical, psychological, and philosophical—exploring the extraordinary powers of memory, love, and perseverance. It is a gripping story, an offering of hope and motivation, and an exquisite reminder to live each day to its fullest.

One of Tumblr's most viral blogs of 2014, the Black Dogs Project is a stunning photo series by animal photographer Fred Levy. Known as “Black Dog Syndrome” in animal shelters and rescues, it refers to the unfortunate phenomenon that black dogs are frequently the LAST dogs to be adopted and the FIRST dogs to be euthanized in rescue shelters. Animal photographer Fred Levy couldn't believe that it was true, so he began talking with shelters. Not only does the phenomenon exist, but he discovered it's an epidemic. Levy decided to turn his camera lens to black dogs, showing the world how beautiful they truly are. He called the photo series, The Black Dogs Project, and the stunning photographs have been shared worldwide, spreading awareness and attention to the problem. A portion of all proceeds for Black Dogs Project will be donated to black dog rescue.

Overcoming Loss and Embracing Hope Kathy Trant 2014-06-25 On the morning of September 11, 2001, I was a happy woman, living a life I loved. I had a husband I adored and three amazing children. Life was good. In one horrifying instant, it seemed, my world was shattered when the twin towers fell. My loving husband was gone, and the life I had known went with him. It took me years to crawl out from the wreckage of that event, and though I can't say I'm healed, I consider myself a survivor. The events of 9/11 changed our entire country as profoundly as it changed my young family. We all promised to never forget, and that is what I am trying to do by sharing my story. I want the world to never forget my husband Danny, as well as the events that took him away from us. He meant the world to me, and I want his legacy to live on the way he still lives in our hearts. Miracles We Have Seen Harley Rotbart 2016-09-13 This is a book of miracles—medical events witnessed by leading physicians for which there is no reasonable medical explanation, or, if there is, the explanation itself is extraordinary. These dramatic first-person essays detail spectacular serendipities, impossible cures, breathtaking resuscitations, extraordinary awakenings, and recovery from unimaginable disasters. Still other essays give voice to cases in which the physical aspects were less dramatic than the emotional aspects, yet miraculous and transformational for everyone involved. Positive impacts left in the wake of even the gravest of tragedies, profound triumphs of heart and spirit. Preeminent physicians in many specialties, including deans and department heads on the faculties of the top university medical schools in the country describe, in everyday language and with moving testimony, their very personal reactions to these remarkable clinical experiences. Among the extraordinary cases poignantly recounted by the physicians witnessing them: A priest visiting a hospitalized patient went into cardiac arrest on the elevator, which opened up on the cardiac floor, right at the foot of the cardiac specialist, at just the right moment. A tiny premature baby dying from irreversible lung disease despite the most intensive care who recovered almost immediately after being taken from his hospital bed and placed on his mother's chest. President John F. Kennedy's son Patrick, who died shortly after birth, and whose disease eventually led to research that saved generations of babies. A nine-year-old boy who was decapitated in a horrific car accident but survived without neurological damage. A woman who conceived and delivered a healthy baby--despite having had both of her fallopian tubes surgically removed. A young man whose only hope for survival was a heart transplant, but just at the moment he developed a potentially fatal complication making a transplant impossible, his own heart began healing itself. A teenage girl near death after contracting full-blown rabies who became the first patient ever to recover from that disease after an unexpected visit by Timothy Dolan, the man who would go on to become the Archbishop of New York. A Manhattan window-washer who fell 47 stories--and not only became the only person ever to survive a fall from that height, but went on to make a full recovery. Miracles We Have Seen is a book of inspiration and optimism, and a compelling glimpse into the lives of physicians--their humanity and determined devotion to their patients and their patients' families. It reminds us that what we don't know or don't understand isn't necessarily cause for fear, and can even be reason for hope.
