Volkswagen Richard Copping 2005-12-24 The original air-cooled Volkswagen Cars and Transporters were all incredibly popular 1960s design classics with enduring appeal. They are explored in this fascinating book, a unique pictorial chronicle of the Volkswagen story in the fifties and sixties. The author makes extensive use of the artwork from contemporary promotional literature and rare promotional material, giving the book a real period feel.

VW Bus Richard Copping 2006 A methodical, yet lively record of VW's Transporter over its first 40-years, which presents the vehicle in the same lavish formats of artistry and photography selected by Volkswagen over the decades. Model history and range development outlined (including Campers), specifications (including USA terminology), and performance discussed with a particular emphasis on marketing and advertising strategies.

VW Beetle & Transporter Lindsay Porter 1986-01-01 Volkswagen T4 1990-2003 Richard Copping 2013-11-30 Here, Volkswagen enthusiast and prolific author Richard Copping examines, for the first time, the complete story of the T4 from the Transporter concept originated forty years before its presence at VW's Hanover factory, through its development period and full production life. Topics covered include: the background story 1949-1990; design concept to production in the 1980s; full analysis of the T4's specifications; face-lifted Caravelles and Multivans from 1996 onwards; petrol- and diesel-aspirated engines including the VR6, V6 and 2.5 litre TDI; the T4 story in the USA - the Euro Van and finally campervan conversions. The complete story of the Volkswagen T4, produced between 1990 and 2003 and the first book in the English language to have been written, illustrated and published solely about the T4, beautifully illustrated with 300 colour photographs - a sparkling mixture of archive and modern-day imagery.

Patina Volkswagens Mark Walker 2022-01-07 Since the early 2000s, the apparent explosion of interest in Volkswagens with original paint, rust and patina has inspired a generation of car fanatics, who might not be able to afford to restore a car to show condition, but still want a good looking, cool car that will stand out from the crowd. Once looked upon as being in need of restoration, cars with original paint, rust and patina, especially within the global Volkswagen community, have gradually become far more popular than restored cars. When walking down a line of cars at a car show, it's easy to see why; these cars are rare, unspoiled survivors - cars that tell a story of an interesting and varied past. The look of the Volkswagens being built in this style is so honest, unspoiled and characterful, that it has begun to inspire the media; even Hollywood movie stars and celebrities. Whilst this has undoubtedly resulted in increased car values, and turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag, the generation it initially inspired has grown with the hobby, and produced a micro-industry that still manages to embrace the 'Built not bought' ethos. This book, superbly illustrated with stunning colour photographs, takes an inside look at some of the key car builders, dealers, celebrities and hobbyists, as well as the different styles of build, meaning every single car has a style all its own. Foreword by Drew Pritchard of TV's 'Salvage Hunters' fame.

VW Transporter and Microbus Vincent Molenaar 2013-07-01 This comprehensive guide is the first one to tell the whole story of the Volkswagen Bay-Wind Transporter, produced from 1967 - 1979. Classic Car DK 2016-09-13 "When I see an Alfa Romeo, I lift my hat." Henry Ford Few things ignite such reverence as a classic car. With more than 250 iconic models from the 1940s to the 1980s, photographed from every angle, this title is a glorious celebration of the stars in the classic car firmament. Edited by award-winning automotive journalist Giles Chapman, Classic Car brings you the story of more than 20 great marques, including household names Bentley, Mercedes, Ferrari, Cadillac, and Aston Martin. Its lavish photography reveals every detail in close-ups of models that range from the 1940s giant two-ton Daimler DE36, which ferried royals about in style, through to sleek Ferraris from the 1980s capable of smashing the 200mph barrier. It puts you in the driving seat of such icons as the Chevrolet Corvette, the Ford Thunderbird, and the Mercedes 300SL and brings you the designers of these amazing machines and the story of their manufacturers. Whether you dream of owning one of these super-cool cars or you are a collector already, Classic Car is set to become a treasured favorite.

VW Camper and Microbus Richard Copping 2011-10-20 The Volkswagen Transporter is one of the best-loved and most recognisable motor vehicles of all time. The preferred transport for surfers and hippies everywhere, the Volkswagen Type 2 'bus' was born in 1950, and became the first of a new breed of vehicle, the ancestor of today's people carrier. Available in various versions, including panel van, pick up and minibus, Transporters were often converted into campervans for a newly motorised class of holidaymaker. This book looks at the development, production and use of the class first, and second, generation Transporter. With archive illustrations including many colour photographs from old brochures this book is also a great evocation of the 1950s and 60s.

