Powered Paragliding Bible 6 Jeff Goin 2020-04 A clear, CONCISE, and professionally-illustrated guide for anyone wanting to become an ACCOMPLISHED paramotor pilot, either footlaunch or on wheels. It is comprehensive but breaks down information into digestible chunks that fit well with quality training programs. Section 1 is all about safely getting to first flight and gaining competency. Section 2 covers what's needed to set out on your own. it offers PRACTICAL airspace, weather, airport, site, cross country, and maintenance knowledge. Section 3 is about MASTERING and surviving the sport including risk management, precision flying, handling turbulence, tough landing options and much more. Section 4 details the weird aerodynamics and physics that govern paramotor flight, more in-depth weather, and history knowledge. Section 5 is about choosing gear--what goes into it, the tradeoffs, and why choices are so critical to safe learning. Proper choice is key to surviving the dangerous learning phase. Section 6 explores how to get more out of the sport, like traveling with gear, photography, and other uses.
