Mass Failure in Public Examinations of Ghana's fight for independence from Britain. Colonial forces respond with fire; soldiers are shot dead. The angry protesters descend into Accra and loot the shops, in what became the famous looting of 28 February 1948, and would mark the beginning in the Second World War. When the war ends, Gle and his fellow African soldiers do not receive their promised rewards. But they do not return peacefully to their homesteads or reassume their traditional

Curriculum Change in Nigeria

Salvation Army–Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to

Issues and Prospect in National Assessment of Technical Courses at Craft Level in the Formal School Sector

Mawuli provides answers to questions aimed at enhancing individual outlook on life as well as strategies for
doubt is pathological if it is

endowed humans with an exceptional gift which, when well-harnessed, enables us to think and solve problems. How well we use this gift of the mind is the subject matter of this book written by Mawuli

Breaking The Chains Of Darkness

Chains of darkness must be broken. Sometimes the skies seem like too hot to handle, jobs are lost, relationships

Waecsolution

this volume is being published for two reasons. The first is to present a collection of previously published articles on the subject of programming

Methodology that have helped define the field and give it direction. It is hoped that the scientist in the field will find the volume useful as a reference, while the scientist in neighboring fields will find it useful in variously acquainting himself with important ideas in programming methodology. The advanced student can also study it either in a course or by himself, in order to learn significant materials that may not appear in many texts for some time. The second reason for this volume is to make public the nature and work on programming methodology of IFIP Working Group 2.3, thereby called WG2.3. (IFIP stands for International Federation for Information Processing.) WG2.3 is one of many IFIP Working Groups that have been established to provide international forums for discussion of ideas in various areas. Generally, these groups publish proceedings of some of their meetings and occasionally they sponsor a larger conference that persons outside a group can attend. WG2.3 has been something of a mover in this respect. From the beginning the group has shunned papers, reports, meetings, and the like. This has meant too little publicity for WG2.3 and, on the other hand it has meant that ideas could be devoted almost wholly to scientific discussions.

Nigerian Academy of Education. Congress 2006

The story is a parable of repentance. Desmond Silva, who conducted them, felt safe and devoured them in his studies to improve his classroom condition. New Teacher Desmond and his new students overcame the obstacles to their study and their learning. In the end, the new students overcame their poor reading and writing skills and their inferior scores to rise to the top in their class. With the help of Desmond's constant love and support, they were able to rise to the top of the class. They became a better student and a better teacher. However, the story's moral lesson is that a new teacher who is persistent can make a difference in a student's life. The story also demonstrates the importance of a supportive teacher who can help students overcome their reading and writing problems.
