The Illustrated Guide to Assistive Technology & Devices Suzanne Robitaille
2009-12-08 A Doody's Core Title 2012 This new

illustrated guide to assistive technologies and devices chronicles the use of AT/AD - technology used by individuals with disabilities to perform functions that might otherwise be difficult or

impossible. This book empowers people to use assistive technologies to overcome some of their physical or mental limitations and have a more equal playing field. It includes real-life examples about how people with disabilities are using assistive technology (AT) to assist them in daily tasks, and discusses emotional issues related to AT/AD.

Invisible Man Ralph Ellison 2014-08-14 'I am invisible, understand, simply because people refuse to see me.' Defeated and embittered by a country which treats him as a non-being, the 'invisible man' retreats into an underground cell, where he smokes, drinks, listens to jazz and recounts his search for identity in white society: as an optimistic student in the Deep South, in the north with the black activist group the Brotherhood, and in the Harlem race riots. And explains how he came to be living underground . . . 'An American classic . . . one of the most original voices of Black America.' The Times

One for the Blackbird, One for the Crow Olivia Hawker 2019-10-08 From the bestselling author of *The Ragged Edge of Night* comes a powerful and poetic novel of survival and sacrifice on the American frontier. Wyoming, 1876. For as long as they have lived on the frontier, the Bemis and Webber families have relied on each other. With no other settlers for miles, it is a matter of survival. But when Ernest Bemis finds his wife, Cora, in a compromising situation with their neighbor, he doesn't think of survival. In one impulsive moment, a man is dead, Ernest is off to prison, and the women left behind are divided by rage and remorse. Losing her husband to Cora's indiscretion is another hardship for stoic Nettie Mae. But as a brutal Wyoming winter bears down, Cora and Nettie Mae have no choice but to come together as one family--to share the duties of working the land and raising their children. There's Nettie Mae's son, Clyde--no longer a boy, but not yet a man--who must

navigate the road to adulthood without a father to guide him, and Cora's daughter, Beulah, who is as wild and untamable as her prairie home. Bound by the uncommon threads in their lives and the challenges that lie ahead, Cora and Nettie Mae begin to forge an unexpected sisterhood. But when a love blossoms between Clyde and Beulah, bonds are once again tested, and these two resilient women must finally decide whether they can learn to trust each other--or else risk losing everything they hold dear.

Grow Your Eye Care Practice M. Wang 2020-11-15 A crash course in marketing for eye care professionals, *Grow Your Eye Care Practice: High Impact Pearls from the Marketing*

Experts guides readers through this crucial area of business development. With an increase in patients undergoing elective procedures and an increase in the amount of providers, marketing has become the most important way for eye care professionals to grow their practices and differentiate themselves from their competition. Since marketing is not addressed in any formal course in medical school, optometry school, residency or fellowship, many eye care professionals lack basic understanding and skills in this area of growing importance to their businesses. To meet this critical need, editor Dr. Ming Wang and associate editors Shareef Mahdavi, Michael Malley and Dr. Tracy Swartz have created this essential, timely handbook aggregating the key ophthalmic marketing pearls, teachings and experiences of some of the leading national and international marketing experts. *Grow Your Eye Care Practice* begins with an overview of the history and current state of ophthalmic marketing, including a fascinating

look at the commoditization of eye care as was demonstrated with the introduction of LASIK. The core chapters address foundational and innovative marketing concepts and their application to eye care, including: Market research, segmentation, targeting and positioning Patient experience Branding versus call to action Word of mouth referrals Digital marketing, including social media, websites and SEO Innovative marketing approaches Ethics and laws governing medical marketing Upcoming disruptive marketing technologies Grow Your Eye Care Practice: High Impact Pearls from the Marketing Experts is an indispensable desktop reference for all eye care professionals--ophthalmologists, optometrists, administrators, practice managers, business associates, residents, fellows, medical students and optometry students--who wish to improve their marketing skills, grow their practices and differentiate themselves from their competition. Here's the Bright Side Betty Rollin 2007 Reveals

what individuals can gain from difficult times in their lives, detailing the lessons the author has learned and the positive outcomes that can occur in such situations as failure, divorce, widowhood, and illness.

