MERGENT INTERNATIONAL MARKET 2001 Principles of Effective Online Teaching Nicole A. Buzzette-More 2007-01-01 Enhancing E-Learning with Media-rich Content and Interactions Richard Caladine 2008 Online learning is transcending from the text-rich educational experience of the past to a video- and audio-rich learning transformation. The greater levels of media-rich content and media-rich interaction that are currently prevalent in online leisure experiences will help to increase e-learning's future efficiency and effectiveness. "Enhancing E-Learning with Media-Rich Content and Interactions" presents instructional designers, educators, scholars, and researchers with the necessary foundational elements, theoretical underpinnings, and practical guidelines to aid in the technology selection and design of effective online learning experiences by integrating media-rich interactions and content.

India Today 2000 Opening Science Stine Bartling 2013-12-16 Modern information and communication technologies, together with a cultural upheaval within the research community, have profoundly changed research in nearly every aspect. Ranging from sharing and discussing ideas in social networks for scientists to new collaborative environments and novel publication formats, knowledge creation and dissemination as we know it is experiencing a vigorous shift towards increased transparency, collaboration and accessibility. Many assume that research workflows will change more in the next 20 years than they have in the last 200. This book provides researchers, decision makers, and other scientific stakeholders with a snapshot of the basics, the tools, and the underlying visions that drive the current scientific revolution, often called 'Open Science.'

Learning Geography Beyond the Traditional Classroom Chew-Hung Chiang 2018-05-08 This book provides a collection of critical pieces that support the idea that good teaching and learning of geography in fieldwork and using technology should consider the dimensions of curriculum design, instructional design and resource provision, as well as assessment for such learning activities. Furthermore, it clearly describes the thinking, experiences and critical comments concerning two broad areas of learning outside the traditional classroom – in the field and with technology.