The VW Camper Van Mike Harding 2013-05-23 It was invented immediately after the war, in the factory a far-sighted English military man had set up to turn the German economy from making machines of warfare to more pacific products. By the seventies that dream had been amply fulfilled, as the VW Campervan became the conveyance of choice for West Coast hippies, Australian surf bums and Europeans taking the overland route to find enlightenment and good karma in India. It had also become – indeed, still is – the first choice for any couple, or family, seeking a cheap camping holiday with wheels attached. So never mind the oddy off-centre driving wheel, the vagaries of the aircooled rear engine – the VW Campervan had become more than a vehicle – it had truly become a way of life. Mike Harding’s first ride in a Volkswagen Camper Van was back in 1961, when it was the carrying around the gear and equipment of his rock band the Manchester Rainmakers. Finally, in 2009, he could wait no longer, and bought his own, a 2001 Type 2 bay window Brazilian import Danbury conversion in hot orange and off white. Add in the endless curiosity of the author of eight monographs on church architecture, and the hilarious sense of humour of one of Britain’s best stand-up comedics, and you have a wonderful social history of the postwar years through the prism of a single transport icon.

VW Beetle Specification Guide 1949-1967 Richard Copping 2018-10-31 The VW Beetle is one of the best-loved of all classic cars, with thousands of people choosing them across the whole world, many in regular use. The years countless changes were introduced, together making a mid sixties Beetle, for instance, very different from one built in the mid-50s, or mid-70s, despite the obvious similarities. With the aid of hundreds of full colour photographs this new edition in paperback documents all the Beetle’s specification changes and model differences during the classic period 1949-67, making it possible to determine the original specification and fittings of any Beetle from this period.Uses the same format as for the highly successful VW Transporter spec guides. Aimed at early-Beetle owners and enthusiasts. Superbly illustrated with 300 colour photographs in addition in paperback for 2018.

Volkswagen Model Documentation Joachim Kuch 1999 The idea of building a car for the people was not new, but the success of such models had always been limited. At least until 1946, when the Volkswagen factory began building the first Beetles for public consumption. From then on the car just ran and ran. Volkswagen Model Documentation begins by telling the history of Volkswagen after the war, how the British under Major Ivan Hirst rescued Porsche’s concept from the rubble, and how Heinrich Nordhoff then steered the company to worldwide success. Joachim Kuch then examines in detail the genesis and history of each Volkswagen model, beginning with the Beetle and Cabriolet (Types 1 and 151), through the Karmann-Ghia (Type 14), Thing (Type 181) Transporter (Type 2, including air-and-watercooled, Campmobile and Westfalia), Type 3 (Notchback, Squareback, Fastback, Ghia), Type 4 (411, 412), and 914 (4-and 6-cylinder). Also included are separate sections detailing the important dates, changes, and milestones in each model’s production run. Packed with photographs, quotes from press and test articles of the time, and information from internal Volkswagen documents, Volkswagen Model Documentation tells the comprehensive story of all the Volkswagen boxer-engine models.

Power Farming Technical Annual 1986 Volkswagen Bus William M. Burt How to Build a Patina Volkswagen Mark Walker 2020-05-12 The explosion of Patina Volkswagens on social media has inspired those car fanatics who realise that you don’t have to restore a car to end up with a good-looking ride. At last, you can stand out from the crowd, even on a tight budget. The look of the cars that result from patina builds is honest, unspoiled, and characterful; it has also inspired the media, movie stars and celebrities. Interest in patina builds is undoubtedly resulted in increased car values, and turned a brand of cars that had always been cheap, honest mode of transportation into something cool with a high price tag. The people who run the look initially grown with the hobby, finding ways to still be cool on a tight budget and producing a media industry that says how to embrace the ‘built not bought’ ethos. How to Build a Patina Volkswagen book takes a look at the differing styles of patina VW build, and imparts tips on finding and buying a project car, carrying out a sympathetic patina style renovation and includes a chapter on re-creating a patina finish on repaired areas or missing parts.