Living with Hearing Loss Marcia B. Dugan 2003 People who are hard of hearing and their friends and relatives now can learn all they need to know about hearing loss in this easy to read guide. Newly updated and revised, Living with Hearing Loss takes the reader from A to Z on the kinds and causes of hearing loss and its common early signs. Written by Marcia B. Dugan, past

president of Self Help for Hard of Hearing People (SHHH), this straightforward book provides thorough information on seeking professional evaluations and complete descriptions of hearing aids and other assistive technologies. Enhanced sections on the potential of cochlear implants and dealing with tinnitus distinguishes this very useful handbook. Readers also can take advantage of updated information on relevant Internet sites and a new list of resources on dealing with hearing loss. Living with Hearing Loss also suggests strategies for everyday situations and times of emergency. Chapters on speechreading, oral interpreters, assertive communication, and other tips for improving communication can enable people with hearing loss to make changes at work, home, and while traveling to cope with most situations. It can raise significantly the quality of the lives of hard of hearing people while also helping them to avoid dependency upon others.

Everything We Hoped For Pip Adam

2011-02-01 An unusually strong first book, this collection of short stories depends on exquisitely crafted surfaces that conceal shocking emotional force. Three of the stories are obliquely connected and feature young women on the edge. In the first of these, a new mother contemplates her new baby; in the second, a girl finds herself in rehab; and in the final story, the main character goes to jail. Other characters include a New Zealand serviceman returned from active duty in Dili, the employees of a \$2 shop, and a vegan couple at a Samoan resort.

“If Then the World a Theatre Present...”
Björn Quiring 2014-08-19 To metaphorize the world as a theatre has been a common procedure since antiquity, but the use of this trope became particularly prominent and pregnant in early modern times, especially in England. Old and new applications of the “theatrum mundi” topos pervaded discourses, often allegorizing the deceitfulness and impermanence of this world as well as the

futility of earthly strife. It was frequently woven into arguments against worldly amusements such as the stage: Commercial theatre was declared an undesirable competitor of God's well-ordered world drama. Early modern dramatists often reacted to this development by appropriating the metaphor, and in an ingenious twist, some playwrights even appropriated its anti-theatrical impetus: Early modern theatre seemed to discover a denial of its own theatricality at its very core. Drama was found to succeed best when it staged itself as a great unmasking. To investigate the reasons and effects of these developments, the anthology examines the metaphorical uses of theatre in plays, pamphlets, epics, treatises, legal proclamations and other sources.

The Story of the Sikhs Sarbpreet Singh

2021-06-30 The power of storytelling meets the colourful history of the Sikh faith in The Story of the Sikhs. In this book, author Sarbpreet Singh helps us reimagine the lives of the Sikh Gurus

through a rich narrative that focuses on storytelling that intricately weaves in selections from the Guru Granth Sahib, the Dasam Granth and epic Braj poetry. Starting from the birth of the first guru, Guru Nanak, the book charts the lives of the ten Gurus. Through carefully curated stories, the book does not just show the egalitarian ideals and compassionate worldview that have come to define the faith, but also sheds light on the historical context that defined the foundational principles which guided Sikhs during the era of each Guru. Sarbpreet has deliberately approached this retelling as a storyteller rather than as a student of history in an attempt to make the work accessible and non-scholarly. Immersive and expansive, The Story of the Sikhs is a tour de force that weaves a multi-dimensional tapestry of narrative and poetry.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of

wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to

rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

The History of America in My Lifetime

Brooks Sterritt 2020-06 "What follows is an account of events experienced by the above man. As a film subject, he was one of the best I've ever seen, despite a complete lack of dramatic ability. The sources I've used for the creation of this report are, in the main, video footage-both consensual interviews with the subject and footage generated without his knowledge. At the time of this writing, he is employed at a facility called Shred Authority Neighborhood Storage. In terms of familial relationships, he has two sisters (no contact), a mother (no contact), and a father (yearly contact). His sexual interests are best described as disappointingly vanilla with longtime urges

for mild deviancy. Hobbies include cycling, occasional woodworking, and researching arcane topics on the Internet and internalizing them. He lacks a formal education, yet is adept at finding information, albeit in an unsystematic way. I chose this subject not because of the events he experienced—though they are thrilling and profound—but because he stumbled across something that no one could turn away from. Though a select few of you may be familiar with my film work, I've recently retired to pursue other forms, hence the at times novelistic appearance of the following narrative"--

