False God of Rome
Robert Fabbri 2014-06-01
Vespasian’s mission will lead to violence, mayhem, and theft—and in the end, to a betrayal so great it will echo through the ages. Vespasian is serving as a military officer on the outskirts of the Roman Empire, suppressing local troubles and defending the Roman way. But political events in Rome—Tiberius’s increasingly insane debauchery, the escalating grain crisis—draw him back to the city. When Caligula becomes Emperor, Vespasian believes that things will improve. Instead, he watches the young emperor deteriorate from Rome's shining star to a blood-drenched, incestuous, all-powerful madman. Lavish building projects, endless games, public displays of his relationship with his sister, Drusilla, and a terrified senate are as nothing to Caligula’s most ambitious plan: to bridge the bay of Neapolis and ride over it wearing Alexander’s breastplate. And it falls to Vespasian to travel to Alexandria and steal it from Alexander’s mausoleum.

Late Victorian Holocausts
Mike Davis 2002-06-17
Examining a series of El Nino-induced droughts and the famines that they spawned around the globe in the last third of the 19th century, Mike Davis discloses the intimate, baleful relationship between imperial arrogance and natural incident that combined to produce some of the worst tragedies in human history. Late Victorian Holocausts focuses on three zones of drought and subsequent famine: India, Northern China, and Northeastern Brazil. All were affected by the same global climatic factors that caused massive crop failures, and all experienced brutal famines that decimated local populations. But the effects of drought were magnified in each case because of singularly destructive policies promulgated by different ruling elites. Davis argues that the seeds of underdevelopment in what later became known as the Third World were sown in this era of High Imperialism, as the price for capitalist modernization was paid in the currency of millions of peasants’ lives.
