SafeFITS - Safe Future Inland Transport Systems

2019-05-20 This report presents the results of the project Safe Future Inland Transport Systems (SafeFITS) which was funded by the European Commission. The project aimed to develop appropriate road safety policies and measures to achieve tangible results. Road accidents constitute a major social problem in modern societies, accounting for more than 1 million deaths per year in the EU-28 countries. The current trends suggest that, unless action is taken, traffic injuries will become the fifth leading cause of death by 2030, with the disparity between high-income and low-income countries further increasing.

Critical Care Transport American Academy of Orthopaedic Surgeons (AAOS), 2009-11-23 Welcome to the most comprehensive and authoritative resource available on critical care transport. Written by nationally recognized experts from the American Academy of Orthopaedic Surgeons (AAOS) and the American College of Emergency Physicians (ACEP), Critical Care Transport offers cutting edge relevant to any healthcare provider training in critical care transport. Like no other textbook in this market, Critical Care Transport thoroughly prepares medical professionals to function as competent members of a critical care team by covering the material that everyone—paramedics, nurses, physicians, and specialty crew—needs to know to operate effectively in the prehospital critical care environment. This book meets the curricula of major critical care training programs, including University of Pennsylvania Medical Center (UPMC), Consultant Critical Care (CCC), and the University of Arizona (Tucson). It covers the full gamut of prehospital critical care, with an emphasis on the objectives of critical care transport and on the management of specific diseases and injuries that are typical of critical care transport, from trauma to heart failure, from drowning to airway emergencies. Critical Care Transport offers critical care experts the comprehensive content necessary to provide the best care possible to the patient.

Why Samantha Kleinberg 2015-11-16 Can drinking coffee help people live longer? What makes a stock's price go up? Why did you get the flu? Causal questions like these arise on a regular basis, but our thinking about causality is anything but straightforward. It is now known that people think about causality in a structured way: What is a cause, what are causes good for, and what is causing something? This book introduces the reader to the fundamentals of causal inference and learning methods. It presents the tools of the trade for thinking more critically about causes. You’ll learn how to question claims, identify causes, make decisions based on causal information, and verify causes through further tests. Whether it’s figuring out what affects your performance at work or why you’re sick, this book data helps you understand what affects the conclusions you can draw from it. Why will help you sharpen your causal inference skills.

Voices of Hope Carole B. Shmurak 1998 Fueled by media reports of gender bias in the schools, the debate over single sex education has been recently renewed. “Voices of Hope” asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls’ own voices as they describe their hopes for their futures and the events that subsequently affect those futures.

British Pharmacopoeia 2016 Stationery Office (Great Britain) 2015-08-24 The British Pharmacopoeia (BP) 2016 will see the introduction of a new, integrated website pharmacoepoa.com that will provide a single place to access the BP online and to order British Pharmacopoeia Chemical Reference Substances. The site will replace pharmacoepoa.co.uk and will feature more information and a new look with improved functionality and accessibility. This edition also sees the introduction of a download format for use offline. This replaces the USB, and has the benefit of being updated three times per year to harmonise with the European Pharmacopoeia. Updated annually, the BP is the only comprehensive collection of authoritative official standards for UK pharmaceutical substances and medicinal products. The BP 2016 includes almost 4,000 monographs which are legally enforced by the Human Medicines Regulations 2012, and becomes legally effective on 1 January 2016. Where a pharmacopoeial monograph exists, medicinal products sold or supplied in the UK must comply with the relevant monograph. All monographs and requirements of the European Pharmacopoeia are also reproduced in the BP.