The Master Switch Tim Wu 2010-11-02 A New Yorker and Fortune Best Book of the Year "A must-read for all Americans who want to remain the ones deciding what they can read, watch, and listen to." —Arianna Huffington Analyzing the strategic maneuvers of today's great information powers—Apple, Google, and an eerily resurgent AT&T—Tim Wu uncovers a time-honored pattern in which invention begets

industry and industry begets empire. It is easy to forget that every development in the history of the American information industry—from the telephone to radio to film—once existed in an open and chaotic marketplace inhabited by entrepreneurs and utopians, just as the Internet does today. Each of these, however, grew to be dominated by a monopolist or cartel. In this pathbreaking book, Tim Wu asks: will the Internet follow the same fate? Could the Web—the entire flow of American information—come to be ruled by a corporate leviathan in possession of "the master switch"? Here, Tim Wu shows how a battle royale for the Internet's future is brewing, and this is one war we dare not tune out.

A Serial—like podcast following the clues she's left behind. And an ending you won't be able to stop talking about. "Today, WNRK is launching the

first episode of our new serialized podcast, *The Girls*, created and hosted by West McCray.” When popular radio personality West McCray receives a desperate phone call from a stranger imploring him to find nineteen-year-old runaway Sadie Hunter, he’s not convinced there’s a story there; girls go missing all the time. But when it’s revealed that Sadie fled home after the brutal murder of her little sister, Mattie, West travels to the small town of Cold Creek, Colorado, to uncover what happened. Sadie has no idea that her journey to avenge her sister will soon become the subject of a blockbuster podcast. Armed with a switchblade, Sadie follows meager clues hoping they’ll lead to the man who took Mattie’s life, because she’s determined to make him pay with his own. But as West traces her path to the darkest, most dangerous corners of big cities and small towns, a deeply unsettling mystery begins to unfold—one that’s bigger than them both. Can he find Sadie before it’s too late? Alternating between Sadie’s unflinching voice as

she hunts the killer and the podcast transcripts tracking the clues she’s left behind, *Sadie* is a breathless thriller about the lengths we go to protect the ones we love and the high price we pay when we can’t. It will haunt you long after you reach the final page.

11 Immutable Laws of Internet Branding Al Ries 2003-02 Bestselling marketing guru Al Ries and his daughter and partner Laura divulge the revolutionary strategies needed to successfully

build your company, product or service into a profitable brand using the internet. The Internet is the first major new communication medium to be introduced since television and businesses ignore it at their peril. If the Internet is going to take its place alongside the other major media it will be because it exploits a powerful new attribute - interactivity. The Internet will make traditional forms of branding, such as conventional advertising, redundant. In order to succeed in branding on the net, the message to customers must be interactive. Al and Laura Ries examine this dilemma and explain how their other revolutionary principles can help your company to build a brand on the net. Like the 22 Immutable Laws of Marketing and the 22 Immutable Laws of Branding, this will be a smart snappy read full of practical advice and marketing savvy. The authors will use anecdotes from their own consulting business with top companies to illustrate how Internet branding really works.

When love simmers between a reclusive scientist and a wealthy debutante, will they abandon ship or is it full steam ahead? Nicole Renard returns home to Galveston, Texas, to find her father deathly ill. Though she loves him, Nicole's father has always focused on what she's not. Not male. Not married. Not able to run Renard Shipping. Vowing to find a suitable husband to give her father the heir he desires before it's too late, Nicole sets out with the Renard family's greatest treasure as her dowry: the highly coveted Lafitte Dagger. But her father's rivals come after the dagger, forcing a change in Nicole's plans. After a boiler explosion aboard the Louisiana nearly took his life, Darius Thornton has been a man obsessed. He will do anything to stop even one more steamship disaster. Even if it means letting a female secretary into his secluded world. Nicole is determined not to let her odd employer scare her off with his explosive experiments, yet when respect and mutual attraction grow

between them, a new fear arises. How can she acquire an heir for her father when her heart belongs to another? And when her father's rivals discover her hiding place, will she have to choose between that love and her family's legacy?

Cold Cold Heart Tami Hoag 2021-10-05 A thrilling novel from #1 New York Times bestselling author Tami Hoag, "one of the most intense suspense writers around" (Chicago Tribune). Dana Nolan was a promising young TV reporter until a notorious serial killer tried to add her to his list of victims. Nearly a year has passed since she survived her ordeal, but the physical, emotional, and psychological scars run deep. Struggling with the torment of post-traumatic stress syndrome, plagued by flashbacks and nightmares, Dana returns to her hometown in an attempt to begin to put her life back together. But home doesn't provide the comfort she expects. Dana's harrowing story and her return to small-town life have rekindled

police and media interest in the unsolved case of her childhood best friend, Casey Grant, who disappeared without a trace the summer after their graduation from high school. Terrified of truths long buried, Dana reluctantly begins to look back at her past. Viewed through the dark filter of PTSD, old friends and loved ones become suspects and enemies. Questioning everything she knows, refusing to be defined by the traumas of her past, Dana seeks out a truth that may prove too terrible to be believed...

Lost in a Good Game Pete Etchells 2019-04-04
'Etchells writes eloquently ... A heartfelt defence of a demonised pastime' The Times 'Once in an age, a piece of culture comes along that feels like it was specifically created for you, the beats and words and ideas are there because it is your life the creator is describing. Lost In A Good Game is exactly that. It will touch your heart and

mind. And even if Bowser, Chun-li or Q-Bert weren't crucial parts of your youth, this is a flawless victory for everyone' Adam Rutherford When Pete Etchells was 14, his father died from motor neurone disease. In order to cope, he immersed himself in a virtual world - first as an escape, but later to try to understand what had happened. Etchells is now a researcher into the psychological effects of video games, and was co-author on a recent paper explaining why WHO plans to classify 'game addiction' as a danger to public health are based on bad science and (he thinks) are a bad idea. In this, his first book, he journeys through the history and development of video games - from Turing's chess machine to mass multiplayer online games like World of Warcraft- via scientific study, to investigate the highs and lows of playing and get to the bottom of our relationship with games - why we do it, and what they really mean to us. At the same time, Lost in a Good Game is a very unusual memoir of a writer coming to terms with

his grief via virtual worlds, as he tries to work out what area of popular culture we should classify games (a relatively new technology) under.

The Illustrated Guide to Assistive

Technology and Devices Suzanne Robitaille

2010-01-22 This book is an illustrated guide to assistive technologies and devices (AT/AD). It chronicles the use of AT/AD - technology used by individuals with disabilities to perform functions that might otherwise be difficult or impossible. In general, AT can include mobility devices such as walkers and wheelchairs, as well as hardware, software, and peripherals that assist people with disabilities in accessing computers or other information technologies. Advanced AT has coincided with the advent of personal electronic devices that could be customized for

use, such as computers and smart phones. For people with disabilities, AT includes simple gadgets for the home and office, electronic gadgets and complex computer systems for the workplace, mobility aids and accessible vans for getting around and modified equipment for lifestyle needs, such as talking ATMs and strobe light alarm systems. This book empowers people with disabilities to use assistive technologies to overcome some of their physical or mental limitations and have a more equal playing field. It includes real-life examples about how people with disabilities are using assistive technology (AT) to assist them in daily tasks, and discusses emotional issues related to AT/AD.

nobody knew about, least of all Flappy herself... Flappy Scott-Booth is the self-appointed queen bee of Badley Compton, a picturesque Devon village. While her husband Kenneth spends his days on the golf course, she is busy overseeing her beautiful house and gardens, and organising unforgettable events, surrounded by friends who hang on to her every word. Her life is a reflection of herself - impossibly perfect. Until the day that Hedda Harvey-Smith and her husband Charles move into the village. Into an even grander home than hers. Taking the front seat on the social scene, quite literally. That simply will not do. Flappy is determined to show Hedda how things are done here in Badley Compton. But then she looks into Charles's beautiful green eyes. And suddenly, her focus is elsewhere. She is only human, after all...
